AIDTM Student Handbook and Helpdesk Knowledge Base

PGDM Batch 2025-27 · Big Data Analytics · Artificial Intelligence & Data Science · Executive Program in AI, Analytics & Automation

Institute	Adani Institute of Digital Technology Management, Gandhinagar
Version	3.0 · 30 October 2026
Content	15 parts · 239 numbered entries · 993 indexed questions
Status mix	Official 99 · Official-derived 24 · Augmented 116
Purpose	Knowledge base for the Intelligent Student Support Agent (Agentic AI Engineering, Assignments 1 and 2)

Augmented entries are helpdesk content written for this project where AIDTM documents are silent; they are not issued by AIDTM and must be confirmed with the Program Office.

Version 3.0 · prepared 30 October 2026 · PGDM Batch 2025-27 (Big Data Analytics; Artificial Intelligence & Data Science) and the Executive Program in AI, Analytics & Automation · Adani Institute of Digital Technology Management, Gandhinagar

How this handbook is organised. It has 16 parts, each split into numbered sections. Every retrievable entry has its own number, such as **F.3.2**: Part F (Fees), section 3 (Late fees), entry 2. Each entry starts with a line giving its type, who it applies to, its status and its source, then a line of the questions it answers. Answers from the helpdesk cite these numbers, for example [F.3.2].

Status labels. - **OFFICIAL**: taken from an AIDTM document (Student Handbook 2025-27, Late Fees Policy v02, SIP & Placement Policy 2025-27, AI & DS Examination Code of Conduct, trimester calendars, Admission Offer Annexure II, AIDTM website, AI & DS Trimester I faculty sheet). - **OFFICIAL-DERIVED**: a consolidation or calculation built only from official text. - **AUGMENTED**: content written for this helpdesk where AIDTM documents are silent. It follows the pattern of the official documents and standard PGDM practice, but it is **not issued by AIDTM** and must be confirmed with the Program Office.

Entry types. overview · rule · procedure · table · profile · reference · course

Not included on purpose. Bank account numbers, applicant-specific offer-letter data and any individual student's personal data.

Contents

Part A — The Institute and its people
- A.1 About AIDTM
- A.2 Contacts and people
- A.3 Source documents and precedence

Part B — Programmes and trimester plans
- B.1 How the PGDM is structured
- B.2 PGDM (Big Data Analytics)
- B.3 PGDM (Artificial Intelligence & Data Science)
- B.4 Trimester-wise plans (dates, exams and courses)
- B.5 Executive Program in AI, Analytics & Automation (EPAAA)

Part C — Course catalogue
- C.1 Courses common to both PGDM programmes
- C.2 Big Data Analytics courses
- C.3 AI & Data Science courses
- C.4 Projects, Summer Internship and Capstone
- C.5 Diploma in Strategic Management modules
- C.6 Executive Program (EPAAA) modules

Part D — Academic regulations
- D.1 Attendance, leave and class timings
- D.2 Evaluation and grading
- D.3 Appeals, failing a course and graduation
- D.4 Course changes, records and student systems
- D.5 Responsible use of generative AI tools

Part E — Examinations
- E.1 Exam day
- E.2 Unfair means
- E.3 Complete rule lists

Part F — Fees and finance
- F.1 Fee structure
- F.2 Paying your fees
- F.3 Late fees and consequences of dues
- F.4 Refunds and other charges

Part G — Scholarships and financial assistance
- G.1 Scholarship schemes
- G.2 Applying, status and keeping your scholarship

Part H — Academic calendar
- H.1 Trimester calendars
- H.2 Holidays and the master calendar
- H.3 Deadlines

Part I — Summer Internship, Capstone and Placements
- I.1 Summer Internship and Industrial Capstone
- I.2 Evaluation, paperwork and stipend
- I.3 Placement rules and process
- I.4 Track record and preparation

Part J — Conduct and discipline
- J.1 Academic integrity
- J.2 Campus and classroom conduct
- J.3 Ragging
- J.4 How cases are decided

Part K — Facilities
- K.1 Library
- K.2 Computer centre and IT
- K.3 Classrooms, recreation and printing
- K.4 Medical help

Part L — Hostel and campus life
- L.1 Hostel, mess and transport
- L.2 Campus life

Part M — Student support and grievances
- M.1 The student helpdesk
- M.2 Grievances and committees
- M.3 Wellbeing

Part N — Privacy, identity and data protection
N.1 Privacy rules

Part O — Admissions and joining
O.1 Admissions and joining

Part X — Appendices
X.1 Reference tables

Index of questions

Part A — The Institute and its people

Who AIDTM is, who runs it, how to reach every office, and which document wins when two sources disagree.

A.0 Part A at a glance

Type: overview · **Applies to:** All · **Status:** OFFICIAL-DERIVED · **Source:** Consolidated from Part A sections

Answers: Tell me about AIDTM | Who runs AIDTM and how do I contact them? | What is in Part A?

Topic	Section
About AIDTM, vision, mission, approvals	A.1.1, A.1.2
Adani Group, Adani Foundation and institute leadership	A.1.3 to A.1.5
Statutory documents and social channels	A.1.6
Address, phone numbers, email, WhatsApp	A.2.1
Which office handles what (Program Office, Accounts, Placement, Library, IT)	A.2.2
Dean, faculty and visiting faculty	A.2.3
Every named person with their roles and committees	A.2.4
Source documents, versions and signatories	A.3.1
Known conflicts between documents and which one applies	A.3.2
The Institute’s right to change rules	A.3.3

Key facts: AIDTM was established in 2020 by the Adani Group in Gandhinagar, Gujarat; both PGDM programmes are AICTE-approved; the Dean is Dr. Rama Moondra; the Program Office can be reached on 9099981586 and admissions on +91 63589 75222.

A.1 About AIDTM

A.1.1 About AIDTM

Type: profile · **Applies to:** All · **Status:** OFFICIAL · **Source:** Student Handbook 2025-27 §1-3; AIDTM website (About Us)

Answers: What is AIDTM? | When was AIDTM established? | What is the vision and mission of AIDTM? | Is AIDTM AICTE approved? | Who is the President of AIDTM?

Adani Institute of Digital Technology Management (AIDTM) was established in 2020 by the Adani Group to create continuously employable professionals in Big Data Analytics and Artificial Intelligence & Data Science. Its PGDM programmes are AICTE-approved. Dr. Priti Adani (Chairperson, Adani Foundation) serves as President of AIDTM. Vision: to emerge as an international centre of excellence in data science and digital technology, and to create the best talent to help shape the future of India. Mission: to develop an international institute that ensures data science and digital technology are for everyone. AIDTM expects students to uphold trust, integrity, honesty and impartiality, and to conduct themselves in a way that enhances the image of the Institute.

A.1.2 AIDTM’s academic focus as described on its website

Type: profile · **Applies to:** All · **Status:** OFFICIAL · **Source:** AIDTM website (About AIDTM)

Answers: What does AIDTM teach and focus on? | Can students from a non-technical background join? | What kind of analytics does the BDA programme cover?

AIDTM highlights summer internships, on-the-job training, capstone projects and placements in leading tech organisations. Its BDA teaching covers predictive, descriptive and prescriptive analytics and supervised, semi-supervised and unsupervised algorithms. Its AI & DS teaching covers machine learning, deep learning, reinforcement learning, NLP, computer vision, explainable AI, Gen-AI, and integrating AI with big data and cloud. Students from non-technical backgrounds learn to find correlations, market trends and customer preferences, to support better decisions and help prevent fraud.

A.1.3 Adani Group and AIDTM leadership

Type: profile · **Applies to:** All · **Status:** OFFICIAL · **Source:** Student Handbook §2; AIDTM website (About Us)

Answers: What is the Adani Group? | Who is the chairman of the Adani Group? | What is Dr. Priti Adani’s role at AIDTM? | What does Growth with Goodness mean?

The Adani Group is one of India’s largest integrated infrastructure conglomerates. It spans resources (coal mining and trading), logistics (ports, shipping, rail), energy (renewable and thermal generation, transmission, distribution), agro, real estate, public transport infrastructure, consumer finance, defence, airports, data centres, cement and media. Its guiding philosophy is “Nation Building” and “Growth with Goodness”, and it has also founded an infrastructure management institute, an engineering institute and a medical college. Mr. Gautam Adani is Founder and Chairman of the Adani Group. Dr. Priti Adani is Chairperson of the Adani Foundation (the Group’s CSR arm), President of AIDTM and Adani University, and from April 2026 Chancellor of AIHER. Dr. Malay Mahadevia is Director (AAHL & Healthcare), Adani Group. In her trustee message, Dr. Priti Adani describes AIDTM’s aim as grooming future-ready professionals who combine digital technology with focused management.

A.1.4 Dr. Priti Adani and the Adani Foundation

Type: profile · **Applies to:** All · **Status:** OFFICIAL · **Source:** AIDTM website (About Us)

Answers: Who is Dr. Priti Adani? | What does the Adani Foundation do? | How many villages does the Adani Foundation work in?

Dr. Priti Adani is Founder and Chairperson of the Adani Foundation, the CSR arm of the Adani Group. The Foundation has a USD 7 billion commitment and a USD 100 million annual outlay. A doctor by training, she has led it since 1996, when it began in a few

villages of Mundra, Kutch. It now works in 7,247 villages and urban wards across 22 states, with over 800 development professionals, and has reached over 13.3 million lives. Its five focus areas are Education, Health and Nutrition, Sustainable Livelihoods, Community Development, and Climate Action. She is President of Adani University and AIDTM, and was appointed Chancellor of AIHER (a deemed university) in April 2026. Honours: an Honorary Doctorate from Gujarat Law Society University (2020) and an Honoris Causa from AIHER, Maharashtra (2025).

A.1.5 Mr. Gautam Adani and Dr. Malay Mahadevia

Type: profile · **Applies to:** All · **Status:** OFFICIAL · **Source:** AIDTM website (About Us, Our Inspiration)

Answers: Who is Gautam Adani? | Who is Dr. Malay Mahadevia? | What is the market capitalisation of the Adani Group?

Mr. Gautam Adani is Founder and Chairman of the Adani Group, a portfolio of 12 publicly traded companies with a combined market capitalisation of over USD 200 billion. He is India's first first-generation founder to take a group past that mark. He has pledged USD 7 billion for rural healthcare, education and skills, and USD 70 billion for India's green energy transition, and he lives in Ahmedabad. Dr. Malay Mahadevia is Director (AAHL & Healthcare), Adani Group. He joined in 1992 and developed Mundra Port from concept to commissioning. He was named Outstanding Manager of the Year by the Ahmedabad Management Association in 2002 and earned a PhD from Gujarat University in 2008 on coastal ecology around Mundra. Earlier he was an Assistant Professor at Government Dental College, Ahmedabad. His memberships include CEPT, FICCI, ASSOCHAM, CII, GCCI and the Gujarat University maritime studies advisory board.

A.1.6 Statutory documents and official social channels

Type: reference · **Applies to:** All · **Status:** OFFICIAL · **Source:** AIDTM website (About Us)

Answers: Where can I find the AICTE approval? | Does AIDTM have an SC/ST cell or women development cell? | What are AIDTM's social media handles? | Is there a virtual campus tour?

The AIDTM website (About Us, Statutory Documents) publishes the AICTE approval (EOA report 2026-27), the Anti-Ragging Committee, the Grievance Redressal Cell, the Women Development Cell, the SC/ST Cell and the Mandatory Disclosure document for 2026. A 360-degree virtual tour is available at aidtm.ac.in/360tour. Official social handles: Facebook (aidtmofficial), LinkedIn (aidtmofficial), Instagram (aidtmofficial).

A.2 Contacts and people

A.2.1 Campus address and general contacts

Type: reference · **Applies to:** All · **Status:** OFFICIAL · **Source:** AIDTM website; Student Handbook Annexure XVIII

Answers: What is the address of AIDTM? | What is the Program Office phone number? | How do I contact admissions? | What is the reception number? | What is the WhatsApp number?

Address: Opp. Maharaj Hotel Lane, Sarkhej-Gandhinagar Highway, PO Jamiyatpura, Gandhinagar 382423, Gujarat. Admissions phone: +91 63589 75222. Admissions email: admissions@aidtm.ac.in. AIDTM Reception: 079-25558180 (internal extension 201). Program Office mobile: 9099981586. WhatsApp enquiries: +91 63588 53050. Executive Education enquiries: Mr. Alok Giri, 8851223902, exedu@aidtm.ac.in. Website: www.aidtm.ac.in.

A.2.2 Who handles what: key offices and staff

Type: reference · **Applies to:** All · **Status:** OFFICIAL · **Source:** AIDTM website (AIDTM Team); Late Fees Policy v02 sign-off; Student Handbook

Answers: Which office handles fees? | Who is the Programme Officer? | Who handles placements? | Who is the IT officer? | Who is the librarian? | Whom do I contact for what?

The Program Office (Programme Officer: Mr. Jay Joshi) handles attendance, grades, timetables, feedback, confiscated phones and most student requests. Accounts (Assistant Manager - Accounts: Mr. Ashok Rupera) handles fee payments and receipts, under the Finance Controller (Ms. Shruti Mehta) and the Head of Finance & Accounts (Mr. Mayur Shah). Operations is headed by Mr. Ritesh Soni (Head - Operations). The Placement Office / corporate relationship cell manages SIP, capstone and placement processes. The library is run by Mr. Chetas Bhagat (Assistant Librarian). Mr. Jignesh Parekh (IT Officer) handles IT and login credentials. HR & Admin is handled by Mr. Bhavesh Panchal (Assistant Manager). Admissions is led by Mr. Haard Trivedi (Admission Manager), with Senior Admission Counsellors Ms. Raksha Desai and Mr. Aditya Thakare. Executive Education is run by Mr. Aakash Singh (Manager) and Mr. Alok Giri. The Associate Vice President is Mr. Saurin Gandhi.

A.2.3 Dean and faculty

Type: reference · **Applies to:** All · **Status:** OFFICIAL · **Source:** AIDTM website (Faculty); AI & DS Trimester I faculty sheet

Answers: Who is the Dean of AIDTM? | Who is the PGP Chair? | Who are the faculty members? | Who are the visiting faculty?

Dean: Dr. Rama Moondra. PGP Chair & Professor (Big Data Analytics): Dr. Ankit Shah. Professor, AI & Data Science: Dr. Bhaveshkumar Dharmani. Associate Professor (Soft Skills & Communication): Dr. Roshni Rawal. Assistant Professor (Marketing and Statistics): Dr. Manjari Mundanad. Assistant Professor: Mr. Vyankatesh Emche. Visiting faculty: Mr. Utkarsh Sharma (Big Data Analytics); Dr. Nitin Chanderwal (Associate Professor, University of Cincinnati, USA); Mr. Vishal Shah; Dr. Nisarg Joshi. The Programme Chair is the escalation point for academic appeals, and the Dean is the final appellate authority.

A.2.4 People directory: roles and committee memberships

Type: reference · **Applies to:** All · **Status:** OFFICIAL-DERIVED · **Source:** Derived from Handbook Annexures XIII-XVI, website, Late Fees Policy, Trim I faculty sheet

Answers: What is Dr. Ankit Shah's role? | Which committees is Dr. Rama Moondra on? | Who is Mr. Jay Joshi? | Who teaches which course in Trimester I?

Dr. Rama Moondra: Dean. Chairs the Academic, Anti-Ragging and SGRC/WGRC committees, sits on the Discipline Committee, and approved the Late Fees Policy. Dr. Ankit Shah: PGP Chair and Professor (BDA). Chairs the Discipline Committee, sits on the Academic, Anti-Ragging and SGRC committees, and teaches IAI and PDS. Dr. Bhaveshkumar Dharmani: Professor (AI & DS), Academic Committee member, teaches IAI and the IAI Lab. Dr. Roshni Rawal: Associate Professor (Soft Skills & Communication), member of the Discipline, Anti-Ragging and SGRC committees, teaches PCE-I. Mr. Vyankatesh Emche: Assistant Professor, member

of the Academic and Discipline committees, teaches DASQL, the DASQL Lab and the PDS Lab. Mr. Ritesh Soni: Head - Operations, member of the Academic, Anti-Ragging and SGRC committees, proposed the Late Fees Policy. Mr. Jay Joshi: Programme Officer, member of the Discipline and SGRC committees. Mr. Bhavesh Panchal: Assistant Manager HR & Admin, Discipline Committee member. Ms. Anshita Mulchandani: member of the Anti-Ragging and SGRC/WGRC committees. Mr. Hiren Vinzuda: Anti-Ragging Committee member. Ms. Shruti Mehta (Finance Controller) and Mr. Mayur Shah (Head - F&A) reviewed the Late Fees Policy. Dr. Manjari Mundanad: Assistant Professor (Marketing and Statistics).

A.3 Source documents and precedence

A.3.1 Source document register

Type: reference · **Applies to:** All · **Status:** OFFICIAL-DERIVED · **Source:** All documents supplied for this knowledge base

Answers: Which documents is this handbook based on? | What version is the Late Fees Policy? | Who approved the Late Fees Policy?

1. Student Handbook, PGDM Batch 2025-27: 40 numbered pages, 16 sections and 18 annexures. (2) AIDTM Late Fees Policy: document code AP-LFP, version 02, effective 1 April 2025, reference AIDTM/AP/LEP/APRIL25/02. It was proposed by Ritesh Soni (Head - Operations), reviewed by Shruti Mehta (Finance Controller) and Mayur Shah (Head - F&A), and approved by Dr. Rama Moondra (Dean). (3) PGDM (AI & DS) Examination Code of Conduct for Students, 11 rules. (4) Policy for SIP, Industrial Capstone Project & Placements, PGDM BDA and AI & DS, Batch 2025-27, 11 sections. (5) Tentative Academic Calendars for Trimester II, III and IV, Batch 2025-27. (6) Admission Offer Letter Annexure II, Fee Structure, Batch 2025-27. (7) AIDTM website pages: About Us, PGDM BDA, PGDM AI & DS, EPAAA, Placement, Faculty. (8) AI & DS Trimester I course-faculty-session sheet.

A.3.2 Which document wins when sources disagree (known conflicts)

Type: rule · **Applies to:** All · **Status:** OFFICIAL-DERIVED · **Source:** Comparison of Student Handbook, trimester calendars, Exam Code of Conduct, SIP Policy, Late Fees Policy

Answers: What if two documents give different dates or rules? | Which calendar date is correct for the start of Trimester III? | Is the SIP 4 months or 5 months? | Which exam reporting time applies to me?

Rule of precedence: a programme-specific or more recent document overrides the general Student Handbook. Known differences: (1) Trimester II start: Handbook says 28-Oct-25; the Trim II calendar says 29-Oct-25, and the calendar applies. (2) Trimester III start: the Trim II calendar says 7-Jan-26; the Trim III calendar says 19-Jan-26, and 19-Jan-26 applies. (3) Exam reporting time: the Handbook says 10 minutes before; the AI & DS Exam Code of Conduct says 15 minutes before with no entry after the start, and AI & DS students follow the Code. (4) Leaving the exam hall: the Handbook says not in the first 30 minutes or the last 15 minutes; the AI & DS Code says not before 30 minutes or in the last 5 minutes. When in doubt, follow the stricter rule. (5) SIP duration: the Handbook says 4 months; the SIP Policy 2025-27 says typically 5 months, and the SIP Policy applies. (6) Capstone duration: the Handbook (AI & DS) and both programme web pages (BDA “industry project”, AI & DS “capstone”) say 5 months; the SIP Policy says typically 4 months, and the duration depends on the organisation. (7) Lost library books: the Late Fees Policy v02 (April 2025) prevails over the Handbook. (8) The Trim IV calendar lists a “Trim III End-Term Examination” on 1-Sep-26; students should confirm its applicability with the Program Office. The Institute may change rules at any time, and revised rules apply to the current batch.

A.3.3 Right to amend rules

Type: rule · **Applies to:** All · **Status:** OFFICIAL · **Source:** Student Handbook (Disclaimer); SIP Policy §10; Admission Offer Annexure II

Answers: Can the Institute change the rules during my programme? | Do revised rules apply to my batch?

The Institute may change any rule in the Student Handbook from time to time, and revised rules also apply to the current batch. For SIP and placements, AIDTM may amend, modify or interpret the policy at any time, and its decisions are final and binding. Changes to fee payment dates are at the discretion of the AIDTM Admission Committee, so students should check the Institute website regularly.

Part B — Programmes and trimester plans

The two PGDM programmes, the Executive Programme, how the two-year structure works, and the trimester-by-trimester plan for each programme with dates, exams and courses.

B.0 Part B at a glance: programmes and full curriculum

Type: overview · **Applies to:** PGDM-BDA, PGDM-AIDS, EPAAA · **Status:** OFFICIAL-DERIVED · **Source:** Consolidated from B.2.1 to B.4.19 (Year 1 official; Year 2 allocation augmented)

Answers: What are all the subjects in all trimesters? | Give me the full curriculum | What will I study in each trimester? | Compare the BDA and AI & DS programmes

Structure (official). Two years, six trimesters, August 2025 to May 2027. Year 1: compulsory core courses then a Summer Internship. Year 2: electives and recent technologies, projects, seminars and the Capstone in Trimester VI. One credit = 10 contact hours. Both PGDMs include the AIHER Diploma in Strategic Management. Intake: BDA 90, AI & DS 60.

PGDM-BDA. Trim I (21 cr, official): Data Analysis using SQL; Express, Impress, Managers Impact; Fundamentals of Finance; Professional Communicative English-I; Python for Data Science; Statistics for Data Analytics using Excel; Project-I. Trim II (24 cr, official): Advanced Statistics; Cloud Computing; Data Exploration & Visualisation using Python; Enterprise Data Visualisation; HR Analytics; Introduction to Big Data Analytics; SIP Preparation; Project-II. Trim III (18 cr, official): Data Driven Decision Making; Introduction to Machine Learning; Python Essentials for ML; Entrepreneurship Essentials; Summer Internship (6). Trim IV (21 cr, tentative): Statistical Learning; Data Warehousing & Data Mining; NoSQL Database; Deep Learning; Marketing Management; Time Series & Forecasting; Project-IV. Trim V (21 cr, tentative): Business Analytics, Intelligence & Forecasting; Social Media & Social Network Analytics; NLP for Business; Networking, Cyber Security & Fraud Detection; Image Processing using Python; Blockchain Technology & Cyber Terrorism; Project-V. Trim VI (15 cr, tentative): Industrial Capstone Project (12); Capstone Seminar & Viva (3). Total about 120 credits.

PGDM-AI & DS. Trim I (24 cr, official): Data Analysis using SQL; Express, Impress, Managers Impact; Professional Communicative English-I; Introduction to AI; Management Principles; Python for Data Science; Statistics for AI & DS; Project-I. Trim II (21 cr, official): Cloud Computing; Data Exploration & Visualisation using Python; Introduction to Machine Learning; Introduction to Big Data Analytics; Image Processing using Python; SIP Preparation; Project-II. Trim III (21 cr, official): Introduction to Generative AI & Prompt Engineering; MLOps and AI Deployment; Deep Learning; Data Driven Decision Making; Project-III; Summer Internship (6). Trim IV (21 cr, tentative): Natural Language Processing; Computer Vision; Data Engineering; Gen-AI & Large Language Models; Statistical Learning; Reinforcement Learning; Project-IV. Trim V (21 cr, tentative): RPA & Intelligent Automation; Speech Recognition & Conversational AI; IoT & Edge AI; Data Intelligence and Analytics; AI Ethics, Governance & Responsible AI; Business Management; Project-V. Trim VI (15 cr, tentative): Industrial Capstone Project (12); Capstone Seminar & Viva (3). Total about 123 credits.

Diploma in Strategic Management modules (tentative scheduling). Trim IV: Strategic Management; Business Communication. Trim V: Competitive Advantage; AI Management; Change Management. Trim VI: Digital Transformation; Project Management.

EPAAA (official). Six-month executive programme from 25 July 2026, 90 hours (75 online on Saturdays, 15 on campus), INR 50,000 + 18% GST; modules: Decision Science & Analytics Thinking; Forecasting & Operational Excellence; Power BI for Decision Intelligence; AI for Enterprise; Power Apps; Power Automate & Workflow Engineering; AI Builder & Intelligent Automation.

B.1 How the PGDM is structured

B.1.1 Programme duration, structure and maximum time to complete

Type: rule · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL · **Source:** Student Handbook §4.3, §11

Answers: How long is the PGDM? | How many trimesters are there? | When does the programme end? | What is the maximum time to complete the PGDM? | Are core courses compulsory?

The PGDM runs for two years in six trimesters. The 2025-27 academic year began in August 2025 and the programme ends in May 2027. Year 1 consists of compulsory core courses, and all core courses must be passed. Year 2 focuses on electives across functional areas. Students complete a Summer Internship at the end of Year 1 and a Capstone Project in the final (sixth) trimester. A student who has not met the requirements by the end of the programme can take up to two more years, so the maximum is 2+2 = 4 years in total.

B.1.2 Credit system

Type: rule · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL · **Source:** AIDTM website (Course structure)

Answers: What is a credit? | How many hours is a 3-credit course? | How many credits is the summer internship?

One credit equals 10 in-class contact hours. A 3-credit course therefore has about 30 classroom hours and roughly 100 hours of total effort, with the rest spent on assignments, preparation and learning beyond the classroom. The Summer Internship Program carries 6 credits.

B.1.3 Pedagogy

Type: rule · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL · **Source:** Student Handbook §6

Answers: How are classes taught? | What is the teaching method at AIDTM? | Are there industrial visits and simulations?

AIDTM uses a student-driven blend of classroom teaching, lectures, use-case discussion and analysis, presentations, group exercises, simulations, role plays, project work, industrial visits, SIP and capstone projects, and independent self-learning. Active participation is expected, and students should come to class having read the prescribed material.

B.1.4 Group projects and Capstone Project

Type: rule · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL · **Source:** Student Handbook §7; AIDTM website (Placement)

Answers: How do group projects work? | When is the capstone project? | What happens if group members don't contribute?

Group projects are a major component of most courses. Groups are deliberately mixed by discipline, background and experience, and all members are expected to contribute equally; faculty may act if they do not. The Capstone Project takes place in the sixth trimester and puts students in charge of solving real-world, integrative business problems. It follows a framework of choosing a topic, doing a literature or documentation review, formulating a thesis and presenting the research. The capstone is mandatory for the award of the PGDM.

B.1.5 Dual degree: Diploma in Strategic Management

Type: profile · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL · **Source:** AIDTM website

Answers: What is the Diploma in Strategic Management? | Is the PGDM a dual degree? | Who awards the second diploma?

Both PGDM programmes include a Diploma in Strategic Management. It connects technical and analytical skills with business strategy, covering strategic management, competitive advantage, AI management, business communication, change management, digital transformation and project management. The diploma is awarded by the Adani Institute of Higher Education and Research (AIHER), a deemed-to-be university (NAAC A++, NIRF university rank 49).

B.2 PGDM (Big Data Analytics)

B.2.1 PGDM (Big Data Analytics)

Type: profile · **Applies to:** PGDM-BDA · **Status:** OFFICIAL · **Source:** Student Handbook §4.1; AIDTM website

Answers: What is the PGDM BDA programme? | What is the intake for BDA? | What jobs can I get after BDA? | What is covered in BDA?

PGDM (Big Data Analytics) is an AICTE-approved, two-year, full-time programme with an intake of 90. It is offered as a dual degree together with a Diploma in Strategic Management. Year 1 covers core management and big data analytics courses followed by the Summer Internship. Year 2 covers recent big data technologies and electives from technology and management, plus independent projects, seminars and a final industry project, which the programme page describes as 5 months long. Focus areas include machine learning, Python/R, business analytics and forecasting, enterprise data visualisation, data warehousing and mining, deep and reinforcement learning, social media analytics, time series, NLP, blockchain and cyber security. Typical roles include Data/Big Data Analyst, BI Analyst, Analytics Associate/Manager, Data Consultant, Data Manager and Big Data Engineer.

B.2.2 Why Big Data Analytics: market, uses and industries (BDA)

Type: profile · **Applies to:** PGDM-BDA · **Status:** OFFICIAL · **Source:** AIDTM website (PGDM BDA page)

Answers: Why study big data analytics? | What is the big data market size? | Which industries use big data analytics? | Why join AIDTM for BDA?

According to the AIDTM website, the global big data and business analytics market was US$307.51 billion in 2023 and is projected to grow from US$348.21 billion in 2024 to US$924.39 billion by 2032. Big data analytics helps organisations find hidden patterns, increase efficiency, understand markets, reduce costs, decide faster and better, and build new products. Industries that use it include e-commerce, telecom, healthcare, banking and finance, manufacturing, insurance, retail, consulting, IT, oil and gas, automobile, airlines, government, NGOs, and media and entertainment. Reasons the website gives for choosing AIDTM: an AICTE-approved programme, Adani Group leadership, industry-experienced faculty, a globally benchmarked curriculum, experts from IIMs, IITs and industry, state-of-the-art infrastructure, and corporate exposure.

B.2.3 PGDM-BDA full subject list (programme website)

Type: table · **Applies to:** PGDM-BDA · **Status:** OFFICIAL · **Source:** AIDTM website (PGDM BDA page)

Answers: List all BDA subjects | What subjects are in BDA second year? | Is NoSQL taught in BDA?

Subjects listed for PGDM-BDA across the programme: Data Analysis using SQL; Express, Impress, Managers Impact; Fundamentals of Finance; Statistical Learning; Professional Communicative English; Python for Data Science; Statistics for Data Analytics using Excel; Cloud Computing; Data Exploration & Visualisation using Python; Enterprise Data Visualisation; HR Analytics; Introduction to Big Data Analytics; Introduction to Machine Learning; Marketing Management; Deep Learning; Image Processing using Python; Analytical Insights into Networking, Cyber Security and Fraud Detection; NoSQL Database. The exact Year 2 trimester-wise list is announced by the Program Office.

B.3 PGDM (Artificial Intelligence & Data Science)

B.3.1 PGDM (Artificial Intelligence & Data Science)

Type: profile · **Applies to:** PGDM-AIDS · **Status:** OFFICIAL · **Source:** Student Handbook §4.2; AIDTM website

Answers: What is the PGDM AI & DS programme? | What is the intake for AI & DS? | What careers does AI & DS lead to?

PGDM (AI & DS) is an AICTE-approved, two-year, full-time programme with an intake of 60. It is offered as a dual degree with a Diploma in Strategic Management. Year 1 builds foundations in AI, data science, machine learning, deep learning and predictive analytics, followed by the Summer Internship. Year 2 covers Gen-AI, RPA, NLP, data engineering and modelling, plus independent projects, seminars and a capstone project. Typical roles include Data Scientist, AI/ML Engineer, NLP Developer, Data Architect, Business Analyst (AI), AI Consultant and AIOps Engineer.

B.3.2 Why AI & Data Science: market, uses and industries (AI & DS)

Type: profile · **Applies to:** PGDM-AIDS · **Status:** OFFICIAL · **Source:** AIDTM website (PGDM AI & DS page)

Answers: Why study AI and data science? | What is the AI market size? | Which industries use AI? | What job roles are there after AI & DS?

According to the AIDTM website, the AI market was estimated at US$196.63 billion in 2023 and is projected to reach US$1.87 trillion by 2032. The programme covers data analytics, machine learning applications, cloud computing, data warehousing, visualisation, deep and reinforcement learning, computer vision, NLP and generative AI. The website notes that AI helps solve complex business problems, has global impact, enables faster and automated decisions, and offers diverse career and entrepreneurial options.

Industries include e-commerce, healthcare, banking and finance, manufacturing, insurance, retail, consulting, IT, telecom, oil and gas, automobile, airlines, government, NGOs, and media. Job roles listed: Data Scientist, Data Architect, Business Consultant, AI/ML Engineer, AI Solution Leader, NLP Developer, Business Analyst (AI), and Lead for Advanced Analytics & AI.

B.3.3 PGDM-AI & DS full subject list (programme website)

Type: table · **Applies to:** PGDM-AIDS · **Status:** OFFICIAL · **Source:** AIDTM website (PGDM AI & DS page)

Answers: List all AI & DS subjects | Is reinforcement learning taught? | Is NLP or computer vision in the AI & DS syllabus?

Subjects listed for PGDM-AI & DS across the programme: Mathematical Foundations for AI & DS; Data Science and Big Data Technologies; Foundation AI & ML; Statistical Learning; Exploratory Data Analysis; Machine Learning; Deep Learning; Gen-AI & Large Language Models; Data Engineering; Data Intelligence and Analytics; Reinforcement Learning; Natural Language Processing; Computer Vision; Internet of Things; Data Analysis Tools; Business Management; Cloud Computing Essentials; Prompt Engineering; Speech Recognition; Professional Communicative English. The exact Year 2 trimester-wise list is announced by the Program Office.

B.4 Trimester-wise plans (dates, exams and courses)

B.4.1 How the Year 2 curriculum in this knowledge base was built

Type: rule · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** AUGMENTED · **Source:** Built for this project from the AIDTM website subject lists, Handbook §4 and standard PGDM practice

Answers: How was the Year 2 curriculum decided? | Are the second-year subjects final? | Who confirms the trimester IV-VI courses?

AIDTM has published a full subject list for each programme but not the trimester-wise Year 2 plan. The Trimester IV-VI course plans below place those published subjects into trimesters, following the Handbook's description of Year 2 (recent technologies, electives from management and technology, independent projects, seminars and a final capstone) and the pattern of Year 1 (3-credit courses, a project course each trimester). All Year 2 trimester allocations are tentative and are confirmed each trimester by the Program Office. The Diploma in Strategic Management modules run alongside the PGDM courses.

B.4.2 BDA: Trimester I (1 Aug 2025 to 11 Oct 2025)

Type: table · **Applies to:** PGDM-BDA · **Status:** OFFICIAL · **Source:** Student Handbook Annexure I and the trimester calendars

Answers: What subjects are in BDA Trimester I? | What are the BDA semester 1 subjects? | When does Trimester I start and end for BDA? | When are the Trimester I exams for BDA? | How many credits is BDA Trimester I?

B.4.14 PGDM-AI & DS Trimester I faculty and session count

Type: table · **Applies to:** PGDM-AIDS · **Status:** OFFICIAL · **Source:** AI & DS Trimester I course-faculty sheet

Answers: Who teaches which course in AI & DS Trimester I? | How many sessions does each Trimester I course have? | What are the short names DASQL, PDS, IAI, EIMI?

AI & DS Trimester I courses, with short name, faculty and sessions: Data Analysis using SQL (DASQL), Mr. Vyankatesh Emche, 22 sessions, plus a DASQL Lab, Mr. Emche, 9 sessions. Express, Impress, Managers Impact (EIMI), visiting faculty Mr. Vishal Shah, 20 sessions. Professional Communicative English - I (PCE-I), Dr. Roshni Rawal, 24 sessions. Introduction to AI (IAI), shared by

Dr. Bhavesh Dharmani (18 sessions) and Dr. Ankit Shah (14 sessions), plus an IAI Lab, Dr. Dharmani, 15 sessions. Python for Data Science (PDS), Dr. Ankit Shah, 25 sessions, plus a PDS Lab, Mr. Emche, 8 sessions. Statistics for AI & DS (SAI&DS), visiting faculty Dr. Nisarg Joshi, 24 sessions, plus a SAI&DS Lab, also Dr. Joshi, 10 sessions. Project - I has no faculty listed on the sheet, which also has a line for expert sessions.

B.4.15 AI & DS Trimester I session plan totals

Type: table · **Applies to:** PGDM-AIDS · **Status:** OFFICIAL-DERIVED · **Source:** Derived from AI & DS Trimester I course-faculty sheet

Answers: How many sessions are there in AI & DS Trimester I? | How many lab sessions are there? | How many sessions does each faculty teach?

Theory sessions: DASQL 22, EIMI 20, PCE-I 24, IAI 32 (18 by Dr. Bhavesh Dharmani and 14 by Dr. Ankit Shah), PDS 25 and SAI&DS 24, for 147 in total. Lab sessions: DASQL Lab 9, IAI Lab 15, PDS Lab 8 and SAI&DS Lab 10, for 42 in total. Grand total: 189 scheduled sessions, plus expert sessions. Sessions per faculty member: Mr. Vyankatesh Emche 39 (DASQL 22, DASQL Lab 9, PDS Lab 8); Dr. Ankit Shah 39 (IAI 14, PDS 25); Dr. Bhavesh Dharmani 33 (IAI 18, IAI Lab 15); Dr. Nisarg Joshi 34 (SAI&DS 24 + Lab 10); Dr. Roshni Rawal 24; Mr. Vishal Shah 20. Management Principles (3 credits in the Handbook) and Project - I have no faculty or sessions on the sheet.

B.4.16 Subjects for each programme: master list for all three programmes

Type: table · **Applies to:** PGDM-BDA, PGDM-AIDS, EPAAA · **Status:** OFFICIAL · **Source:** Handbook Annexures I A and I B; AIDTM website programme pages

Answers: List the subjects of all three programmes | What are the EPAAA modules? | What are all Year 1 subjects for BDA and AI & DS?

AIDTM offers three programmes: PGDM (Big Data Analytics), PGDM (AI & Data Science) and the Executive Program in AI, Analytics & Automation (EPAAA). PGDM-BDA Year 1, 63 credits. Trim I (21): Data Analysis using SQL; Express, Impress, Managers Impact; Fundamentals of Finance; Professional Communicative English - I; Python for Data Science; Statistics for Data Analytics using Excel; Project - I. Trim II (24): Advanced Statistics; Cloud Computing; Data Exploration & Visualisation using Python; Enterprise Data Visualisation; HR Analytics; Introduction to Big Data Analytics; SIP Preparation; Project - II. Trim III (18): Data Driven Decision Making; Introduction to Machine Learning; Python Essentials for Machine Learning; Entrepreneurship Essentials; Summer Internship Program (6 credits). PGDM-AI & DS Year 1, 66 credits. Trim I (24): Data Analysis using SQL; Express, Impress, Managers Impact; Professional Communicative English - I; Introduction to AI; Management Principles; Python for Data Science; Statistics for AI & DS; Project - I. Trim II (21): Cloud Computing; Data Exploration & Visualisation using Python; Introduction to Machine Learning; Introduction to Big Data Analytics; Image Processing using Python; SIP Preparation; Project - II. Trim III (21): Introduction to Generative AI & Prompt Engineering; MLOps and AI Deployment; Deep Learning; Data Driven Decision Making; Project - III; Summer Internship Program (6 credits). EPAAA modules: Decision Science & Analytics Thinking; Forecasting & Operational Excellence; Power BI for Decision Intelligence; AI for Enterprise; Power Apps (Low-Code Enterprise Solutions); Power Automate & Workflow Engineering; AI Builder & Intelligent Automation. Year 2 PGDM subjects are listed in B.2.3 (BDA) and B.3.3 (AI & DS); a tentative trimester-wise Year 2 plan (AUGMENTED) is in B.4.5 to B.4.13.

B.4.17 BDA vs AI & DS: common and programme-specific Year 1 courses

Type: table · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL-DERIVED · **Source:** Derived from Handbook Annexures I A and I B

Answers: What is the difference between BDA and AI & DS? | Which subjects are common to both programmes? | Which subjects are only in BDA or only in AI & DS? | How many credits is Year 1?

Courses common to both programmes in Year 1: Data Analysis using SQL; Express, Impress, Managers Impact; Professional Communicative English - I; Python for Data Science; Project - I; Cloud Computing; Data Exploration & Visualisation using Python; Introduction to Big Data Analytics; SIP Preparation; Project - II; Introduction to Machine Learning (BDA in Trim III, AI & DS in Trim II); Data Driven Decision Making; Summer Internship Program. Only in BDA: Fundamentals of Finance; Statistics for Data Analytics using Excel; Advanced Statistics; Enterprise Data Visualisation; HR Analytics; Python Essentials for Machine Learning; Entrepreneurship Essentials. Only in AI & DS: Introduction to AI; Management Principles; Statistics for AI & DS; Image Processing using Python; Introduction to Generative AI & Prompt Engineering; MLOps and AI Deployment; Deep Learning; Project - III. Year 1 credits: BDA 63, AI & DS 66. Intake: BDA 90, AI & DS 60. BDA leans towards business analytics and management, AI & DS towards AI/ML engineering and Gen-AI.

B.4.18 Diploma in Strategic Management: module schedule

Type: table · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** AUGMENTED · **Source:** Module names from the AIDTM website; scheduling built for this project

Answers: When are the strategic management diploma classes? | Which diploma modules are in which trimester?

The seven Diploma in Strategic Management modules are spread across Year 2 and are usually taught in intensive weekend or evening blocks by AIHER and AIDTM faculty. Trimester IV: Strategic Management; Business Communication. Trimester V: Competitive Advantage; AI Management; Change Management. Trimester VI: Digital Transformation; Project Management. Each module is assessed by a case-based assignment and a short exam, and the diploma is awarded by AIHER together with the PGDM, subject to passing all seven modules.

B.4.19 Year 2 electives: choice and minimum enrolment

Type: rule · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** AUGMENTED · **Source:** Built for this project

Answers: How do electives work? | Can I take an elective from the other programme? | What is the minimum number of students for an elective?

Year 2 management electives are offered from a common basket for both programmes: Marketing Management, Business Management, HR Analytics (for AI & DS students who did not take it), Fundamentals of Finance (for AI & DS students), Entrepreneurship Essentials (for AI & DS students) and Digital Marketing Analytics. Students choose one management elective in Trimester IV and one in Trimester V through the elective-selection form issued by the Program Office two weeks before the trimester. An elective runs only if at least 15 students choose it, and changes follow D.4.1 (first week of the trimester only). Students can also take one elective from the other programme's basket with Programme Chair approval, subject to seats.

B.5 Executive Program in AI, Analytics & Automation (EPAAA)

B.5.1 Executive Program in AI, Analytics & Automation (EPAAA)

Type: profile · **Applies to:** EPAAA · **Status:** OFFICIAL · **Source:** AIDTM website (EPAAA page)

Answers: What is EPAAA? | What is the executive programme at AIDTM? | Who can apply to EPAAA? | What is the EPAAA fee?

EPAAA is a six-month programme for working graduates. It begins on 25 July 2026 and has 90 learning hours: 75 hours online (25 Saturday sessions of 3 hours) plus 15 hours of on-campus immersion over 2 days. Fee: INR 50,000 + 18% GST (INR 59,000 in total). Modules: Decision Science & Analytics Thinking; Forecasting & Operational Excellence; Power BI for Decision Intelligence; AI for Enterprise; Power Apps; Power Automate & Workflow Engineering; AI Builder & Intelligent Automation. Tools covered include Excel, Power BI, Power Apps, Power Automate, AI Builder and Microsoft Copilot. Eligibility: a bachelor's or master's degree in any discipline, with no programming required. To apply, fill in the registration form and pay to confirm. Contact: Mr. Alok Giri, 8851223902, exedu@aidtm.ac.in. A certificate is awarded once the programme requirements are met. PGDM rules in this knowledge base do not apply to EPAAA unless stated.

B.5.2 EPAAA at a glance

Type: table · **Applies to:** EPAAA · **Status:** OFFICIAL · **Source:** AIDTM website (EPAAA page)

Answers: When does EPAAA start? | How many hours and sessions is EPAAA? | How do I apply to the executive programme? | Who do I contact for EPAAA?

Item	Details
Programme duration	6 months
Programme begins	25 July 2026
Learning hours	90
Online classes	75 hours (Saturday, 3 hours a week)
Campus immersion	15 hours (2 days)
Number of online sessions	25
Who should attend	Working professionals after graduation
Programme fee	INR 50,000 + 18% GST, which is INR 9,000 (total INR 59,000)

Eligibility: a bachelor's or master's degree in any discipline, with no programming skills required. To apply: fill in the registration form, wait for AIDTM to contact you, then pay the fee to confirm enrolment. Contact: Mr. Alok Giri, 8851223902, exedu@aidtm.ac.in. Certificate: awarded after meeting the requirements and policies set by AIDTM. Delivery is on weekends: online sessions plus on-campus immersion.

B.5.3 EPAAA tools and learning outcomes

Type: profile · **Applies to:** EPAAA · **Status:** OFFICIAL · **Source:** AIDTM website (EPAAA page)

Answers: What will I learn in EPAAA? | What tools does EPAAA cover? | What are the EPAAA learning outcomes?

EPAAA tools: Excel for analysis and modelling; Power BI for dashboards and business intelligence; Power Apps for low-code applications; Power Automate for workflow automation; AI Builder for no-code AI (prediction, form processing, text recognition); Microsoft Copilot for Gen-AI assistance. Learning outcomes: analyse business problems with data-driven frameworks; apply statistics and forecasting; design KPI frameworks; build interactive dashboards; apply no-code AI tools; evaluate process-optimisation opportunities; build low-code apps; automate workflows; integrate AI into apps and workflows; and evaluate the ethics, governance and risk of deploying AI. Highlights include an industry-designed curriculum, quizzes and assignments, experts from the Adani Group and around the world, and a project using synthetic or the participant's own business data.

Part C — Course catalogue

One page per course: where it sits in each programme, credits, faculty where known, what it covers, unit-by-unit topics, learning outcomes, typical assessment and tools.

C.0 Part C at a glance: how to read the course catalogue

Type: overview · **Applies to:** PGDM-BDA, PGDM-AIDS, EPAAA · **Status:** AUGMENTED · **Source:** Course names and Year 1 credits from Student Handbook Annexure I (official); syllabus representative

Answers: What courses are there? | How are courses assessed? | Where can I find the syllabus of a course? | Are the course descriptions official?

Each course page gives:

- where the course sits in each programme, with trimester and credits;
- the faculty member, where known;
- a description, five units, learning outcomes, the typical assessment and the tools used.

Section	Courses
C.1	Courses common to both PGDM programmes (13)
C.2	Big Data Analytics courses (16)
C.3	AI & Data Science courses (16)
C.4	Projects, Summer Internship and Capstone
C.5	Diploma in Strategic Management modules
C.6	Executive Program (EPAAA) modules

What is official and what is not:

- Official (Student Handbook Annexure I): the course names, trimesters and credits for Year 1 (Trimesters I-III), and the AI & DS Trimester I faculty and session counts.
- Representative syllabus written for this helpdesk: the Year 2 placement of courses and all descriptions, units, outcomes and tools. Faculty publish the official course outline at the start of each trimester.

Typical assessment schemes (the actual scheme is always the one in the faculty's course outline, D.2.1):

Course type	Typical scheme
lab	Mid-term exam 25% · End-term exam 35% · Lab work and assignments 25% · Quizzes and class participation 15%
theory	Mid-term exam 25% · End-term exam 35% · Assignments and case analyses 25% · Quizzes and class participation 15%
mgmt	Mid-term exam 25% · End-term exam 30% · Case analyses and group project 30% · Class participation 15%
comm	Presentations and role plays 40% · Written assignments 30% · End-term assessment 30%
project	Proposal 15% · Mid-review 25% · Final report 35% · Presentation and demo 25%

C.1 Courses common to both PGDM programmes

C.1.1 Data Analysis using SQL (DASQL)

Type: course · **Applies to:** PGDM-AIDS, PGDM-BDA · **Status:** AUGMENTED · **Source:** Student Handbook Annexure I (name, trimester, credits for Year 1); representative syllabus for this helpdesk

Answers: What is taught in Data Analysis using SQL? | What are the units or topics of Data Analysis using SQL (DASQL)? | Which trimester is Data Analysis using SQL in? | How many credits is Data Analysis using SQL? | Who teaches Data Analysis using SQL? | How is Data Analysis using SQL assessed?

Item	Detail
Offered in	PGDM (Big Data Analytics): Trimester I (3 credits); PGDM (AI & Data Science): Trimester I (3 credits)
Short name	DASQL
Faculty	AI & DS: Mr. Vyankatesh Emche (22 theory + 9 lab sessions)
Status	Name, trimester and credits are official (Student Handbook Annexure I); the syllabus below is representative

What the course covers. Relational databases and SQL for business analysis: querying, joining and aggregating data to answer management questions.

Units

1. Relational model, ER diagrams, keys and normalisation
2. SELECT, filtering, sorting and built-in functions
3. Joins, subqueries and set operations
4. GROUP BY, window functions and common table expressions

5. Views, indexes, transactions and a reporting mini-project

Learning outcomes

- Write analytical SQL on multi-table data
- Design a normalised schema
- Build KPI reports directly from a database

Typical assessment. Mid-term exam 25% · End-term exam 35% · Lab work and assignments 25% · Quizzes and class participation 15%. The binding scheme is the one in the faculty's course outline (D.2.1).

Tools. MySQL / PostgreSQL, MySQL Workbench

C.1.2 Express, Impress, Managers Impact (EIMI)

Type: course · **Applies to:** PGDM-AIDS, PGDM-BDA · **Status:** AUGMENTED · **Source:** Student Handbook Annexure I (name, trimester, credits for Year 1); representative syllabus for this helpdesk

Answers: What is taught in Express, Impress, Managers Impact? | What are the units or topics of Express, Impress, Managers Impact (EIMI)? | Which trimester is Express, Impress, Managers Impact in? | How many credits is Express, Impress, Managers Impact? | Who teaches Express, Impress, Managers Impact? | How is Express, Impress, Managers Impact assessed?

Item	Detail
Offered in	PGDM (Big Data Analytics): Trimester I (3 credits); PGDM (AI & Data Science): Trimester I (3 credits)
Short name	EIMI
Faculty	AI & DS: visiting faculty Mr. Vishal Shah (20 sessions)
Status	Name, trimester and credits are official (Student Handbook Annexure I); the syllabus below is representative

What the course covers. Managerial communication and personal impact: presenting ideas, persuading stakeholders and building executive presence.

Units

1. Self-awareness and personal brand
2. Structuring messages (pyramid principle)
3. Presentations and storytelling with data
4. Persuasion, negotiation basics and difficult conversations
5. Business etiquette, meetings and virtual presence

Learning outcomes

- Deliver a structured five-minute business presentation
- Adapt style to the audience
- Handle questions with confidence

Typical assessment. Presentations and role plays 40% · Written assignments 30% · End-term assessment 30%. The binding scheme is the one in the faculty's course outline (D.2.1).

Tools. PowerPoint, video feedback

C.1.3 Professional Communicative English - I (PCE-I)

Type: course · **Applies to:** PGDM-AIDS, PGDM-BDA · **Status:** AUGMENTED · **Source:** Student Handbook Annexure I (name, trimester, credits for Year 1); representative syllabus for this helpdesk

Answers: What is taught in Professional Communicative English - I? | What are the units or topics of Professional Communicative English - I (PCE-I)? | Which trimester is Professional Communicative English - I in? | How many credits is Professional Communicative English - I? | Who teaches Professional Communicative English - I? | How is Professional Communicative English - I assessed?

Item	Detail
Offered in	PGDM (Big Data Analytics): Trimester I (3 credits); PGDM (AI & Data Science): Trimester I (3 credits)
Short name	PCE-I
Faculty	AI & DS: Dr. Roshni Rawal (24 sessions)
Status	Name, trimester and credits are official (Student Handbook Annexure I); the syllabus below is representative

What the course covers. Professional written and spoken English for business and the workplace.

Units

1. Grammar and style for professional writing
2. Emails, memos and short reports
3. Reading comprehension and summarising
4. Listening skills and group discussion
5. Self-introduction and interview practice

Learning outcomes

- Write clear, error-free business documents
- Take part effectively in group discussions
- Present yourself in interviews

Typical assessment. Presentations and role plays 40% · Written assignments 30% · End-term assessment 30%. The binding scheme is the one in the faculty's course outline (D.2.1).

Tools. Language lab, LMS exercises

C.1.4 Python for Data Science (PDS)

Type: course · **Applies to:** PGDM-AIDS, PGDM-BDA · **Status:** AUGMENTED · **Source:** Student Handbook Annexure I (name, trimester, credits for Year 1); representative syllabus for this helpdesk

Answers: What is taught in Python for Data Science? | What are the units or topics of Python for Data Science (PDS)? | Which trimester is Python for Data Science in? | How many credits is Python for Data Science? | Who teaches Python for Data Science? | How is Python for Data Science assessed?

Item	Detail
Offered in	PGDM (Big Data Analytics): Trimester I (3 credits); PGDM (AI & Data Science): Trimester I (3 credits)
Short name	PDS
Faculty	AI & DS: Dr. Ankit Shah (25 sessions); lab Mr. Vyankatesh Emche (8 sessions)
Status	Name, trimester and credits are official (Student Handbook Annexure I); the syllabus below is representative

What the course covers. Python programming for data work, from the language basics to cleaning, analysing and plotting real datasets.

Units

1. Python basics: types, control flow, functions
2. Data structures and file handling
3. NumPy arrays and vectorised operations
4. pandas for cleaning, merging and grouping data
5. Matplotlib/Seaborn plotting and an exploratory-analysis mini-project

Learning outcomes

- Write clean Python scripts and notebooks
- Prepare messy data for analysis
- Produce an exploratory analysis with charts

Typical assessment. Mid-term exam 25% · End-term exam 35% · Lab work and assignments 25% · Quizzes and class participation 15%. The binding scheme is the one in the faculty's course outline (D.2.1).

Tools. Python, Anaconda, Jupyter, pandas, NumPy, Matplotlib

C.1.5 Cloud Computing (CC)

Type: course · **Applies to:** PGDM-AIDS, PGDM-BDA · **Status:** AUGMENTED · **Source:** Student Handbook Annexure I (name, trimester, credits for Year 1); representative syllabus for this helpdesk

Answers: What is taught in Cloud Computing? | What are the units or topics of Cloud Computing (CC)? | Which trimester is Cloud Computing in? | How many credits is Cloud Computing? | Who teaches Cloud Computing? | How is Cloud Computing assessed?

Item	Detail
Offered in	PGDM (Big Data Analytics): Trimester II (3 credits); PGDM (AI & Data Science): Trimester II (3 credits)
Short name	CC
Faculty	Announced in the trimester timetable
Status	Name, trimester and credits are official (Student Handbook Annexure I); the syllabus below is representative

What the course covers. Cloud concepts and hands-on use of public cloud services for storing, processing and serving data.

Units

1. Cloud models (IaaS, PaaS, SaaS) and deployment models
2. Compute, storage and networking on AWS / Azure / GCP
3. Managed databases, object storage and data lakes
4. Containers and serverless basics
5. Identity and access management, security and cost control

Learning outcomes

- Choose suitable cloud services for a data workload
- Deploy a simple data pipeline in the cloud
- Estimate and control cloud costs

Typical assessment. Mid-term exam 25% · End-term exam 35% · Lab work and assignments 25% · Quizzes and class participation 15%. The binding scheme is the one in the faculty's course outline (D.2.1).

Tools. AWS / Azure / Google Cloud free tier

C.1.6 Data Exploration & Visualisation using Python (DEVP)

Type: course · **Applies to:** PGDM-AIDS, PGDM-BDA · **Status:** AUGMENTED · **Source:** Student Handbook Annexure I (name, trimester, credits for Year 1);

representative syllabus for this helpdesk

Answers: What is taught in Data Exploration & Visualisation using Python? | What are the units or topics of Data Exploration & Visualisation using Python (DEVP)? | Which trimester is Data Exploration & Visualisation using Python in? | How many credits is Data Exploration & Visualisation using Python? | Who teaches Data Exploration & Visualisation using Python? | How is Data Exploration & Visualisation using Python assessed?

Item	Detail
Offered in	PGDM (Big Data Analytics): Trimester II (3 credits); PGDM (AI & Data Science): Trimester II (3 credits)
Short name	DEVP
Faculty	Announced in the trimester timetable
Status	Name, trimester and credits are official (Student Handbook Annexure I); the syllabus below is representative

What the course covers. Exploratory data analysis and visual communication of insights using Python.

Units

1. The exploratory-analysis workflow
2. Univariate, bivariate and multivariate analysis
3. Matplotlib, Seaborn and Plotly
4. Interactive dashboards with Streamlit or Dash
5. Visual design principles and data storytelling

Learning outcomes

- Explore an unfamiliar dataset systematically
- Choose the right chart for a question
- Build an interactive dashboard

Typical assessment. Mid-term exam 25% · End-term exam 35% · Lab work and assignments 25% · Quizzes and class participation 15%. The binding scheme is the one in the faculty's course outline (D.2.1).

Tools. Python, Seaborn, Plotly, Streamlit

C.1.7 Introduction to Big Data Analytics (IBDA)

Type: course · **Applies to:** PGDM-AIDS, PGDM-BDA · **Status:** AUGMENTED · **Source:** Student Handbook Annexure I (name, trimester, credits for Year 1); representative syllabus for this helpdesk

Answers: What is taught in Introduction to Big Data Analytics? | What are the units or topics of Introduction to Big Data Analytics (IBDA)? | Which trimester is Introduction to Big Data Analytics in? | How many credits is Introduction to Big Data Analytics? | Who teaches Introduction to Big Data Analytics? | How is Introduction to Big Data Analytics assessed?

Item	Detail
Offered in	PGDM (Big Data Analytics): Trimester II (3 credits); PGDM (AI & Data Science): Trimester II (3 credits)
Short name	IBDA
Faculty	Announced in the trimester timetable
Status	Name, trimester and credits are official (Student Handbook Annexure I); the syllabus below is representative

What the course covers. Foundations of big data systems and distributed processing for analytics at scale.

Units

1. Big data characteristics (the Vs) and architecture
2. Hadoop: HDFS and MapReduce
3. Apache Spark: RDDs, DataFrames and Spark SQL
4. Data ingestion concepts (Kafka, Sqoop) and batch versus streaming
5. Industry case studies

Learning outcomes

- Explain distributed storage and processing
- Process large datasets with PySpark
- Design a basic big-data pipeline

Typical assessment. Mid-term exam 25% · End-term exam 35% · Lab work and assignments 25% · Quizzes and class participation 15%. The binding scheme is the one in the faculty's course outline (D.2.1).

Tools. PySpark, Databricks Community Edition

C.1.8 Introduction to Machine Learning (IML)

Type: course · **Applies to:** PGDM-AIDS, PGDM-BDA · **Status:** AUGMENTED · **Source:** Student Handbook Annexure I (name, trimester, credits for Year 1); representative syllabus for this helpdesk

Answers: What is taught in Introduction to Machine Learning? | What are the units or topics of Introduction to Machine Learning (IML)? | Which trimester is Introduction to Machine Learning in? | How many credits is Introduction to Machine Learning? | Who teaches Introduction to Machine Learning? | How is Introduction to Machine Learning assessed?

Item	Detail
Offered in	PGDM (AI & Data Science): Trimester II (3 credits); PGDM (Big Data Analytics): Trimester III (3 credits)
Short name	IML
Faculty	Announced in the trimester timetable
Status	Name, trimester and credits are official (Student Handbook Annexure I); the syllabus below is representative

What the course covers. Core supervised and unsupervised machine-learning methods and the workflow to build, evaluate and improve models.

Units

1. The ML workflow and the bias-variance trade-off
2. Regression: linear and regularised (ridge, lasso)
3. Classification: logistic regression, k-NN, decision trees, Naive Bayes
4. Ensembles (random forest, boosting) and clustering (k-means, hierarchical)
5. Evaluation metrics, cross-validation and feature engineering

Learning outcomes

- Build and compare ML models
- Choose metrics suited to the business problem
- Avoid overfitting and data leakage

Typical assessment. Mid-term exam 25% · End-term exam 35% · Lab work and assignments 25% · Quizzes and class participation 15%. The binding scheme is the one in the faculty's course outline (D.2.1).

Tools. scikit-learn, pandas

C.1.9 Data Driven Decision Making (DDDM)

Type: course · **Applies to:** PGDM-AIDS, PGDM-BDA · **Status:** AUGMENTED · **Source:** Student Handbook Annexure I (name, trimester, credits for Year 1); representative syllabus for this helpdesk

Answers: What is taught in Data Driven Decision Making? | What are the units or topics of Data Driven Decision Making (DDDM)? | Which trimester is Data Driven Decision Making in? | How many credits is Data Driven Decision Making? | Who teaches Data Driven Decision Making? | How is Data Driven Decision Making assessed?

Item	Detail
Offered in	PGDM (Big Data Analytics): Trimester III (3 credits); PGDM (AI & Data Science): Trimester III (3 credits)
Short name	DDDM
Faculty	Announced in the trimester timetable
Status	Name, trimester and credits are official (Student Handbook Annexure I); the syllabus below is representative

What the course covers. Using data, experiments and models to make and defend business decisions.

Units

1. Decision analysis frameworks and decision trees
2. Designing KPIs and metrics
3. A/B testing and experimentation
4. Optimisation and linear programming basics
5. Cases in marketing, operations and finance decisions

Learning outcomes

- Frame a business decision analytically
- Design and read an experiment
- Recommend a decision backed by evidence

Typical assessment. Mid-term exam 25% · End-term exam 30% · Case analyses and group project 30% · Class participation 15%. The binding scheme is the one in the faculty's course outline (D.2.1).

Tools. Excel Solver, Python

C.1.10 SIP Preparation (SIPP)

Type: course · **Applies to:** PGDM-AIDS, PGDM-BDA · **Status:** AUGMENTED · **Source:** Student Handbook Annexure I (name, trimester, credits for Year 1); representative syllabus for this helpdesk

Answers: What is taught in SIP Preparation? | What are the units or topics of SIP Preparation (SIPP)? | Which trimester is SIP Preparation in? | How many credits is SIP Preparation? | Who teaches SIP Preparation? | How is SIP Preparation assessed?

Item	Detail
Offered in	PGDM (Big Data Analytics): Trimester II (3 credits); PGDM (AI & Data Science): Trimester II (3 credits)
Short name	SIPP
Faculty	Announced in the trimester timetable
Status	Name, trimester and credits are official (Student Handbook Annexure I); the syllabus below is representative

What the course covers. Readiness for the Summer Internship selection process and the first weeks on the job.

Units

1. CV, cover letter and LinkedIn profile
2. Aptitude tests and case interviews
3. Group discussion practice
4. Company research and domain primers
5. Mock interviews with feedback

Learning outcomes

- Produce an Institute-format CV
- Perform confidently in interviews and group discussions
- Research a target company

Typical assessment. Presentations and role plays 40% · Written assignments 30% · End-term assessment 30%. The binding scheme is the one in the faculty's course outline (D.2.1).

Tools. Placement portal, mock-interview panels

C.1.11 Deep Learning (DL)

Type: course · **Applies to:** PGDM-AIDS, PGDM-BDA · **Status:** AUGMENTED · **Source:** Student Handbook Annexure I (name, trimester, credits for Year 1); representative syllabus for this helpdesk

Answers: What is taught in Deep Learning? | What are the units or topics of Deep Learning (DL)? | Which trimester is Deep Learning in? | How many credits is Deep Learning? | Who teaches Deep Learning? | How is Deep Learning assessed?

Item	Detail
Offered in	PGDM (AI & Data Science): Trimester III (3 credits); PGDM (Big Data Analytics): Trimester IV (3 credits)
Short name	DL
Faculty	Announced in the trimester timetable
Status	Trimester placement and syllabus are a representative helpdesk plan; confirm with the Program Office

What the course covers. Neural networks and modern deep-learning architectures for images, sequences and text.

Units

1. Neural networks, backpropagation and optimisers
2. Regularisation, dropout and batch normalisation
3. Convolutional networks for images
4. Recurrent networks and LSTMs for sequences
5. Transfer learning and an introduction to transformers

Learning outcomes

- Train and tune deep networks
- Apply transfer learning to a small dataset
- Diagnose training problems

Typical assessment. Mid-term exam 25% · End-term exam 35% · Lab work and assignments 25% · Quizzes and class participation 15%. The binding scheme is the one in the faculty's course outline (D.2.1).

Tools. TensorFlow/Keras, PyTorch, GPU notebooks

C.1.12 Image Processing using Python (IPP)

Type: course · **Applies to:** PGDM-AIDS, PGDM-BDA · **Status:** AUGMENTED · **Source:** Student Handbook Annexure I (name, trimester, credits for Year 1); representative syllabus for this helpdesk

Answers: What is taught in Image Processing using Python? | What are the units or topics of Image Processing using Python (IPP)? | Which trimester is Image Processing using Python in? | How many credits is Image Processing using Python? | Who teaches Image Processing using Python? | How is Image Processing using Python assessed?

Item	Detail
Offered in	PGDM (AI & Data Science): Trimester II (3 credits); PGDM (Big Data Analytics): Trimester V (3 credits)
Short name	IPP
Faculty	Announced in the trimester timetable
Status	Trimester placement and syllabus are a representative helpdesk plan; confirm with the Program Office

What the course covers. Digital image fundamentals and classical and learning-based image analysis.

Units

1. Digital image fundamentals and colour spaces
2. Filtering, enhancement and histograms
3. Edge detection, morphology and segmentation
4. Feature extraction (SIFT/ORB, HOG)
5. Introduction to CNN-based image classification

Learning outcomes

- Pre-process images for analysis
- Extract features and segment objects
- Build a simple image classifier

Typical assessment. Mid-term exam 25% · End-term exam 35% · Lab work and assignments 25% · Quizzes and class participation 15%. The binding scheme is the one in the faculty's course outline (D.2.1).

Tools. OpenCV, scikit-image

C.1.13 Statistical Learning (SL)

Type: course · **Applies to:** PGDM-AIDS, PGDM-BDA · **Status:** AUGMENTED · **Source:** Student Handbook Annexure I (name, trimester, credits for Year 1); representative syllabus for this helpdesk

Answers: What is taught in Statistical Learning? | What are the units or topics of Statistical Learning (SL)? | Which trimester is Statistical Learning in? | How many credits is Statistical Learning? | Who teaches Statistical Learning? | How is Statistical Learning assessed?

Item	Detail
Offered in	PGDM (Big Data Analytics): Trimester IV (3 credits); PGDM (AI & Data Science): Trimester IV (3 credits)
Short name	SL
Faculty	Announced in the trimester timetable
Status	Trimester placement and syllabus are a representative helpdesk plan; confirm with the Program Office

What the course covers. The statistical foundations of predictive modelling: inference, resampling, model selection and non-linear methods.

Units

1. Linear models and inference
2. Resampling: cross-validation and the bootstrap
3. Model selection and regularisation
4. Non-linear models: splines and generalised additive models
5. Tree-based methods, SVMs and PCA

Learning outcomes

- Choose and justify a model statistically
- Quantify uncertainty in predictions
- Interpret model output for managers

Typical assessment. Mid-term exam 25% · End-term exam 35% · Lab work and assignments 25% · Quizzes and class participation 15%. The binding scheme is the one in the faculty's course outline (D.2.1).

Tools. R / Python (statsmodels, scikit-learn)

C.2 Big Data Analytics courses

C.2.1 Fundamentals of Finance (FOF)

Type: course · **Applies to:** PGDM-BDA · **Status:** AUGMENTED · **Source:** Student Handbook Annexure I (name, trimester, credits for Year 1); representative syllabus for this helpdesk

Answers: What is taught in Fundamentals of Finance? | What are the units or topics of Fundamentals of Finance (FOF)? | Which trimester is Fundamentals of Finance in? | How many credits is Fundamentals of Finance? | Who teaches Fundamentals of Finance? | How is Fundamentals of Finance assessed?

Item	Detail
Offered in	PGDM (Big Data Analytics): Trimester I (3 credits)
Short name	FOF
Faculty	Announced in the trimester timetable
Status	Name, trimester and credits are official (Student Handbook Annexure I); the syllabus below is representative

What the course covers. Financial statements and core corporate-finance tools for analytics professionals.

Units

1. Reading financial statements
2. Ratio analysis
3. Time value of money
4. Capital budgeting: NPV, IRR and payback
5. Cost of capital, working capital and an introduction to financial analytics

Learning outcomes

- Analyse a company's financial health
- Evaluate an investment proposal
- Link financial metrics to analytics work

Typical assessment. Mid-term exam 25% · End-term exam 30% · Case analyses and group project 30% · Class participation 15%. The binding scheme is the one in the faculty's course outline (D.2.1).

Tools. Excel

C.2.2 Statistics for Data Analytics using Excel (SDAE)

Type: course · **Applies to:** PGDM-BDA · **Status:** AUGMENTED · **Source:** Student Handbook Annexure I (name, trimester, credits for Year 1); representative syllabus for this helpdesk

Answers: What is taught in Statistics for Data Analytics using Excel? | What are the units or topics of Statistics for Data Analytics using Excel (SDAE)? | Which trimester is Statistics for Data Analytics using Excel in? | How many credits is Statistics for Data Analytics using Excel? | Who teaches Statistics for Data Analytics using Excel? | How is Statistics for Data Analytics using Excel assessed?

Item	Detail
Offered in	PGDM (Big Data Analytics): Trimester I (3 credits)
Short name	SDAE
Faculty	Announced in the trimester timetable
Status	Name, trimester and credits are official (Student Handbook Annexure I); the syllabus below is representative

What the course covers. Applied statistics for business decisions, using Excel as the main tool.

Units

1. Descriptive statistics and data summaries
2. Probability and common distributions
3. Sampling and confidence intervals
4. Hypothesis tests: t, chi-square and ANOVA
5. Correlation and regression, pivot tables and the Analysis ToolPak

Learning outcomes

- Summarise and test business data
- Run and interpret a regression in Excel
- Communicate statistical results clearly

Typical assessment. Mid-term exam 25% · End-term exam 35% · Lab work and assignments 25% · Quizzes and class participation 15%. The binding scheme is the one in the faculty's course outline (D.2.1).

Tools. Excel, Analysis ToolPak

C.2.3 Advanced Statistics (AS)

Type: course · **Applies to:** PGDM-BDA · **Status:** AUGMENTED · **Source:** Student Handbook Annexure I (name, trimester, credits for Year 1); representative syllabus for this helpdesk

Answers: What is taught in Advanced Statistics? | What are the units or topics of Advanced Statistics (AS)? | Which trimester is Advanced Statistics in? | How many credits is Advanced Statistics? | Who teaches Advanced Statistics? | How is Advanced Statistics assessed?

Item	Detail
Offered in	PGDM (Big Data Analytics): Trimester II (3 credits)
Short name	AS
Faculty	Announced in the trimester timetable
Status	Name, trimester and credits are official (Student Handbook Annexure I); the syllabus below is representative

What the course covers. Multivariate and inferential techniques beyond introductory statistics.

Units

1. Multiple regression and diagnostics
2. Logistic regression
3. ANOVA and MANOVA
4. Factor analysis and principal component analysis
5. Non-parametric tests and an introduction to time series

Learning outcomes

- Build and validate multivariate models
- Reduce dimensions in survey data
- Choose the right test for the data

Typical assessment. Mid-term exam 25% · End-term exam 35% · Lab work and assignments 25% · Quizzes and class participation 15%. The binding scheme is the one in the faculty's course outline (D.2.1).

Tools. R / Python, SPSS concepts

C.2.4 Enterprise Data Visualisation (EDV)

Type: course · **Applies to:** PGDM-BDA · **Status:** AUGMENTED · **Source:** Student Handbook Annexure I (name, trimester, credits for Year 1); representative syllabus for this helpdesk

Answers: What is taught in Enterprise Data Visualisation? | What are the units or topics of Enterprise Data Visualisation (EDV)? | Which trimester is Enterprise Data Visualisation in? | How many credits is Enterprise Data Visualisation? | Who teaches Enterprise Data Visualisation? | How is Enterprise Data Visualisation assessed?

Item	Detail
Offered in	PGDM (Big Data Analytics): Trimester II (3 credits)
Short name	EDV
Faculty	Announced in the trimester timetable
Status	Name, trimester and credits are official (Student Handbook Annexure I); the syllabus below is representative

What the course covers. Business-intelligence dashboards and governed enterprise reporting.

Units

1. BI concepts and the analytics stack
2. Power BI data modelling and DAX
3. Tableau dashboards
4. KPI design and visual storytelling
5. Publishing, row-level security and governance

Learning outcomes

- Build an enterprise KPI dashboard
- Model data for self-service BI
- Present insights to executives

Typical assessment. Mid-term exam 25% · End-term exam 35% · Lab work and assignments 25% · Quizzes and class participation 15%. The binding scheme is the one in the faculty's course outline (D.2.1).

Tools. Power BI, Tableau

C.2.5 HR Analytics (HRA)

Type: course · **Applies to:** PGDM-BDA · **Status:** AUGMENTED · **Source:** Student Handbook Annexure I (name, trimester, credits for Year 1); representative syllabus for this helpdesk

Answers: What is taught in HR Analytics? | What are the units or topics of HR Analytics (HRA)? | Which trimester is HR Analytics in? | How many credits is HR Analytics? | Who teaches HR Analytics? | How is HR Analytics assessed?

Item	Detail
Offered in	PGDM (Big Data Analytics): Trimester II (3 credits)
Short name	HRA
Faculty	Announced in the trimester timetable
Status	Name, trimester and credits are official (Student Handbook Annexure I); the syllabus below is representative

What the course covers. Using people data to improve hiring, retention, performance and workforce planning.

Units

1. HR metrics: attrition, absenteeism, cost per hire
2. Workforce planning
3. Attrition prediction models
4. Performance and engagement analytics
5. Ethics and privacy of people data

Learning outcomes

- Calculate and interpret HR metrics

- Predict attrition risk
- Recommend people-policy actions responsibly

Typical assessment. Mid-term exam 25% · End-term exam 30% · Case analyses and group project 30% · Class participation 15%. The binding scheme is the one in the faculty's course outline (D.2.1).

Tools. Excel, Python, Power BI

C.2.6 Python Essentials for Machine Learning (PEML)

Type: course · **Applies to:** PGDM-BDA · **Status:** AUGMENTED · **Source:** Student Handbook Annexure I (name, trimester, credits for Year 1); representative syllabus for this helpdesk

Answers: What is taught in Python Essentials for Machine Learning? | What are the units or topics of Python Essentials for Machine Learning (PEML)? | Which trimester is Python Essentials for Machine Learning in? | How many credits is Python Essentials for Machine Learning? | Who teaches Python Essentials for Machine Learning? | How is Python Essentials for Machine Learning assessed?

Item	Detail
Offered in	PGDM (Big Data Analytics): Trimester III (3 credits)
Short name	PEML
Faculty	Announced in the trimester timetable
Status	Name, trimester and credits are official (Student Handbook Annexure I); the syllabus below is representative

What the course covers. The Python toolkit and engineering habits needed to build machine-learning models.

Units

1. Python refresher for ML
2. Data preparation pipelines
3. The scikit-learn API: fit, transform, predict
4. Model persistence and simple deployment
5. End-to-end mini-project

Learning outcomes

- Write reproducible ML pipelines
- Package a trained model
- Document an ML project

Typical assessment. Mid-term exam 25% · End-term exam 35% · Lab work and assignments 25% · Quizzes and class participation 15%. The binding scheme is the one in the faculty's course outline (D.2.1).

Tools. Python, scikit-learn, joblib, Git

C.2.7 Entrepreneurship Essentials (EE)

Type: course · **Applies to:** PGDM-BDA · **Status:** AUGMENTED · **Source:** Student Handbook Annexure I (name, trimester, credits for Year 1); representative syllabus for this helpdesk

Answers: What is taught in Entrepreneurship Essentials? | What are the units or topics of Entrepreneurship Essentials (EE)? | Which trimester is Entrepreneurship Essentials in? | How many credits is Entrepreneurship Essentials? | Who teaches Entrepreneurship Essentials? | How is Entrepreneurship Essentials assessed?

Item	Detail
Offered in	PGDM (Big Data Analytics): Trimester III (3 credits)
Short name	EE
Faculty	Announced in the trimester timetable
Status	Name, trimester and credits are official (Student Handbook Annexure I); the syllabus below is representative

What the course covers. From idea to venture: finding opportunities, designing business models and pitching.

Units

1. Opportunity identification
2. Business model canvas
3. Lean startup and the minimum viable product
4. Funding and unit economics
5. Pitching to investors

Learning outcomes

- Validate a business idea
- Build a business model
- Deliver an investor pitch

Typical assessment. Mid-term exam 25% · End-term exam 30% · Case analyses and group project 30% · Class participation 15%. The binding scheme is the one in the faculty's course outline (D.2.1).

Tools. Business model canvas, pitch deck

C.2.8 Data Warehousing & Data Mining (DWDM)

Type: course · **Applies to:** PGDM-BDA · **Status:** AUGMENTED · **Source:** Student Handbook Annexure I (name, trimester, credits for Year 1);

representative syllabus for this helpdesk

Answers: What is taught in Data Warehousing & Data Mining? | What are the units or topics of Data Warehousing & Data Mining (DWDM)? | Which trimester is Data Warehousing & Data Mining in? | How many credits is Data Warehousing & Data Mining? | Who teaches Data Warehousing & Data Mining? | How is Data Warehousing & Data Mining assessed?

Item	Detail
Offered in	PGDM (Big Data Analytics): Trimester IV (3 credits)
Short name	DWDM
Faculty	Announced in the trimester timetable
Status	Trimester placement and syllabus are a representative helpdesk plan; confirm with the Program Office

What the course covers. Designing analytical data warehouses and mining them for patterns.

Units

1. Data warehouse architecture
2. Dimensional modelling: star and snowflake schemas
3. ETL and ELT pipelines
4. OLAP operations
5. Association rules, classification and clustering for mining

Learning outcomes

- Design a dimensional model
- Build an ETL flow
- Mine patterns from warehouse data

Typical assessment. Mid-term exam 25% · End-term exam 35% · Lab work and assignments 25% · Quizzes and class participation 15%. The binding scheme is the one in the faculty's course outline (D.2.1).

Tools. SQL, an ETL tool, Python

C.2.9 NoSQL Database (NOSQL)

Type: course · **Applies to:** PGDM-BDA · **Status:** AUGMENTED · **Source:** Student Handbook Annexure I (name, trimester, credits for Year 1); representative syllabus for this helpdesk

Answers: What is taught in NoSQL Database? | What are the units or topics of NoSQL Database (NOSQL)? | Which trimester is NoSQL Database in? | How many credits is NoSQL Database? | Who teaches NoSQL Database? | How is NoSQL Database assessed?

Item	Detail
Offered in	PGDM (Big Data Analytics): Trimester IV (3 credits)
Short name	NOSQL
Faculty	Announced in the trimester timetable
Status	Trimester placement and syllabus are a representative helpdesk plan; confirm with the Program Office

What the course covers. Non-relational databases for scale and flexible data, and when to use them.

Units

1. NoSQL versus RDBMS and the CAP theorem
2. Document stores (MongoDB)
3. Key-value (Redis) and column-family (Cassandra) stores
4. Graph databases (Neo4j)
5. Data modelling, querying and scaling

Learning outcomes

- Choose a database for a use case
- Model and query document and graph data
- Explain consistency trade-offs

Typical assessment. Mid-term exam 25% · End-term exam 35% · Lab work and assignments 25% · Quizzes and class participation 15%. The binding scheme is the one in the faculty's course outline (D.2.1).

Tools. MongoDB, Redis, Neo4j

C.2.10 Marketing Management (MM)

Type: course · **Applies to:** PGDM-BDA · **Status:** AUGMENTED · **Source:** Student Handbook Annexure I (name, trimester, credits for Year 1); representative syllabus for this helpdesk

Answers: What is taught in Marketing Management? | What are the units or topics of Marketing Management (MM)? | Which trimester is Marketing Management in? | How many credits is Marketing Management? | Who teaches Marketing Management? | How is Marketing Management assessed?

Item	Detail
Offered in	PGDM (Big Data Analytics): Trimester IV (3 credits)
Short name	MM
Faculty	Announced in the trimester timetable
Status	Trimester placement and syllabus are a representative helpdesk plan; confirm with the Program Office

What the course covers. Marketing fundamentals with an analytics lens; also part of the Year 2 elective basket.

Units

1. Marketing concepts, segmentation, targeting and positioning
2. Consumer behaviour
3. The marketing mix (4Ps/7Ps)
4. Digital marketing
5. Marketing metrics: customer lifetime value, acquisition cost, ROI

Learning outcomes

- Build a marketing plan
- Measure marketing performance
- Connect analytics to marketing decisions

Typical assessment. Mid-term exam 25% · End-term exam 30% · Case analyses and group project 30% · Class participation 15%. The binding scheme is the one in the faculty's course outline (D.2.1).

Tools. Excel, Google Analytics concepts

C.2.11 Time Series & Forecasting Techniques (TSF)

Type: course · **Applies to:** PGDM-BDA · **Status:** AUGMENTED · **Source:** Student Handbook Annexure I (name, trimester, credits for Year 1); representative syllabus for this helpdesk

Answers: What is taught in Time Series & Forecasting Techniques? | What are the units or topics of Time Series & Forecasting Techniques (TSF)? | Which trimester is Time Series & Forecasting Techniques in? | How many credits is Time Series & Forecasting Techniques? | Who teaches Time Series & Forecasting Techniques? | How is Time Series & Forecasting Techniques assessed?

Item	Detail
Offered in	PGDM (Big Data Analytics): Trimester IV (3 credits)
Short name	TSF
Faculty	Announced in the trimester timetable
Status	Trimester placement and syllabus are a representative helpdesk plan; confirm with the Program Office

What the course covers. Forecasting demand, sales and other business series with statistical and machine-learning methods.

Units

1. Time-series components and decomposition
2. Smoothing methods (Holt-Winters)
3. ARIMA and SARIMA
4. Machine-learning forecasting (Prophet, gradient boosting)
5. Forecast accuracy and demand planning

Learning outcomes

- Build and compare forecasting models
- Measure forecast error
- Use forecasts in planning

Typical assessment. Mid-term exam 25% · End-term exam 35% · Lab work and assignments 25% · Quizzes and class participation 15%. The binding scheme is the one in the faculty's course outline (D.2.1).

Tools. Python (statsmodels, Prophet)

C.2.12 Business Analytics, Intelligence & Forecasting (BAIF)

Type: course · **Applies to:** PGDM-BDA · **Status:** AUGMENTED · **Source:** Student Handbook Annexure I (name, trimester, credits for Year 1); representative syllabus for this helpdesk

Answers: What is taught in Business Analytics, Intelligence & Forecasting? | What are the units or topics of Business Analytics, Intelligence & Forecasting (BAIF)? | Which trimester is Business Analytics, Intelligence & Forecasting in? | How many credits is Business Analytics, Intelligence & Forecasting? | Who teaches Business Analytics, Intelligence & Forecasting? | How is Business Analytics, Intelligence & Forecasting assessed?

Item	Detail
Offered in	PGDM (Big Data Analytics): Trimester V (3 credits)
Short name	BAIF
Faculty	Announced in the trimester timetable
Status	Trimester placement and syllabus are a representative helpdesk plan; confirm with the Program Office

What the course covers. Running analytics as a business capability: from BI to predictive and prescriptive decision support.

Units

1. Analytics maturity models
2. Descriptive, predictive and prescriptive analytics
3. BI architecture and operating models
4. Forecasting for business planning
5. Managing analytics projects; industry cases

Learning outcomes

- Assess an organisation’s analytics maturity
- Plan an analytics project
- Connect forecasts to business plans

Typical assessment. Mid-term exam 25% · End-term exam 30% · Case analyses and group project 30% · Class participation 15%. The binding scheme is the one in the faculty’s course outline (D.2.1).

Tools. Power BI, Python

C.2.13 Social Media & Social Network Analytics (SMSNA)

Type: course · **Applies to:** PGDM-BDA · **Status:** AUGMENTED · **Source:** Student Handbook Annexure I (name, trimester, credits for Year 1); representative syllabus for this helpdesk

Answers: What is taught in Social Media & Social Network Analytics? | What are the units or topics of Social Media & Social Network Analytics (SMSNA)? | Which trimester is Social Media & Social Network Analytics in? | How many credits is Social Media & Social Network Analytics? | Who teaches Social Media & Social Network Analytics? | How is Social Media & Social Network Analytics assessed?

Item	Detail
Offered in	PGDM (Big Data Analytics): Trimester V (3 credits)
Short name	SMSNA
Faculty	Announced in the trimester timetable
Status	Trimester placement and syllabus are a representative helpdesk plan; confirm with the Program Office

What the course covers. Analysing social media content and network structures for marketing and strategy.

Units

1. Social media data collection and APIs
2. Text and sentiment analysis
3. Network theory and centrality
4. Community detection and influence
5. Campaign analytics

Learning outcomes

- Measure brand sentiment
- Find influential nodes in a network
- Evaluate a social campaign

Typical assessment. Mid-term exam 25% · End-term exam 35% · Lab work and assignments 25% · Quizzes and class participation 15%. The binding scheme is the one in the faculty’s course outline (D.2.1).

Tools. Python (NetworkX), Gephi

C.2.14 Natural Language Processing for Business (NLPB)

Type: course · **Applies to:** PGDM-BDA · **Status:** AUGMENTED · **Source:** Student Handbook Annexure I (name, trimester, credits for Year 1); representative syllabus for this helpdesk

Answers: What is taught in Natural Language Processing for Business? | What are the units or topics of Natural Language Processing for Business (NLPB)? | Which trimester is Natural Language Processing for Business in? | How many credits is Natural Language Processing for Business? | Who teaches Natural Language Processing for Business? | How is Natural Language Processing for Business assessed?

Item	Detail
Offered in	PGDM (Big Data Analytics): Trimester V (3 credits)
Short name	NLPB
Faculty	Announced in the trimester timetable
Status	Trimester placement and syllabus are a representative helpdesk plan; confirm with the Program Office

What the course covers. Turning business text (reviews, tickets, reports) into insight with NLP and LLM tools.

Units

1. Text pre-processing
2. Bag of words and TF-IDF
3. Sentiment analysis and topic modelling
4. Word embeddings
5. LLM applications for business text: summarisation and classification

Learning outcomes

- Analyse customer text at scale
- Build a text classifier
- Use LLMs responsibly on business documents

Typical assessment. Mid-term exam 25% · End-term exam 35% · Lab work and assignments 25% · Quizzes and class participation 15%. The binding scheme is the one in the faculty's course outline (D.2.1).

Tools. Python (NLTK, spaCy, scikit-learn), LLM APIs

C.2.15 Analytical Insights into Networking, Cyber Security & Fraud Detection (NCSFD)

Type: course · **Applies to:** PGDM-BDA · **Status:** AUGMENTED · **Source:** Student Handbook Annexure I (name, trimester, credits for Year 1); representative syllabus for this helpdesk

Answers: What is taught in Analytical Insights into Networking, Cyber Security & Fraud Detection? | What are the units or topics of Analytical Insights into Networking, Cyber Security & Fraud Detection (NCSFD)? | Which trimester is Analytical Insights into Networking, Cyber Security & Fraud Detection in? | How many credits is Analytical Insights into Networking, Cyber Security & Fraud Detection? | Who teaches Analytical Insights into Networking, Cyber Security & Fraud Detection? | How is Analytical Insights into Networking, Cyber Security & Fraud Detection assessed?

Item	Detail
Offered in	PGDM (Big Data Analytics): Trimester V (3 credits)
Short name	NCSFD
Faculty	Announced in the trimester timetable
Status	Trimester placement and syllabus are a representative helpdesk plan; confirm with the Program Office

What the course covers. Network basics, security threats and analytics for detecting attacks and fraud.

Units

1. Networking basics: TCP/IP and the OSI model
2. Security threats and controls
3. Log analytics and SIEM concepts
4. Anomaly detection
5. Fraud detection models (cards, insurance)

Learning outcomes

- Read network and security logs
- Detect anomalies in transactions
- Recommend fraud controls

Typical assessment. Mid-term exam 25% · End-term exam 35% · Lab work and assignments 25% · Quizzes and class participation 15%. The binding scheme is the one in the faculty's course outline (D.2.1).

Tools. Python, Wireshark concepts

C.2.16 Blockchain Technology & Cyber Terrorism (BCT)

Type: course · **Applies to:** PGDM-BDA · **Status:** AUGMENTED · **Source:** Student Handbook Annexure I (name, trimester, credits for Year 1); representative syllabus for this helpdesk

Answers: What is taught in Blockchain Technology & Cyber Terrorism? | What are the units or topics of Blockchain Technology & Cyber Terrorism (BCT)? | Which trimester is Blockchain Technology & Cyber Terrorism in? | How many credits is Blockchain Technology & Cyber Terrorism? | Who teaches Blockchain Technology & Cyber Terrorism? | How is Blockchain Technology & Cyber Terrorism assessed?

Item	Detail
Offered in	PGDM (Big Data Analytics): Trimester V (3 credits)
Short name	BCT
Faculty	Announced in the trimester timetable
Status	Trimester placement and syllabus are a representative helpdesk plan; confirm with the Program Office

What the course covers. Blockchain foundations and applications, and the threat landscape of cyber terrorism.

Units

1. Cryptography basics
2. Blockchain architecture and consensus
3. Smart contracts and use cases
4. Cyber terrorism, cyber warfare and critical infrastructure
5. Legal framework, including India's IT Act 2000

Learning outcomes

- Explain how a blockchain works
- Assess blockchain use cases
- Discuss cyber-threat policy

Typical assessment. Mid-term exam 25% · End-term exam 35% · Assignments and case analyses 25% · Quizzes and class participation 15%. The binding scheme is the one in the faculty's course outline (D.2.1).

Tools. Ethereum test networks

C.3 AI & Data Science courses

C.3.1 Introduction to AI (IAI)

Type: course · **Applies to:** PGDM-AIDS · **Status:** AUGMENTED · **Source:** Student Handbook Annexure I (name, trimester, credits for Year 1); representative syllabus for this helpdesk

Answers: What is taught in Introduction to AI? | What are the units or topics of Introduction to AI (IAI)? | Which trimester is Introduction to AI in? | How many credits is Introduction to AI? | Who teaches Introduction to AI? | How is Introduction to AI assessed?

Item	Detail
Offered in	PGDM (AI & Data Science): Trimester I (3 credits)
Short name	IAI
Faculty	Dr. Bhavesh Dharmani (18 sessions) and Dr. Ankit Shah (14 sessions); lab Dr. Bhavesh Dharmani (15 sessions)
Status	Name, trimester and credits are official (Student Handbook Annexure I); the syllabus below is representative

What the course covers. The scope of artificial intelligence and its core techniques, from search and reasoning to learning.

Units

1. History and scope of AI
2. Intelligent agents and environments
3. Search: BFS, DFS, A*
4. Knowledge representation and reasoning
5. Overview of ML, NLP and vision; AI ethics

Learning outcomes

- Explain the main AI approaches
- Implement basic search algorithms
- Identify AI opportunities in business

Typical assessment. Mid-term exam 25% · End-term exam 35% · Lab work and assignments 25% · Quizzes and class participation 15%. The binding scheme is the one in the faculty's course outline (D.2.1).

Tools. Python

C.3.2 Management Principles (MP)

Type: course · **Applies to:** PGDM-AIDS · **Status:** AUGMENTED · **Source:** Student Handbook Annexure I (name, trimester, credits for Year 1); representative syllabus for this helpdesk

Answers: What is taught in Management Principles? | What are the units or topics of Management Principles (MP)? | Which trimester is Management Principles in? | How many credits is Management Principles? | Who teaches Management Principles? | How is Management Principles assessed?

Item	Detail
Offered in	PGDM (AI & Data Science): Trimester I (3 credits)
Short name	MP
Faculty	Announced in the trimester timetable
Status	Name, trimester and credits are official (Student Handbook Annexure I); the syllabus below is representative

What the course covers. Foundations of management for technology professionals.

Units

1. Evolution of management thought
2. Planning and decision-making
3. Organising and structures
4. Leading and motivation
5. Controlling; managing in technology organisations

Learning outcomes

- Apply management functions to cases
- Analyse organisational structures
- Lead small teams effectively

Typical assessment. Mid-term exam 25% · End-term exam 30% · Case analyses and group project 30% · Class participation 15%. The binding scheme is the one in the faculty's course outline (D.2.1).

Tools. Case studies

C.3.3 Statistics for AI & DS (SAI&DS)

Type: course · **Applies to:** PGDM-AIDS · **Status:** AUGMENTED · **Source:** Student Handbook Annexure I (name, trimester, credits for Year 1); representative syllabus for this helpdesk

Answers: What is taught in Statistics for AI & DS? | What are the units or topics of Statistics for AI & DS (SAI&DS)? | Which trimester is Statistics for AI & DS

in? | How many credits is Statistics for AI & DS? | Who teaches Statistics for AI & DS? | How is Statistics for AI & DS assessed?

Item	Detail
Offered in	PGDM (AI & Data Science): Trimester I (3 credits)
Short name	SAI&DS
Faculty	Visiting faculty Dr. Nisarg Joshi (24 sessions + 10 lab sessions)
Status	Name, trimester and credits are official (Student Handbook Annexure I); the syllabus below is representative

What the course covers. The probability and statistics that underpin machine learning.

Units

1. Descriptive statistics
2. Probability and Bayes' theorem
3. Random variables and distributions
4. Sampling, estimation and hypothesis testing
5. Correlation, regression and statistics in Python

Learning outcomes

- Apply probability to data problems
- Test hypotheses correctly
- Use statistics as a base for ML

Typical assessment. Mid-term exam 25% · End-term exam 35% · Lab work and assignments 25% · Quizzes and class participation 15%. The binding scheme is the one in the faculty's course outline (D.2.1).

Tools. Python (SciPy, statsmodels)

C.3.4 Introduction to Generative AI & Prompt Engineering (GAIPE)

Type: course · **Applies to:** PGDM-AIDS · **Status:** AUGMENTED · **Source:** Student Handbook Annexure I (name, trimester, credits for Year 1); representative syllabus for this helpdesk

Answers: What is taught in Introduction to Generative AI & Prompt Engineering? | What are the units or topics of Introduction to Generative AI & Prompt Engineering (GAIPE)? | Which trimester is Introduction to Generative AI & Prompt Engineering in? | How many credits is Introduction to Generative AI & Prompt Engineering? | Who teaches Introduction to Generative AI & Prompt Engineering? | How is Introduction to Generative AI & Prompt Engineering assessed?

Item	Detail
Offered in	PGDM (AI & Data Science): Trimester III (3 credits)
Short name	GAIPE
Faculty	Announced in the trimester timetable
Status	Name, trimester and credits are official (Student Handbook Annexure I); the syllabus below is representative

What the course covers. How generative models work and how to use large language models effectively and safely.

Units

1. Generative models: VAEs, GANs, diffusion, transformers
2. LLMs and tokenisation
3. Prompt patterns: zero/few-shot, chain-of-thought, structured output
4. Retrieval-augmented generation basics
5. Evaluation, safety and responsible use

Learning outcomes

- Write effective prompts
- Build a simple RAG application
- Evaluate LLM outputs

Typical assessment. Mid-term exam 25% · End-term exam 35% · Lab work and assignments 25% · Quizzes and class participation 15%. The binding scheme is the one in the faculty's course outline (D.2.1).

Tools. LLM APIs, LangChain, vector databases

C.3.5 MLOps and AI Deployment (MLOPS)

Type: course · **Applies to:** PGDM-AIDS · **Status:** AUGMENTED · **Source:** Student Handbook Annexure I (name, trimester, credits for Year 1); representative syllabus for this helpdesk

Answers: What is taught in MLOps and AI Deployment? | What are the units or topics of MLOps and AI Deployment (MLOPS)? | Which trimester is MLOps and AI Deployment in? | How many credits is MLOps and AI Deployment? | Who teaches MLOps and AI Deployment? | How is MLOps and AI Deployment assessed?

Item	Detail
Offered in	PGDM (AI & Data Science): Trimester III (3 credits)
Short name	MLOPS
Faculty	Announced in the trimester timetable
Status	Name, trimester and credits are official (Student Handbook Annexure I); the syllabus below is representative

What the course covers. Taking models from notebook to production and keeping them healthy.

Units

1. The ML lifecycle
2. Experiment tracking (MLflow)
3. Packaging and serving: FastAPI, Docker
4. CI/CD for ML
5. Monitoring, drift and retraining

Learning outcomes

- Deploy a model as an API
- Automate training and testing
- Monitor a model in production

Typical assessment. Mid-term exam 25% · End-term exam 35% · Lab work and assignments 25% · Quizzes and class participation 15%. The binding scheme is the one in the faculty's course outline (D.2.1).

Tools. Docker, MLflow, FastAPI, GitHub Actions

C.3.6 Natural Language Processing (NLP)

Type: course · **Applies to:** PGDM-AIDS · **Status:** AUGMENTED · **Source:** Student Handbook Annexure I (name, trimester, credits for Year 1); representative syllabus for this helpdesk

Answers: What is taught in Natural Language Processing? | What are the units or topics of Natural Language Processing (NLP)? | Which trimester is Natural Language Processing in? | How many credits is Natural Language Processing? | Who teaches Natural Language Processing? | How is Natural Language Processing assessed?

Item	Detail
Offered in	PGDM (AI & Data Science): Trimester IV (3 credits)
Short name	NLP
Faculty	Announced in the trimester timetable
Status	Trimester placement and syllabus are a representative helpdesk plan; confirm with the Program Office

What the course covers. Modern NLP from text processing to transformer models.

Units

1. Text processing
2. Word embeddings
3. Sequence models
4. Transformers and BERT
5. Tasks: NER, classification, question answering, summarisation

Learning outcomes

- Build NLP pipelines
- Fine-tune a transformer
- Evaluate NLP systems

Typical assessment. Mid-term exam 25% · End-term exam 35% · Lab work and assignments 25% · Quizzes and class participation 15%. The binding scheme is the one in the faculty's course outline (D.2.1).

Tools. Hugging Face Transformers, spaCy, PyTorch

C.3.7 Computer Vision (CV)

Type: course · **Applies to:** PGDM-AIDS · **Status:** AUGMENTED · **Source:** Student Handbook Annexure I (name, trimester, credits for Year 1); representative syllabus for this helpdesk

Answers: What is taught in Computer Vision? | What are the units or topics of Computer Vision (CV)? | Which trimester is Computer Vision in? | How many credits is Computer Vision? | Who teaches Computer Vision? | How is Computer Vision assessed?

Item	Detail
Offered in	PGDM (AI & Data Science): Trimester IV (3 credits)
Short name	CV
Faculty	Announced in the trimester timetable
Status	Trimester placement and syllabus are a representative helpdesk plan; confirm with the Program Office

What the course covers. Deep-learning methods for understanding images and video.

Units

1. Image formation
2. CNN architectures (ResNet, EfficientNet)
3. Object detection (YOLO)
4. Segmentation (U-Net)
5. Vision transformers and applications

Learning outcomes

- Train detection and segmentation models
- Choose architectures for a task
- Deploy a vision model

Typical assessment. Mid-term exam 25% · End-term exam 35% · Lab work and assignments 25% · Quizzes and class participation 15%. The binding scheme is the one in the faculty's course outline (D.2.1).

Tools. PyTorch, OpenCV, Ultralytics

C.3.8 Data Engineering (DE)

Type: course · **Applies to:** PGDM-AIDS · **Status:** AUGMENTED · **Source:** Student Handbook Annexure I (name, trimester, credits for Year 1); representative syllabus for this helpdesk

Answers: What is taught in Data Engineering? | What are the units or topics of Data Engineering (DE)? | Which trimester is Data Engineering in? | How many credits is Data Engineering? | Who teaches Data Engineering? | How is Data Engineering assessed?

Item	Detail
Offered in	PGDM (AI & Data Science): Trimester IV (3 credits)
Short name	DE
Faculty	Announced in the trimester timetable
Status	Trimester placement and syllabus are a representative helpdesk plan; confirm with the Program Office

What the course covers. Building reliable data pipelines and platforms for analytics and AI.

Units

1. Data architectures: warehouse, lake, lakehouse
2. Batch pipelines with Spark
3. Orchestration with Airflow
4. Streaming with Kafka
5. Data quality and governance

Learning outcomes

- Design a data platform
- Build and schedule pipelines
- Enforce data quality

Typical assessment. Mid-term exam 25% · End-term exam 35% · Lab work and assignments 25% · Quizzes and class participation 15%. The binding scheme is the one in the faculty's course outline (D.2.1).

Tools. Spark, Airflow, Kafka, dbt concepts

C.3.9 Gen-AI & Large Language Models (GENAI)

Type: course · **Applies to:** PGDM-AIDS · **Status:** AUGMENTED · **Source:** Student Handbook Annexure I (name, trimester, credits for Year 1); representative syllabus for this helpdesk

Answers: What is taught in Gen-AI & Large Language Models? | What are the units or topics of Gen-AI & Large Language Models (GENAI)? | Which trimester is Gen-AI & Large Language Models in? | How many credits is Gen-AI & Large Language Models? | Who teaches Gen-AI & Large Language Models? | How is Gen-AI & Large Language Models assessed?

Item	Detail
Offered in	PGDM (AI & Data Science): Trimester IV (3 credits)
Short name	GENAI
Faculty	Announced in the trimester timetable
Status	Trimester placement and syllabus are a representative helpdesk plan; confirm with the Program Office

What the course covers. Advanced LLM engineering: adapting, grounding and governing large language models.

Units

1. Transformer internals
2. Fine-tuning (LoRA / PEFT)
3. RAG systems and vector databases
4. Agents and tool use
5. LLM evaluation, guardrails and cost

Learning outcomes

- Fine-tune an open model

- Build a grounded agent
- Evaluate and guard an LLM application

Typical assessment. Mid-term exam 25% · End-term exam 35% · Lab work and assignments 25% · Quizzes and class participation 15%. The binding scheme is the one in the faculty's course outline (D.2.1).

Tools. Hugging Face, LangChain/LlamaIndex, vector databases

C.3.10 Reinforcement Learning (RL)

Type: course · **Applies to:** PGDM-AIDS · **Status:** AUGMENTED · **Source:** Student Handbook Annexure I (name, trimester, credits for Year 1); representative syllabus for this helpdesk

Answers: What is taught in Reinforcement Learning? | What are the units or topics of Reinforcement Learning (RL)? | Which trimester is Reinforcement Learning in? | How many credits is Reinforcement Learning? | Who teaches Reinforcement Learning? | How is Reinforcement Learning assessed?

Item	Detail
Offered in	PGDM (AI & Data Science): Trimester IV (3 credits)
Short name	RL
Faculty	Announced in the trimester timetable
Status	Trimester placement and syllabus are a representative helpdesk plan; confirm with the Program Office

What the course covers. Learning to make sequential decisions from rewards.

Units

1. Markov decision processes
2. Dynamic programming
3. Monte Carlo, temporal difference and Q-learning
4. Deep RL (DQN)
5. Policy gradients and applications

Learning outcomes

- Formulate problems as MDPs
- Implement Q-learning
- Apply RL to a simulated environment

Typical assessment. Mid-term exam 25% · End-term exam 35% · Lab work and assignments 25% · Quizzes and class participation 15%. The binding scheme is the one in the faculty's course outline (D.2.1).

Tools. Python, Gymnasium, PyTorch

C.3.11 Robotic Process Automation (RPA) & Intelligent Automation (RPA)

Type: course · **Applies to:** PGDM-AIDS · **Status:** AUGMENTED · **Source:** Student Handbook Annexure I (name, trimester, credits for Year 1); representative syllabus for this helpdesk

Answers: What is taught in Robotic Process Automation (RPA) & Intelligent Automation? | What are the units or topics of Robotic Process Automation (RPA) & Intelligent Automation (RPA)? | Which trimester is Robotic Process Automation (RPA) & Intelligent Automation in? | How many credits is Robotic Process Automation (RPA) & Intelligent Automation? | Who teaches Robotic Process Automation (RPA) & Intelligent Automation? | How is Robotic Process Automation (RPA) & Intelligent Automation assessed?

Item	Detail
Offered in	PGDM (AI & Data Science): Trimester V (3 credits)
Short name	RPA
Faculty	Announced in the trimester timetable
Status	Trimester placement and syllabus are a representative helpdesk plan; confirm with the Program Office

What the course covers. Automating business processes with software bots and AI.

Units

1. RPA concepts and process discovery
2. Bot design in UiPath / Power Automate
3. Exception handling and orchestration
4. Intelligent document processing
5. Governance and ROI

Learning outcomes

- Identify automatable processes
- Build and orchestrate bots
- Make the business case for automation

Typical assessment. Mid-term exam 25% · End-term exam 35% · Lab work and assignments 25% · Quizzes and class participation 15%. The binding scheme is the one in the faculty's course outline (D.2.1).

Tools. UiPath, Power Automate

C.3.12 Speech Recognition & Conversational AI (SRCA)

Type: course · **Applies to:** PGDM-AIDS · **Status:** AUGMENTED · **Source:** Student Handbook Annexure I (name, trimester, credits for Year 1);

representative syllabus for this helpdesk

Answers: What is taught in Speech Recognition & Conversational AI? | What are the units or topics of Speech Recognition & Conversational AI (SRCA)? | Which trimester is Speech Recognition & Conversational AI in? | How many credits is Speech Recognition & Conversational AI? | Who teaches Speech Recognition & Conversational AI? | How is Speech Recognition & Conversational AI assessed?

Item	Detail
Offered in	PGDM (AI & Data Science): Trimester V (3 credits)
Short name	SRCA
Faculty	Announced in the trimester timetable
Status	Trimester placement and syllabus are a representative helpdesk plan; confirm with the Program Office

What the course covers. Speech technology and building voice and chat assistants.

Units

1. Speech signal basics
2. Acoustic features (MFCC)
3. ASR models (CTC, Whisper)
4. Text-to-speech
5. Chatbots and voice assistants

Learning outcomes

- Transcribe and analyse speech
- Build a conversational assistant
- Evaluate ASR quality

Typical assessment. Mid-term exam 25% · End-term exam 35% · Lab work and assignments 25% · Quizzes and class participation 15%. The binding scheme is the one in the faculty's course outline (D.2.1).

Tools. Whisper, Rasa / LLM frameworks

C.3.13 Internet of Things (IoT) & Edge AI (IOT)

Type: course · **Applies to:** PGDM-AIDS · **Status:** AUGMENTED · **Source:** Student Handbook Annexure I (name, trimester, credits for Year 1); representative syllabus for this helpdesk

Answers: What is taught in Internet of Things (IoT) & Edge AI? | What are the units or topics of Internet of Things (IoT) & Edge AI (IOT)? | Which trimester is Internet of Things (IoT) & Edge AI in? | How many credits is Internet of Things (IoT) & Edge AI? | Who teaches Internet of Things (IoT) & Edge AI? | How is Internet of Things (IoT) & Edge AI assessed?

Item	Detail
Offered in	PGDM (AI & Data Science): Trimester V (3 credits)
Short name	IOT
Faculty	Announced in the trimester timetable
Status	Trimester placement and syllabus are a representative helpdesk plan; confirm with the Program Office

What the course covers. Connected devices, streaming sensor data and running AI at the edge.

Units

1. IoT architecture and sensors
2. Protocols (MQTT)
3. Streaming analytics
4. TinyML and edge inference
5. Security and case studies (manufacturing, energy)

Learning outcomes

- Design an IoT data flow
- Deploy a model on an edge device
- Assess IoT security

Typical assessment. Mid-term exam 25% · End-term exam 35% · Lab work and assignments 25% · Quizzes and class participation 15%. The binding scheme is the one in the faculty's course outline (D.2.1).

Tools. Raspberry Pi / Arduino, MQTT, TensorFlow Lite

C.3.14 Data Intelligence and Analytics (DIA)

Type: course · **Applies to:** PGDM-AIDS · **Status:** AUGMENTED · **Source:** Student Handbook Annexure I (name, trimester, credits for Year 1); representative syllabus for this helpdesk

Answers: What is taught in Data Intelligence and Analytics? | What are the units or topics of Data Intelligence and Analytics (DIA)? | Which trimester is Data Intelligence and Analytics in? | How many credits is Data Intelligence and Analytics? | Who teaches Data Intelligence and Analytics? | How is Data Intelligence and Analytics assessed?

Item	Detail
Offered in	PGDM (AI & Data Science): Trimester V (3 credits)
Short name	DIA
Faculty	Announced in the trimester timetable
Status	Trimester placement and syllabus are a representative helpdesk plan; confirm with the Program Office

What the course covers. Turning analytics into decisions and products that organisations use.

Units

1. Decision intelligence
2. Analytics product design
3. Causal inference basics
4. Experimentation at scale
5. Communicating insights to executives

Learning outcomes

- Design an analytics product
- Estimate causal effects
- Influence decisions with data

Typical assessment. Mid-term exam 25% · End-term exam 30% · Case analyses and group project 30% · Class participation 15%. The binding scheme is the one in the faculty's course outline (D.2.1).

Tools. Python, BI tools

C.3.15 AI Ethics, Governance & Responsible AI (RAI)

Type: course · **Applies to:** PGDM-AIDS · **Status:** AUGMENTED · **Source:** Student Handbook Annexure I (name, trimester, credits for Year 1); representative syllabus for this helpdesk

Answers: What is taught in AI Ethics, Governance & Responsible AI? | What are the units or topics of AI Ethics, Governance & Responsible AI (RAI)? | Which trimester is AI Ethics, Governance & Responsible AI in? | How many credits is AI Ethics, Governance & Responsible AI? | Who teaches AI Ethics, Governance & Responsible AI? | How is AI Ethics, Governance & Responsible AI assessed?

Item	Detail
Offered in	PGDM (AI & Data Science): Trimester V (3 credits)
Short name	RAI
Faculty	Announced in the trimester timetable
Status	Trimester placement and syllabus are a representative helpdesk plan; confirm with the Program Office

What the course covers. Building and governing AI that is fair, transparent, private and compliant.

Units

1. Ethics frameworks
2. Bias and fairness metrics
3. Explainability (SHAP, LIME)
4. Privacy, India's DPDP Act 2023 and an EU AI Act overview
5. Governance and model risk management

Learning outcomes

- Audit a model for bias
- Explain model decisions
- Draft an AI governance policy

Typical assessment. Mid-term exam 25% · End-term exam 35% · Assignments and case analyses 25% · Quizzes and class participation 15%. The binding scheme is the one in the faculty's course outline (D.2.1).

Tools. Python (Fairlearn, SHAP)

C.3.16 Business Management (BM)

Type: course · **Applies to:** PGDM-AIDS · **Status:** AUGMENTED · **Source:** Student Handbook Annexure I (name, trimester, credits for Year 1); representative syllabus for this helpdesk

Answers: What is taught in Business Management? | What are the units or topics of Business Management (BM)? | Which trimester is Business Management in? | How many credits is Business Management? | Who teaches Business Management? | How is Business Management assessed?

Item	Detail
Offered in	PGDM (AI & Data Science): Trimester V (3 credits)
Short name	BM
Faculty	Announced in the trimester timetable
Status	Trimester placement and syllabus are a representative helpdesk plan; confirm with the Program Office

What the course covers. Core business functions for AI professionals; part of the Year 2 elective basket.

Units

1. The business environment
2. Strategy basics
3. Operations
4. Finance for managers
5. Organisational behaviour

Learning outcomes

- Read a business holistically
- Link AI projects to strategy
- Communicate with business leaders

Typical assessment. Mid-term exam 25% · End-term exam 30% · Case analyses and group project 30% · Class participation 15%. The binding scheme is the one in the faculty's course outline (D.2.1).

Tools. Case studies

C.4 Projects, Summer Internship and Capstone

C.4.1 Project courses I to V (PRJ)

Type: course · **Applies to:** PGDM-AIDS, PGDM-BDA · **Status:** AUGMENTED · **Source:** Student Handbook Annexure I (name, trimester, credits for Year 1); representative syllabus for this helpdesk

Answers: What is taught in Project courses I to V? | What are the units or topics of Project courses I to V (PRJ)? | Which trimester is Project courses I to V in? | How many credits is Project courses I to V? | Who teaches Project courses I to V? | How is Project courses I to V assessed?

Item	Detail
Offered in	PGDM (Big Data Analytics): Trimester I (3 credits); PGDM (Big Data Analytics): Trimester II (3 credits); PGDM (Big Data Analytics): Trimester IV (3 credits); PGDM (Big Data Analytics): Trimester V (3 credits); PGDM (AI & Data Science): Trimester I (3 credits); PGDM (AI & Data Science): Trimester II (3 credits); PGDM (AI & Data Science): Trimester III (3 credits); PGDM (AI & Data Science): Trimester IV (3 credits); PGDM (AI & Data Science): Trimester V (3 credits)
Short name	PRJ
Faculty	A faculty guide is assigned to each group
Status	Trimester placement and syllabus are a representative helpdesk plan; confirm with the Program Office

What the course covers. A project in each trimester, done in groups of 3-4, that applies that trimester's courses to a real dataset or business problem. BDA has Projects I, II, IV and V; AI & DS has Projects I to V.

Units

1. Project I: exploratory analysis of a public business dataset (SQL, Python, statistics)
2. Project II: visualisation / big-data / cloud project
3. Project III (AI & DS): GenAI or MLOps deployment project
4. Project IV: applied ML or deep-learning project in a business domain
5. Project V: capstone proposal and pre-work

Learning outcomes

- Work in a team on an end-to-end analytics problem
- Present technical work to non-technical audiences
- Build a portfolio for placements

Typical assessment. Proposal 15% · Mid-review 25% · Final report 35% · Presentation and demo 25%. The binding scheme is the one in the faculty's course outline (D.2.1).

Tools. Course tools, Git

C.4.2 Summer Internship Program (course view) (SIP)

Type: course · **Applies to:** PGDM-AIDS, PGDM-BDA · **Status:** AUGMENTED · **Source:** Student Handbook Annexure I (name, trimester, credits for Year 1); representative syllabus for this helpdesk

Answers: What is taught in Summer Internship Program (course view)? | What are the units or topics of Summer Internship Program (course view) (SIP)? | Which trimester is Summer Internship Program (course view) in? | How many credits is Summer Internship Program (course view)? | Who teaches Summer Internship Program (course view)? | How is Summer Internship Program (course view) assessed?

Item	Detail
Offered in	PGDM (Big Data Analytics): Trimester III (6 credits); PGDM (AI & Data Science): Trimester III (6 credits)
Short name	SIP
Faculty	Faculty mentor plus a company mentor
Status	Name, trimester and credits are official (Student Handbook Annexure I); the syllabus below is representative

What the course covers. The 6-credit internship after Trimester III, typically 5 months at an organisation anywhere in India (official). Policy rules are in I.1; evaluation in I.2.1.

Units

1. Joining and the project plan
2. Fortnightly progress logs
3. Mid-internship review
4. Final report (40-60 pages)
5. Presentation and viva in Trimester IV

Learning outcomes

- Apply classroom learning at work
- Deliver a business project
- Earn a PPO through performance

Typical assessment. Proposal 15% · Mid-review 25% · Final report 35% · Presentation and demo 25%. The binding scheme is the one in the faculty's course outline (D.2.1).

Tools. Company systems

C.4.3 Industrial Capstone Project (CAP)

Type: course · **Applies to:** PGDM-AIDS, PGDM-BDA · **Status:** AUGMENTED · **Source:** Student Handbook Annexure I (name, trimester, credits for Year 1); representative syllabus for this helpdesk

Answers: What is taught in Industrial Capstone Project? | What are the units or topics of Industrial Capstone Project (CAP)? | Which trimester is Industrial Capstone Project in? | How many credits is Industrial Capstone Project? | Who teaches Industrial Capstone Project? | How is Industrial Capstone Project assessed?

Item	Detail
Offered in	PGDM (Big Data Analytics): Trimester VI (12 credits); PGDM (AI & Data Science): Trimester VI (12 credits)
Short name	CAP
Faculty	Faculty mentor plus a host-organisation mentor
Status	Trimester placement and syllabus are a representative helpdesk plan; confirm with the Program Office

What the course covers. The final-trimester project solving a real business problem with a host organisation; mandatory for the PGDM (official). Evaluation is in I.2.2.

Units

1. Topic and approved proposal
2. Literature or documentation review
3. Analysis and solution build
4. Mid-term review (5-6 Apr 2027, tentative)
5. Final report and viva (17-21 May 2027, tentative)

Learning outcomes

- Solve an integrative real-world problem
- Manage a project end to end
- Defend your work before a panel

Typical assessment. Proposal 15% · Mid-review 25% · Final report 35% · Presentation and demo 25%. The binding scheme is the one in the faculty's course outline (D.2.1).

Tools. Host organisation's stack

C.4.4 Capstone Seminar & Viva (CSV)

Type: course · **Applies to:** PGDM-AIDS, PGDM-BDA · **Status:** AUGMENTED · **Source:** Student Handbook Annexure I (name, trimester, credits for Year 1); representative syllabus for this helpdesk

Answers: What is taught in Capstone Seminar & Viva? | What are the units or topics of Capstone Seminar & Viva (CSV)? | Which trimester is Capstone Seminar & Viva in? | How many credits is Capstone Seminar & Viva? | Who teaches Capstone Seminar & Viva? | How is Capstone Seminar & Viva assessed?

Item	Detail
Offered in	PGDM (Big Data Analytics): Trimester VI (3 credits); PGDM (AI & Data Science): Trimester VI (3 credits)
Short name	CSV
Faculty	Announced in the trimester timetable
Status	Trimester placement and syllabus are a representative helpdesk plan; confirm with the Program Office

What the course covers. Weekly seminars alongside the capstone where students present progress, review peers and prepare for the final viva.

Units

1. Research methods refresher
2. Weekly progress presentations

3. Peer review
4. Report writing and citation (APA)
5. Mock viva

Learning outcomes

- Present progress clearly
- Give and use peer feedback
- Prepare for the final viva

Typical assessment. Proposal 15% · Mid-review 25% · Final report 35% · Presentation and demo 25%. The binding scheme is the one in the faculty's course outline (D.2.1).

Tools. LMS, presentation tools

C.5 Diploma in Strategic Management modules

C.5.1 Diploma in Strategic Management: the seven modules

Type: course · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** AUGMENTED · **Source:** Module names and AIHER award from AIDTM website (official); schedule and content representative

Answers: What is taught in the Diploma in Strategic Management? | What are the strategic management diploma modules? | When are the diploma modules taught? | How is the diploma assessed?

The seven module names and the award by AIHER are official (AIDTM website). The trimester scheduling and module content below are a representative plan.

Module	Trimester	What it covers
Strategic Management	IV	Strategy formulation, industry analysis (five forces), corporate- and business-level strategy, strategy execution
Business Communication	IV	Executive writing, board-level presentations, stakeholder and crisis communication
Competitive Advantage	V	Resource-based view, the value chain, platform and network effects, data as a competitive asset
AI Management	V	AI strategy, building AI teams, AI portfolio and ROI, AI risk and governance
Change Management	V	Change models (Kotter's eight steps), resistance, digital adoption, change communication
Digital Transformation	VI	Digital business models, transformation roadmaps, legacy modernisation, case studies
Project Management	VI	Project life cycle, Agile and Scrum, scheduling and risk, stakeholder management

Delivery: intensive weekend or evening blocks by AIHER and AIDTM faculty.

Assessment: a case-based assignment and a short examination for each module. All seven must be passed for AIHER (NAAC A++, NIRF university rank 49) to award the diploma together with the PGDM.

C.6 Executive Program (EPAAA) modules

C.6.1 EPAAA: the seven modules

Type: course · **Applies to:** EPAAA · **Status:** OFFICIAL-DERIVED · **Source:** AIDTM website (EPAAA page); per-module content derived from the official tool descriptions and learning outcomes

Answers: What are the EPAAA modules? | What is taught in the executive programme? | Which tools does each EPAAA module use?

Module names, tools, the 90 learning hours and the 25 Saturday sessions are official (AIDTM website). The per-module content is a representative outline.

Module	What you learn	Main tools
Decision Science & Analytics Thinking	Framing business problems, decision alternatives, data-driven frameworks	Excel
Forecasting & Operational Excellence	Statistical methods and forecasting models for predictions and operations	Excel, Copilot
Power BI for Decision Intelligence	KPI frameworks and interactive executive dashboards	Power BI
AI for Enterprise	AI concepts, no-code AI tools, ethics, governance and risk in AI deployment	Copilot, AI Builder
Power Apps: Low-Code Enterprise Solutions	Building and deploying low-code business applications	Power Apps
Power Automate & Workflow Engineering	Designing automated workflows across apps and data	Power Automate
AI Builder & Intelligent Automation	Prediction, form processing and text recognition inside apps and flows	AI Builder

Project: a final project on synthetic data or the participant’s own business data, with self-assessment quizzes and assignments along the way.

Delivery: 75 hours online (Saturdays, 3 hours) plus 15 hours of on-campus immersion over 2 days. Fee: INR 50,000 + 18% GST (B.5.2).

Part D — Academic regulations

Attendance and leave, evaluation and grading, appeals and failing a course, graduation criteria, course changes, records and responsible use of AI tools.

D.0 Part D at a glance: attendance, grading, appeals and graduation

Type: overview · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL-DERIVED · **Source:** Consolidated from D.1.1 to D.4.5, D.3.2 (Student Handbook §10-11, Annexures III-V; re-assessment fees are augmented)

Answers: Explain all the academic rules | How am I evaluated and graded? | What are the pass and fail rules? | Give me the complete grading and attendance policy

1. Attendance (official). 100% is expected in this fully residential programme. With prior permission and a genuine reason, absence is allowed up to 30% of sessions. Below 70% in a course, including medical absence, a student cannot sit that course's end-term (the Institute may make exceptions). No make-up for missed quizzes, exams or presentations. Late arrival earns no attendance. Attendance does not earn class-participation marks. Absence can also attract a monetary penalty.

2. Evaluation (official). Continuous evaluation with components such as mid-term, end-term, cases, class participation, assignments, projects, quizzes and tests, announced in the course outline.

3. Grades (official). A (Excellent) 3.55-4.33; B (Good) 2.55-3.54; C (Satisfactory) 1.55-2.54; D (Low Pass) 0.55-1.54; F (Fail) below 0.55; I (Incomplete). Component marks become letter grades, then grade points; the sum of component values divided by 3 gives the course grade point and final letter grade. Maximum CGPA 4.33. GPA = Σ(credits × grade points) / Σ credits; CGPA weights trimester GPAs by trimester credits. Percentage = CGPA / 4.33 × 100; 3.04 = 70%, 2.60 = 60%, 2.17 = 50%.

4. I grade (official). Temporary; first-year I grades must be cleared before the Summer Internship, second-year ones within the following term; uncleared I becomes F.

5. Disputes and appeals (official). Discuss with the faculty within 4 days (Handbook) or appeal in writing within a week (Annexure V); faculty replies within a week; then appeal to the Programme Chair within a week with evidence; the Academic Committee meets within 15 days and the decision is communicated within 2 days; a final appeal lies to the Dean.

6. Failing a course (helpdesk guidance; the Academic Committee's role is official). Apply for re-assessment within 10 days of results; the Committee decides eligibility after a one-on-one; supplementary exam in the first month of the next trimester (INR 2,500, best grade C); otherwise repeat the course when next offered (INR 5,000).

7. Graduation (official). Satisfactory capstone, CGPA at least 2.17 at the end of Year 2, no F or I in any course, no dues, SIP and capstone completed, all within course duration + 2 years (maximum 4 years). Students who fall short are asked to withdraw.

D.1 Attendance, leave and class timings

D.1.1 Attendance policy

Type: rule · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL · **Source:** Student Handbook §10.2, Annexure III

Answers: What is the minimum attendance? | Can I sit the end-term exam with less than 70% attendance? | How many classes can I miss? | Do I get attendance if I am late? | Is there a make-up exam if I miss one?

PGDM is a fully residential programme, and 100% attendance is expected. For a genuine reason and with prior permission, a student may be absent for at most 30% of total sessions. A student below 70% attendance in a course, including absence for medical reasons, is not eligible for that course's End-Term Examination, though the Institute may allow exceptions. Missed quizzes, examinations or presentations cannot be made up. Arriving late to class earns no attendance. Attendance is separate from class participation, so being present does not by itself earn class participation grades. The Class Representative coordinates seating and attendance matters with faculty. Absence from classes can attract disciplinary action, including a monetary penalty.

D.1.2 Leave of absence: types and how to apply

Type: procedure · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** AUGMENTED · **Source:** Helpdesk policy written for this project (not issued by AIDTM); attendance limits from Student Handbook Annexure III (official)

Answers: How do I apply for leave? | What do I do if I am sick? | Does medical leave count as absence? | Can I take leave for a family emergency? | What happens if I am absent for a long time?

Leave types and procedure

Leave type	How to apply	Documents	Approved by
Planned personal leave	Email the Program Office at least 2 working days before, with dates, reason and the courses affected	None, unless asked	Programme Officer
Medical leave	Inform the Program Office (9099981586) on the first day of illness	Doctor's certificate within 3 days of returning; fitness certificate after hospitalisation of more than 7 days	Programme Officer
Family emergency or bereavement	Inform the Program Office as soon as possible	Supporting document within one week	Programme Officer
Institute duty (placement interview, official competition, Institute event)	Request through the Program Office before the activity	Invitation or schedule	Programme Chair

Rules that always apply (official, Student Handbook Annexure III):

- Any absence, including medical, counts towards the 30% absence limit.
- Below 70% attendance in a course means no end-term examination in that course.
- Missed quizzes, examinations or presentations cannot be made up. The exception is a component missed with prior permission, where an I grade and a make-up apply (D.2.4).
- Arriving late to a class earns no attendance for that class.

Other points:

- Hostel residents who will be away overnight also need the warden's approval (L.1.3).
- Approved Institute-duty leave is marked present only when the activity was official and approved in advance.
- Absence of more than 3 weeks in a trimester is referred to the Academic Committee, which may advise repeating that trimester's courses with the next batch.

D.1.3 Class timings and weekly schedule

Type: rule · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** AUGMENTED · **Source:** Sample schedule built for this project (library hours are official)

Answers: What are the class timings? | How long is each session? | Are there classes on Saturday? | When is the lunch break? | When is the timetable published?

Classes run Monday to Friday from 9:30 AM to 5:30 PM, with up to four 90-minute sessions a day (9:30-11:00, 11:15-12:45, 1:45-3:15, 3:30-5:00) and a lunch break from 12:45 to 1:45 PM. Saturday mornings (9:30 AM to 1:30 PM) are used for visiting-faculty sessions, labs, expert sessions and make-up classes. The weekly timetable is published on the portal every Friday for the following week. Late arrival after the session starts earns no attendance.

D.2 Evaluation and grading

D.2.1 Evaluation components

Type: rule · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL · **Source:** Student Handbook §10.1

Answers: How am I evaluated in a course? | What are the evaluation components? | Where do I find the marks breakdown for a course?

AIDTM follows continuous evaluation. Each course combines components such as a mid-term exam, an end-term exam, case discussions, class participation, assignments, projects, quizzes and class tests. The faculty member announces the components and their weights in the course outline at the start of the course.

D.2.2 Grading scale

Type: table · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL · **Source:** Student Handbook §10.3, Annexure IV

Answers: What is the grading scale? | What grade points does an A get? | What is the pass grade? | What is the maximum CGPA? | How is the final course grade calculated?

AIDTM uses a five-point letter scale: A (Excellent) is 3.55-4.33; B (Good) is 2.55-3.54; C (Satisfactory) is 1.55-2.54; D (Low Pass) is 0.55-1.54; F (Fail) is below 0.55; I means Incomplete, with the final grade pending. Marks for each component are converted to letter grades, with the instructor setting the ranges, and the component letter grades are then converted to numerical values (up to two decimal points) using the Grade Conversion Table. The component values are added and divided by 3 to get the course grade point, which is converted to the final letter grade. The maximum CGPA is 4.33, and the medium of instruction is English.

D.2.3 GPA, CGPA and percentage equivalence

Type: rule · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL · **Source:** Student Handbook §10.4-10.5, Annexure IV

Answers: How is GPA calculated? | How is CGPA calculated? | How do I convert CGPA to percentage? | What CGPA is first class or 60%?

Trimester GPA = Σ(Ci × Pi) / Σ Ci, where Ci is the credits of course i and Pi is the grade point earned in it. CGPA = Σ(Ci × Gi) / Σ Ci over trimesters, where Ci is the total credits of trimester i and Gi is that trimester's GPA. To convert to a percentage: Percentage = (CGPA obtained / 4.33) × 100. Equivalent classes: a CGPA of 3.04 or above corresponds to 70% or above, 2.60 or above to 60% or above, and 2.17 or above to 50% or above.

D.2.4 The "I" (Incomplete) grade and missed components

Type: rule · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL · **Source:** Student Handbook §10.3.1

Answers: What is an I grade? | What happens if I miss an exam with permission? | When must I clear an incomplete grade? | Does an I grade become F?

An I grade is a temporary grade given when a course's requirements are not complete, for example when a component was missed with prior permission. First-year students must clear any I grade before going on their Summer Internship. Second-year students must clear it within the following term, and a sixth-term I must be cleared in time to graduate. If the make-up requirements set by the instructor are completed on time, the I is replaced by the earned grade. Otherwise the missed component gets an F, and an uncleared I becomes an F. Note: under the attendance policy there is no make-up for components missed without permission.

D.2.5 How grades are communicated

Type: rule · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL · **Source:** Student Handbook §10.6

Answers: When will I get my grades? | Who communicates the final grades? | How are marks shared?

Instructors share component marks, from quizzes and exams, with students as soon as possible. The Program Office communicates final letter grades for each course, along with GPA and CGPA. A student can see only their own grades.

D.3 Appeals, failing a course and graduation

D.3.1 Grade dispute and revision appeal process

Type: procedure · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL · **Source:** Student Handbook §10.3.1 (IV-V), §10.7, Annexure V

Answers: How do I appeal a grade? | I am not happy with my marks, what can I do? | What is the grade revision process? | How long do I have to dispute a

grade?

Step 1: discuss the grade with the faculty member. The Handbook asks for this within 4 days of receiving grades, and Annexure V allows a written appeal within one week of the announcement, with reasons. The faculty member replies in writing within one week. Step 2: if still unsatisfied, appeal in writing to the Programme Chair within one week of the faculty decision. Include reasons, evidence, copies of the original appeal and the faculty reply, and other documents. Step 3: the Programme Chair convenes the Academic Committee within 15 days, and the decision is communicated within 2 days. Step 4: a student can appeal the Academic Committee's decision to the Dean, whose decision is final and binding. For the Term-III end-term exam, queries can be sent to faculty by email.

D.3.2 Failing a course: re-assessment, supplementary exam and repeat

Type: procedure · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** AUGMENTED · **Source:** Sample procedure built for this project; the Academic Committee's role in re-assessment eligibility is official (Handbook §16.1)

Answers: What happens if I fail a subject? | Is there a supplementary exam? | How do I clear an F grade? | What is the re-assessment fee?

A student with an F grade applies for re-assessment to the Academic Committee through the Program Office within 10 days of results. The Committee holds a one-on-one interaction and decides eligibility (official role). If eligible, the student sits a supplementary examination for the end-term component in the first month of the next trimester, paying INR 2,500. The best grade obtainable through a supplementary exam is C. If the supplementary is failed or the student is not eligible, the course must be repeated when next offered, with a fee of INR 5,000, and the repeat grade replaces the F. First-year F grades must be cleared before the Summer Internship, and all F grades must be cleared within the programme's maximum duration of 4 years (official).

D.3.3 Criteria for award of the PGDM

Type: rule · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL · **Source:** Student Handbook §11

Answers: What do I need to graduate? | What is the minimum CGPA to get the PGDM? | Can I graduate with an F grade? | Can I get my diploma if I have dues?

To receive the PGDM, a student must have completed the capstone project satisfactorily, have a CGPA of at least 2.17 at the end of Year 2, have no F or I grade in any course, and have no outstanding dues to the Institute. SIP and the Industrial Capstone Project are also mandatory. A student who does not meet these criteria will be asked to withdraw. All requirements must be completed within the course duration plus 2 years.

D.4 Course changes, records and student systems

D.4.1 Course changes, electives and programme switch

Type: procedure · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** AUGMENTED · **Source:** Helpdesk policy written for this project (not issued by AIDTM); core courses compulsory per Student Handbook §4.3 (official)

Answers: Can I change my course or elective? | How do I drop an elective? | Can I switch from AI & DS to BDA? | Can I audit a course? | What is the deadline to change electives?

Change	Allowed?	Window	How to request	Approved by
Drop or swap a Year 1 core course	No (core courses are compulsory, official)	—	—	—
Add or drop a Year 2 elective	Yes	First week of the trimester (until Friday of week 1)	"Course Change" support request or the elective form	Program Office; Programme Chair if there is a timetable clash
Take one elective from the other programme's basket	Yes, at most one per trimester	Elective selection, 2 weeks before the trimester	Request with reason	Programme Chair
Audit a course (attend without credit)	Yes, with the faculty member's consent	First two weeks	Email the faculty and the Program Office	Faculty
Switch programme (BDA to AI & DS or back)	Only before Trimester I ends	—	Written application; treated as a sensitive change (N.1.2)	Academic Committee
Repeat a failed course	When the course is next offered	After results	See D.3.2	Academic Committee

Conditions:

- An elective runs only if at least 15 students choose it, and seats and timetable clashes are checked before approval.
- Approved changes appear on the student portal within 2 working days.
- Withdrawing from an elective after week 1 is recorded as F, unless the Academic Committee approves it for medical reasons.

Programme switch:

- The Academic Committee considers the reason, Trimester I performance and seat availability (intake: BDA 90, AI & DS 60).
- Trimester I courses that are not common to both programmes must be completed later. For a switch to AI & DS these are Introduction to AI, Statistics for AI & DS and Management Principles. For a switch to BDA they are Fundamentals of Finance and Statistics for Data Analytics using Excel.
- The fee is unchanged, because both programmes have the same fee structure.
- The switch takes effect only after approval. If it is rejected, the registration stays as it was.

D.4.2 Certificates and documents: what you can request

Type: procedure · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** AUGMENTED · **Source:** Helpdesk policy written for this project (not issued by AIDTM); withholding rule from Late Fees Policy v02 (official)

Answers: How do I get a bonafide certificate? | How do I get my transcript? | How long does a certificate take? | What is the fee for a transcript? | How do I get an NOC for an internship? | Can my employer verify my grades?

Document	Issued by	Time	Fee (INR)	Condition
Bonafide certificate	Program Office	3 working days	Free	—
Duplicate fee receipt	Accounts	2 working days	Free	—
Fee demand letter for an education loan	Accounts	3 working days	Free	—
NOC for an internship or SIP	Placement Office	3 working days	Free	SIP approved by the Institute (I.3.1)
Trimester grade sheet	Program Office	After results	First copy free; duplicate 500	No dues
Official transcript	Program Office	7 working days	1,000 per set	No dues (official rule)
Character certificate	Program Office	3 working days	Free	No disciplinary case pending
Provisional certificate	Program Office	Within 2 weeks of final results	Free	Award criteria met (D.3.3)
Diploma	At convocation	—	Duplicate: 2,000 with an affidavit	No dues
Duplicate ID card	Program Office / IT	3 working days	500	—

How to request: raise a “Certificates & Documents” support request stating the purpose, the number of copies and the addressee. Collect the document in person with your ID card, or receive a signed scan on your Institute email.

Verification by employers or universities: answered only with the student’s written consent (N.1.1).

Dues (official rule): the Institute may withhold grades, transcripts and diplomas while dues are outstanding (F.3.5).

D.4.3 Student portal and LMS

Type: reference · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** AUGMENTED · **Source:** Sample description built for this project

Answers: What does the student portal show? | Where can I see my attendance? | What is the LMS used for? | My attendance is wrong, what do I do?

The student portal shows the timetable, attendance percentage per course, component marks and grades, fee status and receipts, scholarship status and support requests. The LMS hosts course outlines, reading material, assignment submissions with plagiarism checking, quizzes and feedback forms. Attendance recorded by the classroom face-recognition devices is synced to the portal daily. Discrepancies must be reported within 7 days through an “Academics, Grades & Attendance” request.

D.4.4 Laptop and software requirements

Type: rule · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** AUGMENTED · **Source:** Sample requirement built for this project

Answers: Do I need a laptop? | What laptop configuration is required? | What software do I need to install?

Every student must have a laptop with at least an i5 or equivalent processor, 16 GB RAM, 512 GB SSD and Windows 11 or macOS. Software used across courses: Python with Anaconda and Jupyter, VS Code, Git, MySQL or PostgreSQL, Power BI Desktop, Tableau Public, R and RStudio, Microsoft 365 (provided through the Institute account) and a cloud sandbox account (AWS, Azure or Google Cloud free tier) for the Cloud Computing course. Installation support is available from the IT Officer in the first two weeks of Trimester I.

D.4.5 Student course feedback

Type: rule · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL · **Source:** Student Handbook §8

Answers: How do I give feedback on a course? | How often is course feedback collected?

Students give feedback on their courses twice per term. The Program Office circulates the questionnaire, and when it is online it must be submitted on the portal within the stated time window. Feedback is used to improve course quality.

D.5 Responsible use of generative AI tools

D.5.1 Using ChatGPT and other AI tools in coursework

Type: rule · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** AUGMENTED · **Source:** Helpdesk policy written for this project (not issued by AIDTM); plagiarism and unfair-means rules it relies on are official (Student Handbook §12)

Answers: Can I use ChatGPT for assignments? | Is using AI tools plagiarism? | Do I have to declare AI use? | Can I upload company data to an AI tool? | What happens if I use AI in an exam?

AIDTM encourages students to learn with AI tools, especially in the AI & DS programme, within the rules below.

Allowed by default: brainstorming, having concepts explained, debugging your own code and checking grammar.

Must be declared: any AI-generated text, code, images or analysis in submitted work. Add a short “AI use statement” naming the tool, what you used it for and what you changed.

Not allowed unless the faculty explicitly permits it:

- Submitting AI-generated answers as your own work in graded assignments, take-home exams or reports.
- Using any AI tool in a closed-book examination. This is unfair means (E.2.1).
- Uploading confidential case data, SIP or capstone company data, or other students’ work to public AI tools. This breaches data confidentiality (J.2.2).

Levels set by faculty for each assignment:

Level	Meaning
0	No AI use
1	AI for ideas only
2	AI assistance, with a declaration
3	AI as an integral tool of the task

Enforcement:

- Undeclared AI use is treated as plagiarism (J.1.2), with the same penalties, from a penalty grade up to Disciplinary Committee action.
- Similarity and AI-detection checks may be run on submissions. A detector score alone is not proof: the student can explain their process to the faculty member before any decision.

Part E — Examinations

What to bring, when to arrive, what is prohibited, how to behave in the hall, when you may leave, and how cheating is handled. Exam dates for every trimester are in E.0 and Part H.

E.0 Part E at a glance: exam rules and dates

Type: overview · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL-DERIVED · **Source:** Consolidated from E.1.1 to E.3.2 (Student Handbook §9, §12.1; AI & DS Examination Code of Conduct)

Answers: Tell me everything about exams | What are the exam rules? | What should I bring to the exam? | What are the exam dates for all trimesters?

Before the exam. AI & DS students: be seated 15 minutes before the start; no entry after it begins; bring the Institute ID card and hall ticket or entry is refused. Handbook rule (BDA): be seated 10 minutes before; late entry at the coordinator's discretion, never after 30 minutes. Wear the ID card at all times; not carrying it in exam hours costs INR 100, and a replacement hall ticket costs INR 100. Clear any fee dues: unpaid fees beyond 6 weeks bar you from exams.

What you may and may not bring. Allowed: your own basic calculator (no borrowing or lending), and for open-book exams only the material the faculty specifies. Not allowed: phones, smart watches, iPads, Bluetooth and electronic devices, books, notes, papers and scientific calculators. Phones are switched off and placed on the main table; a phone in a pocket, even switched off, breaks the rule and is confiscated (return fine INR 2,000 first time, INR 5,000 second time, permanent confiscation third time, and the Institute may inspect the data).

During the exam. Sit in the allotted seat; write the seat number and particulars on every answer book and supplement and get them signed by the supervisor; write legibly; rough work only on the last page of the answer book, never on the question paper; one student at a time to the restroom with permission; no talking, signalling or exchange of papers or materials; looking at another's answer book counts as copying; exams are on CCTV.

Leaving. AI & DS Code: not before 30 minutes and not in the last 5 minutes. Handbook: not in the first half hour or the last 15 minutes; early finishers hand in to the supervisor. Everyone stays until all answer books are collected, and answer books never leave the room.

Unfair means. Minor attempts: on-the-spot warning, seat change or mark deduction. Serious attempts: written statement in another room, answer book seized, continue on a fresh book without extra time, report to the Program Office, referral by the Programme Chair to the Disciplinary Committee; penalties up to expulsion with a mercy appeal to the Dean.

Exam dates for Batch 2025-27. Trim I mid-terms 15-18 Sep 2025, end-terms 7-11 Oct 2025; Trim II mid-terms 1-3 Dec 2025, end-terms 1-6 Jan 2026; Trim III mid-terms 19-21 Feb 2026, end-terms 23-28 Mar 2026; Trim IV mid-terms 5-6 Oct 2026, end-term 31 Oct 2026; Trim V (tentative) mid-terms 21-23 Dec 2026, end-terms 1-5 Feb 2027; Trim VI capstone review 5-6 Apr 2027 and viva 17-21 May 2027 (tentative).

E.1 Exam day

E.1.1 Reporting time, entry and identity documents

Type: rule · **Applies to:** PGDM-AIDS (Code of Conduct); PGDM-BDA (Handbook) · **Status:** OFFICIAL · **Source:** AI & DS Examination Code of Conduct (1, 3, 11); Student Handbook §9

Answers: What time should I reach the exam hall? | Can I enter the exam late? | What documents do I need for the exam? | What if I forget my ID card or hall ticket?

AI & DS students must be at their exam seat 15 minutes before the start, and no entry is allowed after the exam begins. They must bring both the Institute ID card and the hall ticket, without which entry is refused. Not carrying the I-Card during exam hours is fined INR 100, and a replacement for a lost hall ticket costs INR 100. Handbook rule, which applies to BDA: be seated 10 minutes before the start. Entry after the start is at the examination coordinator's discretion, but never after the first 30 minutes. Students must wear their ID and produce it when asked, and must sit in their allotted seat.

E.1.2 Items not allowed in the examination hall

Type: rule · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL · **Source:** Exam Code of Conduct (2); Student Handbook §9 (6, 8); Annexure VII

Answers: Can I bring my phone to the exam? | Is a scientific calculator allowed? | Can I bring notes to the exam? | What happens if my phone is found in the exam?

Prohibited items: all electronic and Bluetooth devices, mobile phones, smart watches, iPads, books, notes and papers, unless it is an open-book exam where the faculty specifies the material. Students bring their own basic calculator; scientific calculators are not allowed, and calculators cannot be borrowed or lent. Mobile phones must be switched off and left on the main table in the hall. A switched-off phone in a pocket is also not allowed. A phone found on a student is confiscated, with return fines of INR 2,000 the first time and INR 5,000 the second time.

E.1.3 Conduct during the examination

Type: rule · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL · **Source:** Exam Code of Conduct (4, 6, 8-10); Student Handbook §9

Answers: Can I go to the restroom during the exam? | Where do I do rough work? | Can I talk during the exam? | Are exams monitored by CCTV?

Only one student at a time may visit the restroom, and only with the invigilator's permission. No talking, signalling, or exchange of question papers or materials is allowed, and looking at another student's answer book counts as an attempt to copy. Write the seat number and other particulars on every answer book and supplement, and get each sheet signed by the supervisor. Rough work is done only on the last page of the answer book, never on the question paper, and no extra sheets are given for it. Answers must be legible, and answer books must never leave the room. Exams are monitored on CCTV, and copying found later is acted on.

E.1.4 When students may leave the examination hall

Type: rule · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL · **Source:** Exam Code of Conduct (7, 10); Student Handbook §9 (13)

Answers: When can I leave the exam hall? | Can I submit early and leave? | Can I leave in the last few minutes?

AI & DS Code of Conduct: students cannot submit and leave before 30 minutes have passed, or during the last 5 minutes. Handbook rule: no leaving within the first half hour or the last 15 minutes, and early finishers may leave only after handing their answer book to the supervisor. In every case, students stay seated until all answer books are collected and must hand the answer book to the invigilator themselves. Where the two rules differ, following the stricter one (no leaving in the last 15 minutes) is safe.

E.2 Unfair means

E.2.1 Unfair means (UFM) and cheating procedure

Type: procedure · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL · **Source:** Student Handbook §12.1; Exam Code of Conduct (5)
Answers: What happens if I am caught cheating? | What is unfair means (UFM)? | What is the penalty for copying in an exam?

Copying, exchanging notes, carrying chits, talking to others, or using any electronic or internet device during an exam is unfair means (UFM). For a minor attempt, the invigilator may act on the spot: a warning, a seat change, or a mark deduction if the invigilator is the course faculty. For a serious attempt, the student is taken to another room, gives a written statement, and has the answer book written so far seized. The student then continues on a new answer book with no extra time. The invigilator's report, the student's statement and both answer books go to the Program Office. The Programme Chair refers the case to the Disciplinary Committee. Penalties can go up to expulsion, with a right to a mercy appeal to the Dean.

E.3 Complete rule lists

E.3.1 Student Handbook examination rules (all 15)

Type: table · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL · **Source:** Student Handbook §9
Answers: What are all 15 Handbook exam rules? | Give me the full list of exam instructions

1. Sit in the seat allotted on the seating chart, 10 minutes before the start. Late entry is at the exam coordinator's discretion, never after the first 30 minutes. (2) Wear the ID card at all times and produce it when asked, or you may not be allowed to sit the exam. (3) Do not leave the hall without the invigilator's permission. (4) Write legibly. (5) No extra supplements are given for rough work; use the last page of the main answer book. (6) Do not refer to any book, paper or notes unless it is an open-book exam. (7) In open-book exams, faculty suggest the permitted material. (8) Bring your own calculator, with no borrowing or lending. Books, papers, scientific calculators, mobiles, smart watches, iPads and Bluetooth devices are not allowed. (9) No verbal or non-verbal communication. (10) Passing, receiving or looking at others' answer papers is prohibited; a willing helper is as guilty as the receiver. (11) Get the main answer book and each sheet signed by the supervisor. (12) Exams are under CCTV, and copying found later is acted on. (13) Stay until answer books are collected. You may leave early only if you finish at least 15 minutes before the end, and never in the first half hour or the last 15 minutes. (14) Answer books must never leave the room, and handing them over is the student's responsibility. (15) Breaches can lead to penalties up to expulsion, decided through due process.

E.3.2 AI & DS Examination Code of Conduct (all 11 rules)

Type: table · **Applies to:** PGDM-AIDS · **Status:** OFFICIAL · **Source:** PGDM (AI & DS) Examination Code of Conduct for Students
Answers: What is the AI & DS exam code of conduct? | List all 11 exam rules for AI & DS

1. Bring the Institute ID card and hall ticket, or you will not be allowed in. (2) All electronic and Bluetooth devices, books, notes and other materials are prohibited. (3) Be at your place 15 minutes before the exam starts; no entry once it has begun. (4) Only one student at a time may go to the restroom, with the block invigilator's prior permission. (5) Copying, exchanging notes, carrying chits, talking, or using an electronic or internet device is unfair means (UFM), and severe penalties apply as per the Handbook. (6) No exchange of question papers or other materials. (7) No submitting and leaving before 30 minutes, and no leaving in the last 5 minutes. (8) Write your seat number and particulars on every answer book and supplement. (9) Rough work goes only on the last page of the answer book or supplement, never on the question paper. (10) Do not leave your seat until all answer books are collected. (11) Carry the I-Card during exam hours or pay a fine of INR 100; a lost hall ticket is replaced for a fine of INR 100.

Part F — Fees and finance

The fee structure and due dates, how to pay, what to do when a payment fails, late fees with worked examples, refunds, education loans, and every fine and charge.

F.0 Part F at a glance: fees, payments, late fees and refunds

Type: overview · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL-DERIVED · **Source:** Consolidated from F.1.1 to F.2.4 (Admission Offer Annexure II, Late Fees Policy v02, Student Handbook; payment procedures are augmented)

Answers: Tell me everything about fees | Explain the complete fee structure and rules | What are all the fee details? | How do fees, late fees and refunds work?

1. What you pay (official). Total tuition for PGDM Batch 2025-27 is INR 10,00,000, plus a refundable caution deposit of INR 50,000, so INR 10,50,000 in all. It is paid in five parts: a registration fee of INR 2,00,000 on accepting the offer, then four installments of INR 2,00,000 due on 15 July 2025, 15 January 2026, 15 July 2026 and 15 January 2027. The caution deposit is paid with the 1st installment (so that payment is INR 2,50,000). The fee includes study material, books, library and internet; it excludes hostel, mess and personal expenses. BDA students are assumed to follow the same structure (to be confirmed with Accounts).

2. Running totals (derived). After registration INR 2,00,000; after the 1st installment INR 4,50,000; after the 2nd INR 6,50,000; after the 3rd INR 8,50,000; after the 4th INR 10,50,000. Year 1 payments total INR 6,50,000 and Year 2 payments INR 4,00,000.

3. If you pay late (official, Late Fees Policy v02, effective 1 April 2025). INR 100 per day for up to 2 weeks late, INR 200 per day from 2 to 4 weeks, INR 400 per day from 4 to 6 weeks. Payment can never be delayed beyond 6 weeks. After 6 weeks the student is barred from examinations and lectures; if the Institute allows attendance in an extraordinary case, the student pays the fee, the late fee and INR 2,000 per extra day, capped at 100% of the fee. Worked examples (progressive reading): 10 days late INR 1,000; 20 days INR 2,600; 35 days INR 7,000; 42 days INR 9,800; 45 days with permission INR 15,800. No request about late fees is entertained, so pay on time.

4. Consequences of dues (official). Grades, transcripts, the diploma and other services can be withheld. Unpaid late fees and fines are deducted from the caution deposit. A student with dues does not qualify for the PGDM award.

5. How to pay (helpdesk guidance). Online fee portal (net banking, UPI, cards) or NEFT/RTGS to the Institute account shared only through official Accounts channels. After NEFT/RTGS, email the UTR and enrollment number to Accounts. Receipts are issued within 2 working days. Education loans: Accounts issues a fee demand letter within 3 working days; apply to the bank at least 30 days before the due date because the due date does not move.

6. Portal failure on the due date (helpdesk guidance). Keep a screenshot and transaction ID, do not retry repeatedly if debited, and raise a “Fees & Payments” support request the same day. If the fault is verified on the Institute’s portal and payment is completed by the next working day, no late fee is charged for that gap. Student-side failures do not qualify. A due date on a Sunday or holiday moves to the next working day.

7. Refunds and withdrawal (helpdesk guidance modelled on AICTE norms). Withdrawal before Trimester I begins: refund less up to INR 1,000 processing. After classes begin: the current installment is not refundable, future installments are not charged, and the caution deposit is refunded after dues. Refunds reach only the verified bank account within 30 days; changing that account needs identity verification and approval.

8. Other charges and fines (official unless noted). Mobile phone in class INR 500 spot fine; confiscated phone return INR 2,000 (first) / INR 5,000 (second); I-Card not carried in exams INR 100; replacement hall ticket INR 100; library overdue INR 5 per day per book; lost book: higher of latest-edition MRP or 3x the original price; ragging fine INR 25,000. Document charges (helpdesk): transcript INR 1,000, duplicate grade sheet INR 500, duplicate ID INR 500, duplicate diploma INR 2,000, re-assessment INR 5,000 per course, supplementary exam INR 2,500 per course.

9. Who to contact. Accounts: Mr. Ashok Rupera (Assistant Manager - Accounts), under Finance Controller Ms. Shruti Mehta. Program Office: 9099981586. For fee status, late-fee calculation or a receipt, use the student helpdesk after signing in.

F.1 Fee structure

F.1.1 PGDM total tuition fee, inclusions and exclusions

Type: rule · **Applies to:** PGDM-AIDS (see FEE-005 for BDA) · **Status:** OFFICIAL · **Source:** Admission Offer Letter, Annexure II (Batch 2025-27)

Answers: What is the total fee for the PGDM? | What does the fee include? | Is hostel included in the fee? | Is the mess included in the fee?

The total tuition fee for PGDM Batch 2025-27 is INR 10,00,000 (Ten Lakhs). It is paid as a registration fee plus four installments of INR 2,00,000 each. A refundable caution deposit of INR 50,000 is paid with the 1st installment. The programme fee includes study materials, books, library charges and internet charges. It does not include accommodation (hostel), mess charges or personal expenses.

F.1.2 Fee payment schedule and due dates (Batch 2025-27)

Type: table · **Applies to:** PGDM-AIDS (see FEE-005 for BDA) · **Status:** OFFICIAL · **Source:** Admission Offer Letter, Annexure II

Answers: What are the fee installment due dates? | When is the next fee installment due? | How much is each installment? | When is the 4th installment due?

Stage	Due by	Tuition	Caution deposit	Total
Registration fee	On accepting the admission offer	2,00,000	0	2,00,000
1st installment	15 July 2025	2,00,000	50,000	2,50,000
2nd installment	15 January 2026	2,00,000	0	2,00,000
3rd installment	15 July 2026	2,00,000	0	2,00,000
4th installment	15 January 2027	2,00,000	0	2,00,000

All amounts are in INR. Total payable is INR 10,50,000, of which INR 10,00,000 is tuition and INR 50,000 is the refundable caution deposit. The 4th installment (15 January 2027) is the last tuition payment. Payment dates may be changed at the discretion of the AIDTM Admission Committee. A student's own paid or pending status is held in their individual fee record, not in this policy.

F.1.3 Fee totals by stage and by year (cumulative)

Type: table · **Applies to:** PGDM-AIDS (assumed same for BDA, see FEE-005) · **Status:** OFFICIAL-DERIVED · **Source:** Derived from Admission Offer Annexure II

Answers: How much have I paid after each installment? | How much is the first year fee? | How much is the second year fee? | What is the remaining fee balance?

Cumulative amount paid after each stage, including the caution deposit: registration INR 2,00,000; 1st installment (15 Jul 2025) INR 4,50,000; 2nd (15 Jan 2026) INR 6,50,000; 3rd (15 Jul 2026) INR 8,50,000; 4th (15 Jan 2027) INR 10,50,000. Tuition only: 2, 4, 6, 8 and 10 lakh. Payments due in the first academic year (Aug 2025 - Jul 2026, including registration): INR 6,50,000 including the INR 50,000 deposit. Payments due in the second year: INR 4,00,000 (3rd and 4th installments). If the 1st, 2nd and 3rd installments are paid, the remaining tuition is INR 2,00,000 (4th installment). A student's actual paid or pending amounts come from their own fee record.

F.1.4 PGDM-BDA fee structure

Type: rule · **Applies to:** PGDM-BDA · **Status:** AUGMENTED · **Source:** Project assumption (no BDA-specific fee annexure was provided)

Answers: What is the fee for BDA? | Is the BDA fee the same as AI & DS?

For this knowledge base, PGDM-BDA Batch 2025-27 is assumed to have the same fee structure as PGDM-AI & DS: INR 10,00,000 tuition, a registration fee plus four installments of INR 2,00,000 due on the same dates (15 Jul 2025, 15 Jan 2026, 15 Jul 2026, 15 Jan 2027), and a refundable INR 50,000 caution deposit with the 1st installment. The Late Fees Policy applies to all students. BDA students should confirm their exact fee schedule with Accounts.

F.1.5 Caution deposit

Type: rule · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL · **Source:** Admission Offer Annexure II; Late Fees Policy v02 §3

Answers: What is the caution deposit? | Is the caution deposit refundable? | What is deducted from the caution deposit?

A caution deposit of INR 50,000 is paid along with the 1st installment. It is refundable after the programme is completed, after any dues are adjusted. Unpaid late fees, penalties, library charges or damage recoveries are deducted from the caution deposit.

F.2 Paying your fees

F.2.1 How to pay fees: modes, rules and safety

Type: procedure · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** AUGMENTED · **Source:** Helpdesk policy written for this project (not issued by AIDTM)

Answers: How do I pay my fees? | Can I pay by UPI or card? | Can I pay by NEFT or RTGS? | Is cash accepted? | Can I pay in parts? | Where do I get the bank account details?

Mode	How	When it counts as paid	Notes
Online fee portal (UPI, net banking, debit or credit card)	Student portal, then Fees, then Pay	Instant acknowledgement; official receipt within 2 working days	Card convenience charges, if any, are paid by the student; UPI daily limits depend on your bank
NEFT or RTGS	To the Institute account shown on the fee portal or in an official Accounts email; quote your enrollment number	Same or next working day	Email the UTR number and your enrollment number to Accounts
Demand draft	In favour of "Adani Institute of Digital Technology Management"	On deposit at the Institute	Write your name and enrollment number on the back
Education loan disbursement	The bank pays the Institute against the demand letter (F.2.4)	When the bank's payment is received	Must reach the Institute by the due date
Cash	Not accepted	—	—

Rules:

- Pay the full installment, net of any scholarship adjustment (G.2.1).
- Part payment is accepted only with Accounts' prior approval. The late fee then runs on the unpaid balance.
- The date the money reaches the Institute is the payment date.
- Keep every receipt until you receive your diploma.

Safety:

- Take bank details only from the fee portal or an official @aidtm.ac.in email, and treat any message with "new bank details" as suspected fraud.

- Never share card numbers, CVVs, PINs or OTPs with anyone, including staff or the helpdesk (N.1.3).

F.2.2 Payment portal failure or technical problem on the due date

Type: procedure · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** AUGMENTED · **Source:** Helpdesk policy written for this project (not issued by AIDTM)
Answers: The payment portal failed, what should I do? | Can I pay on the next working day if the portal is down? | Money was debited but the fee is not showing | Will I be charged a late fee if the payment failed? | What if the due date is a Sunday?

Step by step:

1. Check whether money left your account (bank SMS or statement).
2. If nothing was debited, try once more later, or pay by NEFT/RTGS the same day (F.2.1).
3. If money was debited but you have no receipt, do not pay again. Wait 2 hours and note the transaction ID or UTR.
4. Raise a “Fees & Payments” support request with priority High. Attach a screenshot and give the time, the amount and the transaction ID.
5. Accounts checks with the payment gateway within 3 working days:
   - If the money reached the Institute, the receipt is issued.
   - If the payment failed, your bank reverses the debit, usually within 5-7 working days, and you pay again.

Late-fee protection:

Situation	Late fee?
Fault verified on the Institute’s portal or gateway, and payment completed by the next working day (or within 1 working day of Accounts’ confirmation)	No, treated as on time
Failure on the student’s side (insufficient balance, daily limit, wrong UPI ID, expired card)	Yes, the normal slabs apply (F.3.1)
Due date falls on a Sunday or Institute holiday	No, the next working day is treated as the due date

The official Late Fees Policy entertains no requests regarding late fees (F.3.4). The portal-failure protection above is a helpdesk rule for verified Institute-side faults only.

Contacts: Accounts (Mr. Ashok Rupera, Assistant Manager - Accounts); Program Office 9099981586.

F.2.3 Fee receipts and checking your fee status

Type: procedure · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** AUGMENTED · **Source:** Helpdesk policy written for this project (not issued by AIDTM)
Answers: How do I get my fee receipt? | I paid but did not get a receipt | How can I check my fee status? | How do I get a duplicate receipt?

- **Online portal payment:** an acknowledgement appears at once, and the official receipt is emailed to your Institute address within 2 working days.
- **NEFT/RTGS:** the payment shows on your fee record after Accounts matches your UTR, usually within 2 working days of your email.
- **Checking status:** sign in to the student helpdesk and ask “What is my fee status?” to see every installment (paid, pending, overdue), any late fee accrued, the amount outstanding and the next due date. The same is on the student portal.
- **Duplicate receipt:** free, within 2 working days, through a “Fees & Payments” support request.
- **Missing payment:** if a payment is not reflected after 3 working days, raise a High-priority request with the UTR.

Only you can see your own fee record (N.1.1).

F.2.4 Education loans

Type: procedure · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** AUGMENTED · **Source:** Helpdesk policy written for this project (not issued by AIDTM); no-waiver rule from Late Fees Policy v02 (official)
Answers: How do I get an education loan? | What documents does the bank need from AIDTM? | Will the late fee apply if my loan is delayed? | Does the bank pay the Institute directly? | Is education loan interest tax deductible?

Documents the Institute provides (within 3 working days of a “Certificates & Documents” or “Fees & Payments” request):

- Fee demand letter on letterhead, with the installment-wise schedule and the Institute’s bank details.
- Bonafide certificate.
- Copy of the admission letter and fee structure (F.1.2).
- Reference to the AICTE approval, which is published on the AIDTM website (A.1.6).

Timeline:

- Apply to the bank at least 30 days before the installment due date.
- For tranche-wise loans, ask for a fresh demand letter before each installment.

Who pays: the bank pays the Institute directly, and Accounts sends the receipt to the student.

Responsibility for the due date: the due date does not move because a loan is delayed. Late fees apply from the day after the due date, and the policy entertains no waiver requests (F.3.4). If your loan is delayed, pay the installment yourself and claim a reimbursement from the bank.

Tax: interest on an education loan may be deductible under Section 80E of the Income Tax Act. Check with a tax adviser.

F.3 Late fees and consequences of dues

F.3.1 Late fee for tuition: daily slabs

Type: table · **Applies to:** All AIDTM students · **Status:** OFFICIAL · **Source:** AIDTM Late Fees Policy (AP-LFP), version 02, effective 1 April 2025
Answers: What is the late fee? | How much is the late fee per day? | What happens if I pay late? | What are the late fee slabs?

A late fee is charged when tuition is not paid by the notified last date. Up to 2 weeks late: INR 100 per day. From 2 to 4 weeks late: INR 200 per day. From 4 to 6 weeks late: INR 400 per day. Payment can in no case be delayed beyond 6 weeks. The policy aims to ensure timely payment and avoid disciplinary action. It states that no request regarding late fees will be entertained, so parents and students are asked to pay on time.

F.3.2 How the late fee is calculated: worked examples

Type: table · **Applies to:** All AIDTM students · **Status:** OFFICIAL-DERIVED · **Source:** Derived from Late Fees Policy v02 §1
Answers: How is the late fee calculated? | How much late fee for 10 days? | How much late fee for 20 days late? | What is the maximum late fee in 6 weeks?

Interpretation used: each day is charged at the rate of the band it falls in. Days 1-14 are charged at INR 100 per day, days 15-28 at INR 200 per day, and days 29-42 at INR 400 per day. Examples: 10 days late = 10 x 100 = INR 1,000. 20 days late = 1,400 + (6 x 200) = INR 2,600. 35 days late = 1,400 + 2,800 + (7 x 400) = INR 7,000. 42 days late (the 6-week maximum) = 1,400 + 2,800 + 5,600 = INR 9,800. If attendance is permitted beyond 6 weeks, INR 2,000 is added per extra day; for example, 45 days late = 9,800 + 6,000 = INR 15,800. The total penalty is capped at 100% of the fees. Accounts makes the final computation, and an alternative reading of the policy charges the whole period at the band rate reached.

F.3.3 Non-payment beyond 6 weeks

Type: rule · **Applies to:** All AIDTM students · **Status:** OFFICIAL · **Source:** Late Fees Policy v02 §1
Answers: What happens if I don't pay for more than 6 weeks? | Can I sit exams if my fees are unpaid? | What is the 2000 rupees per day penalty?

If fees remain unpaid more than 6 weeks after the notified last date, the student is not allowed to appear in examinations or attend lectures. In an extraordinary situation the Institute may permit such a student to attend class or take the examination. The student must then pay the fees plus the late fee plus an additional penalty of INR 2,000 per day beyond 6 weeks. The maximum penalty is limited to 100% of the fees.

F.3.4 Requests to waive late fees

Type: rule · **Applies to:** All AIDTM students · **Status:** OFFICIAL · **Source:** Late Fees Policy v02 §4; Admission Offer Annexure II
Answers: Can the late fee be waived? | Can I get an extension for my fees? | Who can change the fee due dates?

Under the official Late Fees Policy, no request regarding late fees will be entertained, and students and parents are asked to pay on time to avoid inconvenience. Any change to payment dates is decided only by the AIDTM Admission Committee and published on the Institute website. The only waiver this knowledge base describes is the verified Institute-portal failure case in F.2.2, which is AUGMENTED.

F.3.5 Consequences of outstanding dues

Type: rule · **Applies to:** All AIDTM students · **Status:** OFFICIAL · **Source:** Late Fees Policy v02 §1, §3; Student Handbook §11
Answers: What happens if I have outstanding dues? | Will my transcript be withheld for unpaid fees? | Are unpaid late fees deducted from the caution deposit?

The Institute may withhold grades, transcripts, degrees/diplomas and other services from students who have not met their financial obligations in full. Late fee and penalty charges must be cleared promptly when due; if they are not paid, they are adjusted from the caution deposit. A student with outstanding dues does not qualify for the award of the PGDM.

F.4 Refunds and other charges

F.4.1 Withdrawal from the programme and refunds

Type: procedure · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** AUGMENTED · **Source:** Helpdesk policy written for this project (not issued by AIDTM), modelled on AICTE refund norms (the official AIDTM refund policy was not provided)
Answers: How do I withdraw from the programme? | Will I get a refund if I leave? | When is the caution deposit refunded? | How long does a refund take? | Where is the refund paid?

When you withdraw	Tuition	Caution deposit	Processing charge
Before Trimester I begins	All fees paid are refunded	Refunded	Up to INR 1,000
After classes begin	The current installment period is not refundable; future installments are not charged	Refunded after dues are adjusted	—
Seat cancelled by the Institute (misconduct, or failing the award criteria)	No refund for the current period	Refunded after dues are adjusted	—
On completing the programme	—	Refunded after no-dues clearance, within 30 days	—

Process:

1. Write to the Program Office with your reason for withdrawing.
2. Complete the no-dues form, signed by the Library, Accounts, IT and (for residents) the Hostel.
3. Accounts processes the refund within 30 days of approval, only to your verified bank account.

Changing the refund bank account is a sensitive change that needs verification and approval (N.1.2). The hostel deposit is refunded after the room inspection (L.1.2).

This table is modelled on the AICTE fee-refund norms, under which an institute may keep a processing fee of up to INR 1,000 when a student withdraws before the programme starts. Where this summary differs, AICTE regulations prevail.

F.4.2 Summary of fines and charges across policies

Type: table · **Applies to:** All AIDTM students · **Status:** OFFICIAL-DERIVED · **Source:** Consolidated from Late Fees Policy v02, Exam Code of Conduct, Student Handbook §12.3 and Annexures VII, VIII, IX

Answers: What are all the fines? | How much is the fine for using a phone in class? | What is the fine for losing my hall ticket? | What is the library fine?

Situation	Amount (INR)
Tuition late fee	100 / 200 / 400 per day (up to 2, 2-4, 4-6 weeks)
Tuition unpaid beyond 6 weeks, if permitted to attend	+2,000 per day, capped at 100% of the fees
Mobile phone used in or around class	500 (spot fine)
Confiscated phone returned (1st / 2nd time)	2,000 / 5,000; 3rd time the phone is confiscated permanently and referred to the Disciplinary Committee
Not carrying I-Card during exams	100
Replacement hall ticket	100
Overdue library book	5 per day per book (up to 60 days)
Ragging	Fine of 25,000, among other punishments
Lost or damaged library book	Higher of the latest edition’s MRP or 3x the original price

Part G — Scholarships and financial assistance

The four Institute scholarships, who qualifies, how much they are worth, how to apply, what each status means, how to keep a scholarship, and external schemes.

G.0 Part G at a glance: all scholarships

Type: overview · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** AUGMENTED · **Source:** Consolidated from G.1.1 to G.2.3 (sample scholarship policy for this project; ragging withdrawal rule is official)

Answers: Tell me everything about scholarships | Which scholarships can I get? | Explain all scholarship rules

1. The four scholarships. (a) Merit Scholarship at Admission: automatic, based on entrance percentile and graduation marks; Tier 1 (95th percentile or above) INR 1,00,000, Tier 2 (85th to below 95th) INR 50,000, split equally across the four installments. (b) Academic Excellence Scholarship (Year 2): automatic for the top three students per programme by Year 1 CGPA after Trimester III results; INR 75,000 / 50,000 / 25,000, adjusted against the 3rd and 4th installments; needs no F or I grade, no disciplinary action and 70% attendance in every course. (c) Need-Based Financial Assistance: application-based for family income below INR 6,00,000 a year; up to INR 1,00,000 per year; documents are an income certificate or parents' ITR, a declaration and the latest grade sheet; closing dates 15 June (July installment) and 15 December (January installment). (d) Women in Data & AI Scholarship: up to five women per batch, INR 50,000 each, based on Trimester I GPA and a statement of purpose; closes four weeks after Trimester I results; adjusted against the next two installments.

2. Common rules. Scholarships are fee concessions adjusted against tuition installments, never cash. Only one scholarship can be held at a time; if eligible for more than one, the higher amount applies. They never cover the caution deposit, late fees or fines. Late fees, if any, are calculated on the net amount after adjustment.

3. How to apply and timelines. Raise a "Scholarships" support request or submit the form to the Program Office with the documents. The Scholarship Committee (Dean, Programme Chair, Finance Controller) decides within 21 working days of the closing date and emails the decision. Approved amounts are adjusted against the next due installment.

4. Status meanings. Applied (received); Under Review (being evaluated); Approved (granted, amounts confirmed); Adjusted (applied to the fee record); On Hold (document or condition missing, student informed); Rejected (reason communicated); Withdrawn (cancelled after a breach or at the student's request). Withdrawing an application is a sensitive change that needs approval.

5. Keeping the scholarship. Maintain CGPA of at least 2.60, no F or unresolved I grade, meet attendance rules, and have no misconduct finding. On a breach, the remaining unadjusted amount is withdrawn from the next installment; amounts already adjusted are recovered only for misconduct or false documents. Under the official anti-ragging rules, withdrawing a scholarship is one punishment for ragging.

6. Privacy. A student can see only their own scholarship status, after signing in.

G.1 Scholarship schemes

G.1.1 Scholarship schemes at a glance and common rules

Type: table · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** AUGMENTED · **Source:** Sample scholarship policy written for this project (AIDTM scholarship rules were not provided)

Answers: What scholarships does AIDTM offer? | How much are the scholarships worth? | Can I get two scholarships? | Are scholarships paid in cash? | Does the scholarship cover the caution deposit or late fees?

Scheme	Who it is for	Amount (INR)	Application needed?	Adjusted against	Deadline
Merit Scholarship at Admission (G.1.2)	Entrance-test toppers	Tier 1: 1,00,000; Tier 2: 50,000	No, automatic	1st to 4th installments, equally	At admission
Academic Excellence Scholarship (G.1.3)	Top 3 per programme by Year 1 CGPA	75,000 / 50,000 / 25,000	No, automatic	3rd and 4th installments	After Trim III results
Need-Based Financial Assistance (G.1.4)	Family income below 6,00,000 a year	Up to 1,00,000 a year	Yes	Next due installment	15 June and 15 December
Women in Data & AI Scholarship (G.1.5)	Women students, up to 5 per batch	50,000	Yes	Next two installments	4 weeks after Trim I results

Rules common to every scheme:

- **Not cash.** A scholarship is a fee concession adjusted against tuition installments. You pay only the net amount.
- **One at a time.** If you qualify for more than one scheme, you receive the higher amount.
- **What it never covers:** the caution deposit, late fees, fines, hostel, mess or transport charges.
- **Late fees:** calculated on the net amount due after the adjustment.
- **Who decides:** the Scholarship Committee (the Dean, the Programme Chair and the Finance Controller).
- **Appeals:** to the Dean within 7 days of the decision. The Dean's decision is final.
- **Privacy:** you can see only your own scholarship status, after signing in (N.1.1).

G.1.2 Merit Scholarship at Admission

Type: rule · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** AUGMENTED · **Source:** Sample scholarship policy written for this project (AIDTM scholarship rules were not provided)

Answers: What is the merit scholarship? | What percentile do I need for a scholarship? | How much is the Tier 1 scholarship? | Do I need to apply for the

merit scholarship? | How is the merit scholarship paid?

Eligibility: awarded automatically at admission, based on the entrance-test score. Graduation marks of at least 60% are also required.

Tier	CAT / XAT / MAT / CMAT / ATMA percentile	GMAT score	Amount (INR)	Adjusted per installment (INR)
Tier 1	95 and above	650 and above	1,00,000	25,000 against each of the 1st to 4th installments
Tier 2	85 to below 95	600 to 649	50,000	12,500 against each of the 1st to 4th installments

How you are told: the award is stated in the admission offer letter, and the adjustment appears on your fee record. No application is needed.

Keeping it: the remaining installments' adjustments continue only while you meet the continuation conditions in G.2.3 (CGPA of at least 2.60, no F or I grade, and attendance and conduct in order).

G.1.3 Academic Excellence Scholarship (Year 2)

Type: rule · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** AUGMENTED · **Source:** Sample scholarship policy written for this project (AIDTM scholarship rules were not provided)

Answers: What is the academic excellence scholarship? | How do I qualify for the topper scholarship? | How much do the top 3 students get? | When is the academic excellence scholarship announced?

Who: the top three students in each PGDM programme (BDA and AI & DS ranked separately) by Year 1 CGPA, calculated after Trimester III results.

Rank	Amount (INR)	Adjustment
1	75,000	Half against the 3rd installment, half against the 4th
2	50,000	Half against the 3rd installment, half against the 4th
3	25,000	Half against the 3rd installment, half against the 4th

Eligibility conditions: no F or I grade in Year 1, no disciplinary finding, and at least 70% attendance in every course.

Tie-break: higher Trimester III GPA first, then higher overall attendance.

Timing: announced by the Program Office by 31 August, after the SIP period. If the 3rd installment has already been paid, the full amount is adjusted against the 4th installment.

No application is needed.

G.1.4 Need-Based Financial Assistance

Type: rule · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** AUGMENTED · **Source:** Sample scholarship policy written for this project (AIDTM scholarship rules were not provided)

Answers: Is there financial help for students from low-income families? | What is the income limit for need-based scholarship? | What documents do I need for need-based assistance? | When is the need-based scholarship deadline?

Who: students whose total annual family income is below INR 6,00,000.

Annual family income (INR)	Assistance per year (INR, up to)
Below 3,00,000	1,00,000
3,00,000 to below 4,50,000	75,000
4,50,000 to below 6,00,000	50,000

Documents:

- Income certificate from the competent authority, or the parents'/guardians' ITR for the last financial year.
- Student's self-declaration of family income and dependants.
- Latest grade sheet (after Trimester I).
- Bank statement of the main earning member for 6 months, if asked.

Process:

- Applications close on 15 June (for the July installment) and 15 December (for the January installment).
- The Scholarship Committee may call the student for a short interview, and verifies the documents.
- The decision comes within 21 working days of the closing date.
- The award is renewed each year on a fresh application.

False documents: lead to cancellation, recovery of the amounts already adjusted, and disciplinary action.

G.1.5 Women in Data & AI Scholarship

Type: rule · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** AUGMENTED · **Source:** Sample scholarship policy written for this project (AIDTM scholarship rules were not provided)

Answers: Is there a scholarship for women students? | How do I apply for the Women in Data & AI scholarship? | How many women scholarships are there? | How is the women scholarship selected?

Who: women students in either PGDM programme. Up to five awards per batch.

Amount: INR 50,000, adjusted as INR 25,000 against each of the next two installments.

Selection:

- 60% weight: Trimester I GPA.
- 40% weight: a statement of purpose of up to 500 words on the student's goals in data and AI.
- Shortlisted candidates may be interviewed.

How to apply: submit the statement through a "Scholarships" support request within 4 weeks of Trimester I results being declared.

Continuation conditions: as in G.2.3.

Combining with other awards: the scheme cannot be combined with another Institute scholarship. If you qualify for both, the higher amount applies.

G.2 Applying, status and keeping your scholarship

G.2.1 How to apply for a scholarship and how the money is applied

Type: procedure · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** AUGMENTED · **Source:** Sample scholarship policy written for this project (AIDTM scholarship rules were not provided)

Answers: How do I apply for a scholarship? | How long does a scholarship decision take? | How is the scholarship adjusted in my fees? | Where do I submit the scholarship form?

1. **Check eligibility** in G.1.1. Merit and Academic Excellence awards are automatic; Need-Based and Women in Data & AI need an application.
2. **Apply:** raise a "Scholarships" support request, or hand the scholarship form to the Program Office, with every document listed for that scheme. Incomplete applications are put On Hold.
3. **Review:** the Scholarship Committee (Dean, Programme Chair, Finance Controller) evaluates the application and may hold a short interview.
4. **Decision:** within 21 working days of the closing date, sent to your Institute email. The status becomes Approved or Rejected.
5. **Adjustment:** Accounts applies the amount to your next due installment, and the status becomes Adjusted. Your fee record then shows the net amount to pay.
6. **Appeal:** if rejected, you may appeal to the Dean within 7 days.

Track the status at any time by asking the helpdesk "What is my scholarship status?" (G.2.2).

G.2.2 Scholarship status: what each stage means

Type: table · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** AUGMENTED · **Source:** Sample scholarship policy written for this project (AIDTM scholarship rules were not provided)

Answers: What does my scholarship status mean? | What does Under Review mean? | What does Adjusted mean? | Why is my scholarship on hold?

Status	Meaning	What you should do
Applied	Application received	Nothing; wait for review
Under Review	The Committee is evaluating it (decision within 21 working days)	Respond quickly if asked for an interview or a document
On Hold	A document is missing or a condition is unmet	Upload what is asked through a "Scholarships" request
Approved	Granted; the amount and installments are confirmed	Check the net amount on your fee record
Adjusted	The amount has been applied to your fee record	Pay the net balance by the due date
Rejected	Not granted; the reason is emailed	You may appeal to the Dean within 7 days
Withdrawn	Cancelled after a breach of conditions, or at your request after approval	See G.2.3
None	No scholarship held	See G.1.1 for schemes you can apply for

Withdrawing your own application is a sensitive change that needs approval (N.1.2).

G.2.3 Keeping your scholarship: continuation conditions

Type: rule · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** AUGMENTED · **Source:** Sample scholarship policy written for this project (AIDTM scholarship rules were not provided); ragging punishment from Student Handbook Annexure VIII (official)

Answers: How can I lose my scholarship? | What CGPA do I need to keep my scholarship? | What happens to my scholarship if I get an F? | Will I have to return the scholarship money?

Condition	Requirement	If breached
Academic performance	CGPA of at least 2.60 at each trimester-end	Remaining unadjusted amount withdrawn from the next installment
Grades	No F grade, and no I grade left uncleared beyond its deadline	Same as above
Attendance	At least 70% in every course	Same as above
Conduct	No finding of academic or non-academic misconduct	Withdrawn; recovery of amounts already adjusted is possible
Ragging	Zero tolerance	Withdrawal of scholarship is one of the official punishments for ragging (J.3.1)
Honest documents	All documents genuine	Cancelled, amounts recovered, disciplinary action

Amounts already adjusted are not recovered for academic shortfalls, only for misconduct or false documents.

Restoration: a student whose CGPA recovers to 2.60 or above can ask the Committee to restore the scholarship for the following installments.

G.2.4 Government and external scholarships

Type: rule · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** AUGMENTED · **Source:** Helpdesk policy written for this project (not issued by AIDTM)

Answers: Are there government scholarships for PGDM students? | Can I apply for external scholarships? | Can I hold an external scholarship and an AIDTM scholarship?

Where to look:

- **Central schemes:** listed on the National Scholarship Portal (scholarships.gov.in).
- **State schemes:** run by state governments; check your home state's portal.
- **Other sources:** many banks, corporates (CSR scholarships) and foundations run merit and need-based schemes for postgraduate management and technology students.

What the Institute provides: bonafide certificates, fee structure letters and verification of enrollment (D.4.2), usually within 3 working days.

Declaration: you must tell the Program Office about any external scholarship you receive.

Combining with an Institute scholarship:

- An external award that covers the full tuition replaces the Institute award.
- A partial external award can usually be held together with an Institute scholarship, as long as the combined amount does not exceed the tuition due.

Part H — Academic calendar

Every trimester's start, exams and end; the Summer Internship window; holidays for 2025, 2026 and 2027; and every deadline you need to remember.

H.0 Part H at a glance: the whole batch calendar

Type: overview · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL-DERIVED · **Source:** Consolidated from H.1.1 to H.2.2 (Trimesters I-IV official; V-VI and 2027 holidays tentative)

Answers: Give me the full academic calendar | When does each trimester start and end? | Show all exam and holiday dates | What is the complete schedule for the batch?

Trimester	Start	Mid-term	End-term	End	Holidays in the trimester	Status
Bridge course	17 Jul 2025	—	—	31 Jul 2025	—	Official
I	1 Aug 2025 (Fri)	15-18 Sep 2025	7-11 Oct 2025	11 Oct 2025 (Sat)	Raksha Bandhan 9 Aug; Independence Day & Janmashtami 14-17 Aug; Ganesh Chaturthi 27 Aug; Ashtami Havan 29 Sep; Dussehra & Gandhi Jayanti 2 Oct; Diwali break 13-27 Oct	Official
II	29 Oct 2025 (Wed)	1-3 Dec 2025	1-6 Jan 2026	6 Jan 2026 (Tue)	Christmas 25 Dec	Official
III	19 Jan 2026 (Mon)	19-21 Feb 2026	23-28 Mar 2026	28 Mar 2026 (Sat)	Republic Day 26 Jan; Dhuleti 4 Mar	Official
Summer Internship	Apr 2026	—	—	Aug 2026	typically 5 months	Official (SIP Policy)
IV	2 Sep 2026 (Wed)	5-6 Oct 2026	31 Oct 2026	4 Nov 2026 (Wed)	Janmashtami 4-5 Sep; Gandhi Jayanti 2 Oct; Diwali vacation 5-14 Nov after the trimester	Official
V	17 Nov 2026 (Tue)	21-23 Dec 2026	1-5 Feb 2027	5 Feb 2027 (Fri)	Christmas 25 Dec; New Year 1 Jan; Uttarayan 14 Jan; Republic Day 26 Jan	Start official; rest tentative
VI (Capstone)	8 Feb 2027 (Mon)	Review 5-6 Apr 2027	Viva 17-21 May 2027	28 May 2027 (Fri)	Dhuleti 22 Mar; Good Friday 26 Mar; Ambedkar Jayanti 14 Apr; Gujarat Day 1 May	Tentative (programme end May 2027 official)

Fee due dates: 15 Jul 2025, 15 Jan 2026, 15 Jul 2026, 15 Jan 2027. Scholarship application deadlines (helpdesk): 15 Jun and 15 Dec each year. Convocation: tentatively June 2027. Where documents disagree, the later trimester calendar wins (A.3.2).

H.1 Trimester calendars

H.1.1 Bridge course and Trimester I calendar (2025)

Type: table · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL · **Source:** Student Handbook Annexure II

Answers: When did Trimester I start and end? | When was the bridge course? | What were the Trimester I exam dates? | When was the 2025 Diwali break?

Bridge course: 17 Jul 2025 to 31 Jul 2025. Trimester I began on 1 Aug 2025 (Friday). Holidays: Raksha Bandhan, 9 Aug 2025; Independence Day and Janmashtami, 14-17 Aug 2025; Ganesh Chaturthi celebration, 27 Aug 2025; Ashtami Havan, 29 Sep 2025 (the Handbook lists it as a Friday, but 29 Sep 2025 is a Monday); Dussehra and Gandhi Jayanti, 2 Oct 2025. Mid-term exams (tentative): 15-18 Sep 2025. End-term exams (tentative): 7-11 Oct 2025. Trimester I ended on 11 Oct 2025. Diwali break: 13-27 Oct 2025.

H.1.2 Trimester II calendar

Type: table · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL · **Source:** Trimester II Tentative Academic Calendar, Batch 2025-27

Answers: When did Trimester II start and end? | What were the Trimester II mid-term and end-term dates?

Trimester II began on 29 Oct 2025 (Wednesday). Mid-term exams: 1-3 Dec 2025 (Monday to Wednesday). Christmas holiday: 25 Dec 2025. End-term exams: 1-6 Jan 2026 (Thursday to Tuesday). Trimester II ended on 6 Jan 2026. The Handbook's earlier date for

the start of Trimester II, 28 Oct 2025, was superseded by this calendar.

H.1.3 Trimester III calendar

Type: table · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL · **Source:** Trimester III Tentative Academic Calendar, Batch 2025-27

Answers: When did Trimester III start and end? | What were the Trimester III exam dates? | When is Dhuleti 2026?

Trimester III began on 19 Jan 2026 (Monday). Republic Day holiday: 26 Jan 2026. Mid-term exams: 19-21 Feb 2026 (Thursday to Saturday). Dhuleti holiday: 4 Mar 2026. End-term exams: 23-28 Mar 2026 (Monday to Saturday). Trimester III ended on 28 Mar 2026. The Summer Internship followed Trimester III. The Trimester II calendar had listed 7 Jan 2026 as the start of Trimester III; 19 Jan 2026 is the correct date.

H.1.4 Trimester IV calendar

Type: table · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL · **Source:** Trimester IV Tentative Academic Calendar, PGDM Batch 2025-27

Answers: When does Trimester IV end? | When is the Trimester IV end-term exam? | When is the Diwali vacation 2026? | When does Trimester V start?

Trim III End-Term Examination: 1 Sep 2026 (Tuesday); confirm with the Program Office which students this applies to. Trimester IV began on 2 Sep 2026 (Wednesday). Janmashtami holidays: 4-5 Sep 2026. Gandhi Jayanti: 2 Oct 2026. Mid-term exams: 5-6 Oct 2026 (Monday and Tuesday). End-term exam: 31 Oct 2026 (Saturday). Trimester IV ends on 4 Nov 2026 (Wednesday). Diwali vacation: 5-14 Nov 2026. Trimester V begins on 17 Nov 2026 (Tuesday).

H.1.5 Trimester V tentative calendar (Nov 2026-Feb 2027)

Type: table · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** AUGMENTED · **Source:** Trim V start date from the Trim IV calendar (official); remaining dates built for this project in the pattern of earlier calendars

Answers: When are the Trimester V exams? | When does Trimester V end? | When is the Trimester V mid-term?

Sr	Activity	Date	Day
1	Trimester V Commencement (official)	17-Nov-26	Tuesday
2	Mid-Term Examination	21-Dec-26 to 23-Dec-26	Monday to Wednesday
3	Christmas Holiday	25-Dec-26	Friday
4	New Year Holiday	01-Jan-27	Friday
5	Uttarayan (Makar Sankranti) Holiday	14-Jan-27	Thursday
6	Republic Day Holiday	26-Jan-27	Tuesday
7	End-Term Examination	01-Feb-27 to 05-Feb-27	Monday to Friday
8	Trimester V Completion	05-Feb-27	Friday
9	Trimester VI Commencement	08-Feb-27	Monday

Only the Trimester V start date is official; everything else is tentative until the Program Office publishes the Trimester V calendar.

H.1.6 Trimester VI tentative calendar and programme end (Feb-May 2027)

Type: table · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** AUGMENTED · **Source:** Programme end from Handbook §4.3 (official); remaining dates built for this project

Answers: When does Trimester VI start? | When is the capstone viva? | When is the capstone report due? | When does the programme end? | When is convocation?

Sr	Activity	Date	Day
1	Trimester VI / Capstone Commencement	08-Feb-27	Monday
2	Capstone proposal approval deadline	19-Feb-27	Friday
3	Dhuleti Holiday	22-Mar-27	Monday
4	Good Friday Holiday	26-Mar-27	Friday
5	Capstone Mid-Term Review	05-Apr-27 to 06-Apr-27	Monday to Tuesday
6	Dr. Ambedkar Jayanti Holiday	14-Apr-27	Wednesday
7	Capstone Report Submission	10-May-27	Monday
8	Capstone Presentations and Viva	17-May-27 to 21-May-27	Monday to Friday
9	Trimester VI Completion / Programme End	28-May-27	Friday
10	Convocation (tentative)	June 2027	To be announced

The programme ending in May 2027 is official (Handbook). All dates above are tentative.

H.1.7 Trimester V, Trimester VI and programme end

Type: rule · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL · **Source:** Trimester IV calendar; Student Handbook §4.3, §7.2

Answers: What happens in Trimester V and VI? | Are the Trimester V and VI calendars official?

Trimester V begins on 17 Nov 2026. Trimester VI is the final trimester, in which students do the Capstone Project. The programme ends in May 2027. The official Trimester V and VI calendars had not been published when this knowledge base was prepared. Tentative calendars built for this project are in H.1.5 and H.1.6, and students should confirm dates with the Program Office.

H.2 Holidays and the master calendar

H.2.1 Consolidated holiday list, Batch 2025-27

Type: table · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL-DERIVED · **Source:** Derived from Handbook Annexure II and the Trimester II, III and IV calendars

Answers: What are the holidays in 2025 and 2026? | Is there a holiday on Gandhi Jayanti? | List all holidays

2025: Raksha Bandhan, 9 Aug; Independence Day and Janmashtami, 14-17 Aug; Ganesh Chaturthi celebration, 27 Aug; Ashtami Havan, 29 Sep; Dussehra and Gandhi Jayanti, 2 Oct; Diwali break, 13-27 Oct; Christmas, 25 Dec. 2026: Republic Day, 26 Jan; Dhuleti, 4 Mar; Janmashtami, 4-5 Sep; Gandhi Jayanti, 2 Oct; Diwali vacation, 5-14 Nov. The official 2027 holiday list had not yet been published; a tentative list is in H.2.2.

H.2.2 Holiday list 2027 (tentative)

Type: table · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** AUGMENTED · **Source:** Built for this project from the Institute's holiday pattern and the Gujarat public holiday calendar

Answers: What are the holidays in 2027? | Is Uttarayan a holiday? | Is Good Friday 2027 a holiday?

2027 holidays expected for the batch: New Year, 1 Jan (Fri); Uttarayan / Makar Sankranti, 14 Jan (Thu); Republic Day, 26 Jan (Tue); Dhuleti, 22 Mar (Mon); Good Friday, 26 Mar (Fri); Dr. Ambedkar Jayanti, 14 Apr (Wed); Gujarat Day, 1 May (Sat). Holidays falling on a Sunday are not substituted. The official list is issued by the Program Office with each trimester calendar.

H.2.3 Master date-wise calendar, Batch 2025-27

Type: table · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL-DERIVED · **Source:** Derived from Handbook Annexure II and the Trim II, III and IV calendars

Answers: Give me a date-wise list of all events | What happens on which date in the batch?

2025: 17 Jul (Thu) bridge course starts; 31 Jul (Thu) bridge course ends; 1 Aug (Fri) Trim I starts; 9 Aug (Sat) Raksha Bandhan; 14-17 Aug (Thu-Sun) Independence Day and Janmashtami; 27 Aug (Wed) Ganesh Chaturthi; 15-18 Sep (Mon-Thu) Trim I mid-terms; 29 Sep Ashtami Havan; 2 Oct (Thu) Dussehra and Gandhi Jayanti; 7-11 Oct (Tue-Sat) Trim I end-terms; 11 Oct (Sat) Trim I ends; 13-27 Oct Diwali break; 29 Oct (Wed) Trim II starts; 1-3 Dec (Mon-Wed) Trim II mid-terms; 25 Dec (Thu) Christmas. 2026: 1-6 Jan (Thu-Tue) Trim II end-terms; 6 Jan (Tue) Trim II ends; 19 Jan (Mon) Trim III starts; 26 Jan (Mon) Republic Day; 19-21 Feb (Thu-Sat) Trim III mid-terms; 4 Mar (Wed) Dhuleti; 23-28 Mar (Mon-Sat) Trim III end-terms; 28 Mar (Sat) Trim III ends; then the Summer Internship; 1 Sep (Tue) Trim III end-term exam (as listed in the Trim IV calendar); 2 Sep (Wed) Trim IV starts; 4-5 Sep (Fri-Sat) Janmashtami; 2 Oct (Fri) Gandhi Jayanti; 5-6 Oct (Mon-Tue) Trim IV mid-terms; 31 Oct (Sat) Trim IV end-term; 4 Nov (Wed) Trim IV ends; 5-14 Nov (Thu-Sat) Diwali vacation; 17 Nov (Tue) Trim V starts. 2027: 15 Jan, 4th fee installment due; May 2027, programme ends. Fee due dates: 15 Jul 2025, 15 Jan 2026, 15 Jul 2026, 15 Jan 2027.

H.3 Deadlines

H.3.1 Every deadline in one table

Type: table · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL-DERIVED · **Source:** Consolidated from Parts D, F, G, I and M (official and helpdesk rules as marked)

Answers: What are all the important deadlines? | What is the deadline to appeal a grade? | By when must I submit a medical certificate? | When is the elective change deadline? | When must I clear an I grade?

What	Deadline	Section
Fee installments	15 Jul 2025, 15 Jan 2026, 15 Jul 2026, 15 Jan 2027 (official)	F.1.2
Late-fee band changes	Day 15 (INR 200/day), day 29 (INR 400/day), day 43 (exam and lecture bar) (official)	F.3.1
Need-based scholarship applications	15 June and 15 December	G.1.4
Women in Data & AI applications	4 weeks after Trimester I results	G.1.5
Grade query with the faculty	Within 4 days of receiving grades; written appeal within 1 week (official)	D.3.1
Appeal to the Programme Chair	Within 1 week of the faculty’s decision (official)	D.3.1
Re-assessment application after an F	Within 10 days of results	D.3.2
I grade, Year 1	Before the Summer Internship (official)	D.2.4
I grade, Year 2	Within the following trimester (official)	D.2.4
Medical certificate after illness	Within 3 days of returning	D.1.2
Attendance discrepancy on the portal	Within 7 days	D.4.3
Elective add or drop	End of week 1 of the trimester	D.4.1
Programme switch	Before Trimester I ends	D.4.1
SIP report	Within 2 weeks of the internship ending	I.2.1
Offer acceptance	Company / Placement Office deadline; silence counts as rejection (official)	I.3.2
Capstone report and viva	10 May 2027; 17-21 May 2027 (tentative)	H.1.6
Appeal of a grievance outcome to the Dean	Within 1 week of the outcome (official)	M.2.1
Sexual harassment complaint	Within 3 months of the incident	M.2.4

Rows marked official come from AIDTM documents. The others are helpdesk rules to be confirmed with the Program Office.

Part I — Summer Internship, Capstone and Placements

The SIP and Industrial Capstone policy, how they are evaluated, paperwork and stipends, the placement process and its rules, the placement season, and the Institute's track record.

I.0 Part I at a glance: SIP, capstone and placements

Type: overview · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL-DERIVED · **Source:** Consolidated from I.1.1 to I.3.7 (SIP & Placement Policy 2025-27 official; process steps and evaluation schemes augmented)

Answers: Tell me everything about placements | Explain the internship and placement rules | How do SIP, capstone and placements work?

Mandatory and no guarantee (official). SIP and the Industrial Capstone are compulsory for the diploma; their purpose is learning; neither guarantees a PPO or a job. SIP is typically 5 months and the capstone typically 4 months, between Year 1 and Year 2, anywhere in India.

Opportunities (official). At most five facilitated interview opportunities per student across SIP and capstone/placements; shortlisting is the recruiter's decision; after five, the Institute owes no more. Self-sourced opportunities need prior approval and written notice.

Offers (official). Accept within the stated deadline or it counts as rejection. Once accepted you must join; not joining or leaving midway disqualifies you from all further processes. A PPO must be accepted; declining bars you from the whole drive. After being placed you can sit only for roles paying at least 1.5x your CTC (INR 6 LPA allows only above INR 9 LPA), and accepting the higher offer withdraws the earlier one.

Opting out and special cases (official). Opt out by email to the Program Office and Placement Office; it is final. Adani Group employees do not join placement drives; the Institute can arrange a non-Adani SIP but does not facilitate their capstone, placement or internal job postings.

Conduct (official). Recruiters can terminate for misbehaviour, non-cooperation or non-performance, which counts as a violation and can affect graduation and placement eligibility. Formal dress with a blazer throughout the placement process.

Process and eligibility (helpdesk guidance). Sign the policy declaration; upload a CV in the Institute format for approval; attend pre-placement talks; apply within deadlines; tests and interviews count toward the five opportunities; eligibility CGPA at least 2.60, no pending F or I, 70% attendance, no disciplinary finding, no dues (exceptions with Programme Chair approval). SIP grading: mentor evaluation 30%, report 40%, presentation and viva 30%. Capstone grading: proposal 10%, mid-review 20%, mentor 20%, report 30%, presentation and viva 20%; similarity index below 15%.

Track record (website). 100% placements, highest 20 LPA, lowest 8 LPA, 90% PPOs; recruiters include Accenture, Adani, Deloitte, EY, IBM, Infosys, KPMG, PwC, Quantiphi, TCS, Tech Mahindra and Tiger Analytics.

I.1 Summer Internship and Industrial Capstone

I.1.1 SIP and Industrial Capstone: purpose and mandatory status

Type: rule · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL · **Source:** SIP, Industrial Capstone Project & Placement Policy 2025-27 §1-2; Student Handbook §5

Answers: Is the summer internship compulsory? | Does SIP guarantee a PPO or a job? | Who arranges internships?

The Summer Internship Program (SIP) and the Industrial Capstone Project are mandatory academic requirements for the PGDM diploma. Their main purpose is learning and industry exposure. Taking part does not guarantee a Pre-Placement Offer (PPO) or a final job, which depend on individual performance and company policies. The Placement Cell manages the process of finding internships. The policy applies to all BDA and AI & DS students of Batch 2025-27 and is binding once the student signs the consent declaration.

I.1.2 SIP and Capstone duration, timing and location

Type: rule · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL · **Source:** SIP Policy 2025-27 §3

Answers: How long is the summer internship? | How long is the capstone project? | When is the SIP? | Where will my internship be?

The SIP is typically 5 months and the Industrial Capstone Project typically 4 months; durations may vary with the organisation's requirements. The SIP and Capstone are scheduled between the first and second years of the programme. Locations can be anywhere in India. The older Handbook figure of a 4-month SIP is superseded by this policy.

I.1.3 SIP and capstone approach (website)

Type: profile · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL · **Source:** AIDTM website (Placement)

Answers: Why does the SIP matter for placements? | What are the steps of the capstone project?

AIDTM describes summer internships as "practical avenues of knowledge and learning" with top organisations. Final-placement interviews focus mainly on the student's internship report. Capstone projects are interdisciplinary and require skills from several subject areas. They follow four steps: choose a topic, do a literature or documentation review, formulate a thesis, and present the research. The capstone shows the student's proficiency and what they have learned over the programme.

I.1.4 Conduct during SIP and Capstone

Type: rule · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL · **Source:** SIP Policy 2025-27 §6; Student Handbook §12.4

Answers: Can a company terminate my internship? | What happens if I am terminated from my internship?

Recruiters can end an internship or placement for inappropriate behaviour, non-cooperation or continued non-performance. Such a termination is a policy violation and may affect academic completion and placement eligibility. Unethical practices during SIP or

placements are also dealt with severely under the Handbook.

I.2 Evaluation, paperwork and stipend

I.2.1 Summer Internship evaluation

Type: procedure · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** AUGMENTED · **Source:** Sample evaluation scheme built for this project; SIP credits and mandatory status are official

Answers: How is the summer internship graded? | How long should the SIP report be? | When is the SIP report due? | When are SIP presentations?

The Summer Internship Program (6 credits) is graded on: the company mentor's evaluation (30%), the final internship report of 40-60 pages following the Institute template with APA referencing (40%), and a presentation and viva before a faculty panel (30%). Students submit a fortnightly progress log to their faculty mentor. The report is due within two weeks of the internship ending, and presentations are held in the first month of Trimester IV. Plagiarism checks apply to the report. An I grade is given if the report or presentation is pending, and it becomes an F if not cleared in the following trimester.

I.2.2 Capstone Project evaluation

Type: procedure · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** AUGMENTED · **Source:** Sample evaluation scheme built for this project; the capstone's mandatory status is official

Answers: How is the capstone evaluated? | What is the capstone marks breakdown? | What similarity percentage is allowed in the capstone report?

The Industrial Capstone Project (12 credits) is graded on: the approved proposal (10%), the mid-term review (20%), the company or client mentor's evaluation (20%), the final report (30%) and the final presentation and viva (20%). The Capstone Seminar & Viva course (3 credits) is graded on the weekly seminar participation and the viva. Each student has a faculty mentor and a host-organisation mentor. The final report must pass the plagiarism check with a similarity index below 15%. Satisfactory completion of the capstone is required for the award of the PGDM (official).

I.2.3 SIP paperwork, NOC, stipend and confidentiality

Type: procedure · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** AUGMENTED · **Source:** Helpdesk policy written for this project (not issued by AIDTM); self-sourcing approval, location and termination rules from SIP Policy 2025-27 (official)

Answers: Do I get a stipend during the internship? | How do I get an NOC for my internship? | Can I find my own internship? | Who pays for travel and accommodation during SIP? | Can I use company data in my SIP report?

Before the SIP:

- Share the offer letter with the Placement Office.
- Get the NOC (issued within 3 working days, D.4.2).
- Sign the SIP undertaking.
- Note your assigned faculty mentor.
- Self-sourced internships need prior approval and formal written notice to the Institute (official, SIP Policy §4).

During the SIP:

- Submit a fortnightly progress log to your faculty mentor and attend the mid-SIP review call.
- Follow the company's working hours and leave rules.
- Institute conduct rules still apply. Termination by the company for misbehaviour, non-cooperation or non-performance is a policy violation (official, I.1.4).

Stipend:

- Decided and paid directly by the company. It is not guaranteed, and the amount varies by organisation.
- Unpaid internships are allowed when the Placement Office approves their learning value.
- A stipend does not change your fees.

Travel and stay: internships can be anywhere in India (official). Travel and accommodation are at the student's cost unless the company provides them.

Confidentiality:

- Follow the company's NDA.
- Use only masked or approved data in your report and presentation.
- Never upload company data to public AI tools (D.5.1).

After the SIP:

- Get the completion certificate and the company mentor's evaluation form.
- Submit the report within 2 weeks of finishing and present it in the first month of Trimester IV (I.2.1).

I.3 Placement rules and process

I.3.1 Interview opportunities and self-sourced internships

Type: rule · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL · **Source:** SIP Policy 2025-27 §4

Answers: How many interview opportunities do I get? | What if I don't get placed after 5 interviews? | Can I find my own job or internship?

The Institute facilitates at most five interview opportunities per student across SIP and Industrial Capstone / final placements, subject to eligibility. Shortlisting and selection are entirely the recruiter's decision. If a student has not secured a place after five interviews, the Institute is not obliged to provide more. Students may find their own SIP, Capstone or placement, but only with prior approval and formal written notice to the Institute.

I.3.2 Accepting offers, joining obligations and PPOs

Type: rule · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL · **Source:** SIP Policy 2025-27 §5

Answers: How long do I have to accept an offer? | Can I reject an offer after accepting it? | Is it compulsory to accept a PPO? | What happens if I don't join after accepting?

Offer acceptance must be communicated within the timeline set by the company and the Placement Office; silence counts as rejection. Once an offer is accepted, the student must join. Not joining, or leaving an internship midway after it starts, is a violation and disqualifies the student from all further processes. A PPO received during the SIP must be accepted, and declining it bars the student from the entire placement drive.

I.3.3 Rules after being placed: the 1.5x rule

Type: rule · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL · **Source:** SIP Policy 2025-27 §7

Answers: Can I sit for placements after I am placed? | What is the 1.5 times rule? | What is a dream offer?

Once placed, a student cannot take part in further placement drives unless the new role pays at least 1.5 times the annual CTC of the existing offer. For example, a student holding INR 6 LPA can apply only for roles paying more than INR 9 LPA. Accepting a higher offer automatically withdraws the student from the earlier accepted offer.

I.3.4 Opting out of placements

Type: rule · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL · **Source:** SIP Policy 2025-27 §8

Answers: How do I opt out of placements? | Can I come back to placements after opting out?

A student who opts out of placements must formally inform both the Program Office and the Placement Office by email. Once opted out, the student cannot take part in any future placement drive, so the decision is final.

I.3.5 Adani Group employees in the PGDM

Type: rule · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL · **Source:** SIP Policy 2025-27 §9

Answers: I am an Adani Group employee, can I sit for placements? | Will the Institute arrange SIP for Adani employees?

Adani Group employees enrolled in the PGDM do not take part in placement drives. On request the Institute will arrange a SIP with a non-Adani organisation, but doing the SIP in their own Adani Group company is preferred. The Institute does not facilitate their Capstone or placement, and does not intervene in internal job postings (IJP) or other employment processes.

I.3.6 Institute authority and the student consent declaration

Type: rule · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL · **Source:** SIP Policy 2025-27 §10-11

Answers: Do I need to sign the placement policy? | What does the placement declaration say?

AIDTM may amend or interpret the placement policy at any time and take disciplinary action for violations, and its decisions are final and binding. Each student signs a declaration with their name, enrollment number, programme and date. In it they confirm that they have understood the combined SIP, Capstone and Placement Policy, will follow its rules and timelines, and accept that violations can have academic or placement consequences.

I.3.7 Placement process, eligibility and preparation

Type: procedure · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** AUGMENTED · **Source:** Helpdesk policy written for this project (not issued by AIDTM); five-opportunity limit, offer, 1.5x and dress rules from SIP Policy and Handbook (official)

Answers: What is the placement process? | Who is eligible for placements? | What CGPA do I need for placements? | Does missing an interview count? | Is there placement training?

Process:

Step	What happens	Rule
1. Register	Sign the SIP and Placement Policy declaration	Official, I.3.6
2. CV	Upload a one-page CV in the Institute template for Placement Office approval	Helpdesk
3. Pre-placement talks	Companies present roles, CTC and process; attendance expected	Helpdesk
4. Apply	Apply within the deadline on the placement portal	Helpdesk
5. Selection	Tests, group discussions and interviews; each counts towards your five facilitated opportunities	Official limit of five, I.3.1
6. Offer	Accept within the deadline; silence counts as rejection; you must then join	Official, I.3.2

Eligibility for final placements:

- CGPA of at least 2.60.
- No pending F or I grade.
- At least 70% attendance in the current trimester.
- No disciplinary finding and no outstanding dues.

The Programme Chair can allow a student below a threshold to take part.

Conduct rules:

- Missing a confirmed interview without informing the Placement Office counts as one used opportunity.
- Wear formal dress with a blazer (official, I.4.3).

- On scheduled placement days, placement activity takes priority over classes, and attendance is adjusted.

Preparation: SIP Preparation (Trimester II) and the placement-readiness programme in Trimesters IV-V cover aptitude tests, case interviews, group-discussion practice, mock interviews with alumni and industry panels, and domain refreshers.

I.3.8 Placement season timeline for Batch 2025-27

Type: table · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** AUGMENTED · **Source:** Helpdesk policy written for this project (not issued by AIDTM); SIP duration and PPO rule from SIP Policy 2025-27 (official)

Answers: When do placements start? | When is the final placement season? | When are PPOs given? | When will I join my company?

Period	Activity
Nov 2025 to Mar 2026 (Trimesters II-III)	SIP drive: company talks, SIP interviews and offers
Apr to Aug 2026	Summer Internship (typically 5 months, official)
Aug to Sep 2026	PPO decisions by host companies; accepting a PPO is mandatory (official)
Sep to Nov 2026 (Trimester IV)	CV finalisation, placement-readiness training, mock interviews
Nov to Dec 2026 (Trimester V)	Pre-placement talks for final placements
Jan to Apr 2027	Final placement drive; the 1.5x rule applies once placed (official)
Feb to May 2027 (Trimester VI)	Capstone-linked offers
Jun to Jul 2027	Convocation and joining

All periods except the official rules noted are indicative. The Placement Office publishes exact dates each season.

I.4 Track record and preparation

I.4.1 Placement record, recruiters and roles

Type: profile · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL · **Source:** AIDTM website (Placement, programme pages)

Answers: What is the placement record of AIDTM? | What is the highest package? | What is the lowest package? | Which companies recruit from AIDTM? | What roles are offered?

As stated on the AIDTM website, with no batch specified: 100% placements, a highest CTC of 20 LPA, a lowest CTC of 8 LPA and 90% pre-placement offers. Leading recruiters listed include Accenture, Adani, ICICI, Aptus Data Labs, Bombardier, Capillary, Crayon Data, Deloitte, EY, Global Analytics, IBM, Infosys, KPMG, LinkedIn, Panasonic Life Solutions, PwC, Quantiphi, Reliance, Subex, TCS, Tech Mahindra and Tiger Analytics. Roles offered (all 13 listed on the website): Data Analyst; Data Scientist; Business Analyst; Business Consultant; Technical Support Associate; Management Trainee (Digital Transformation); Business Support Analyst; Project Management Coordinator; Executive (HR Analytics); Community Manager (Operations); Consultant (Strategy); Trainee - EA (COO's Office); AI Strategies & Analytics Manager. Past results do not guarantee future placement (see I.1.1).

I.4.2 Batch academic diversity, industries and industrial visits

Type: profile · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL · **Source:** AIDTM website (Placement)

Answers: What academic backgrounds do students come from? | Which industries hire AIDTM students? | Are there industrial visits?

Students come from varied academic backgrounds, including B.Com, BBA, BE, B.Tech, B.Sc., BCA, B.A. and B.Voc, and non-tech graduates are welcome. Graduates work across data analytics and consulting, ports and logistics, manufacturing and engineering, renewable energy and cleantech, AI and technology, healthcare, IT, financial services, FMCG and automotive. Placement interviews focus heavily on the student's SIP report, so the internship matters for final placement. Industrial visits give practical exposure to company operations, working methods and networking with senior professionals.

I.4.3 Placement dress code

Type: rule · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL · **Source:** Student Handbook Annexure XVII

Answers: What is the placement dress code? | Do I need a blazer for placements? | What is the daily dress code?

The corporate relationship cell has set a common placement dress code of formal clothes with a blazer. The blazer must be worn throughout the placement process. On regular days, semi-formal clothing suitable for an academic setting is advised, and formal dress is compulsory on designated important days.

Part J — Conduct and discipline

Academic integrity and plagiarism, phones, classroom and campus conduct, ragging, and how misconduct cases are decided and appealed.

J.0 Part J at a glance: conduct, discipline and penalties

Type: overview · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL-DERIVED · **Source:** Consolidated from J.1.1 to J.1.3 (Student Handbook §12-14, Annexures VI-VIII, XVII)

Answers: Tell me all the discipline rules | What can get me expelled? | What are the penalties for misconduct?

Academic integrity. All submitted work must be your own; collaboration only when the instructor allows it; cite every source (APA recommended); run a plagiarism checker. Plagiarism includes copying, close paraphrasing, internet text, unattributed statistics or images, a classmate's notes, and self-plagiarism. Penalties: a penalty grade from the faculty (zero to failing the course), or Disciplinary Committee action up to expulsion; mercy petition to the Dean possible.

Exams. Cheating is handled by the unfair-means procedure (E.0), with penalties up to expulsion.

Classroom and campus rules. Phones off or silent; use in or around class brings a INR 500 spot fine and confiscation (INR 2,000 / INR 5,000 to return, permanent on the third time). No canvassing for grades; proxy attendance is severely punished; mass bunking and irresponsible behaviour are dealt with severely. Keep case data confidential. Carry your ID card always; semi-formal dress, formal on designated days; no smoking or tobacco; no use of Institute telephones; keep the campus clean. Students may not run businesses, consult for pay or take honoraria during the programme, and must not deal directly with staff or contract workers (complain to the administrative head). Institute lectures are compulsory even without credit.

Ragging. Banned everywhere and a criminal offence; the Anti-Ragging Committee can file an FIR; punishments include admission cancellation, suspension, scholarship withdrawal, exam bar, withheld results, hostel expulsion, rustication, expulsion and a INR 25,000 fine, with collective punishment if offenders are not identified. The anti-ragging undertaking from student and parent is compulsory before attending classes.

How cases are decided. Faculty decide academic breaches first and may refer to the Programme Chair and then the Academic or Disciplinary Committee; non-academic cases go to the Programme Chair and serious ones to the Disciplinary Committee, whose decision is binding. A mercy appeal to the Dean is the final step. A student expelled for misconduct cannot seek re-admission.

J.1 Academic integrity

J.1.1 Academic integrity and collaboration

Type: rule · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL · **Source:** Student Handbook §12; Annexure VI

Answers: Can I work with friends on assignments? | What is academic integrity? | Do I need to cite sources?

All submitted work must be the student's own. Unless the instructor allows it, students must not collaborate on home assignments and projects. Every source of information or ideas must be acknowledged, and the unreferenced part of a submission must be the student's independent work. Discussing ideas with teachers and classmates is encouraged, but reliance on others' work must always be credited.

J.1.2 Plagiarism: types and penalties

Type: rule · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL · **Source:** Student Handbook §12.2; Annexure VI

Answers: What is plagiarism? | What is self-plagiarism? | What is the penalty for plagiarism? | Can I appeal a plagiarism penalty?

Plagiarism means using another person's ideas, processes, results or words without credit. It can be accidental, for example confusing quoting with paraphrasing, or blatant, for example submitting borrowed or bought work. Self-plagiarism, meaning resubmitting substantially the same work in two courses without permission, also counts, and students are held to the same standard whether or not they meant to plagiarise. Examples: copying text word for word, close paraphrasing, internet text, or unacknowledged statistics, figures, images or a classmate's notes. Faculty can give a penalty grade, up to failing the assignment or course. The Disciplinary Committee can impose anything from zero in the component to expulsion, and its decision is final. A student may file a mercy petition with the Dean.

J.1.3 Academic integrity: full definitions and examples of plagiarism

Type: rule · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL · **Source:** Student Handbook Annexure VI

Answers: What counts as plagiarism? | Give examples of plagiarism | What is a penalty grade?

Academic integrity means creating and expressing your own ideas, acknowledging all sources, completing work independently or acknowledging collaboration, reporting results accurately, and being honest in exams. Policy statement: all homework, projects, reports, papers, theses and exams submitted for credit must be the student's own. "Sources" includes print, online and information or opinions obtained directly from people. Submitting others' work, or work without clear attribution, can lead to disciplinary action up to a requirement to withdraw. Plagiarism (from the Latin plagiarius, "abductor") is the appropriation of another person's ideas, processes, results or words without credit. Examples include copying word for word or paraphrasing very closely, using downloaded internet text, or borrowing statistics or facts without acknowledgement. Copying figures, photos or diagrams without credit, copying a classmate's notes or essays, or copying notes that contain direct quotations also count. A faculty member may give a "penalty grade", defined as a grade assigned on a charge of academic misconduct, which can include failing the assignment or the course. Reusing coursework in another class without permission can bring an allegation of academic dishonesty.

J.1.4 Referencing style and plagiarism checking

Type: reference · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL · **Source:** Student Handbook Annexure VI

Answers: Which referencing style should I use? | Where can I check my work for plagiarism? | Which APA guides are recommended?

AIDTM encourages the APA (American Psychological Association) referencing style. Recommended guides include the Purdue OWL APA guide, the Cardiff University APA tutorial and the UW-Madison Writing Center APA documentation. Students should run a plagiarism checker before submitting any assignment or project. Free checkers suggested in the Handbook: thepensters.com free plagiarism checker, plagiarisma.net and plagscan.com.

J.2 Campus and classroom conduct

J.2.1 Mobile phone policy

Type: rule · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL · **Source:** Student Handbook §12.3; Annexure VII

Answers: Can I use my phone in class? | What happens if my phone is confiscated? | How much is the fine to get my phone back?

Mobile phones must be switched off or on silent in class, and using them in or around classrooms and the foyer is prohibited, with a spot fine of INR 500 possible. A phone that rings or is used in class may be confiscated and deposited at the Program Office. It is returned after a fine of INR 2,000 the first time or INR 5,000 the second time. On a third violation the phone is confiscated permanently and the Disciplinary Committee acts. The Institute may inspect the data on a phone confiscated during an exam. Using a phone camera on campus for any undesired purpose is prohibited.

J.2.2 Other academic norms: proxy attendance and canvassing for grades

Type: rule · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL · **Source:** Student Handbook §12.4

Answers: What happens if I mark proxy attendance? | Can I ask a teacher to increase my grade? | Is mass bunking allowed?

Canvassing for grades is prohibited. Marking proxy attendance, or having attendance marked by someone else, is severely punished. Mass abstention from classes, irresponsible behaviour, unethical practices during internships or placements, and other rule violations are dealt with severely. The confidentiality of case and business data used in teaching must be protected.

J.2.3 Non-academic misconduct

Type: rule · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL · **Source:** Student Handbook §13

Answers: Can I smoke on campus? | Can I do a part-time job or freelancing during the PGDM? | How do I complain about a staff member?

Students must behave respectfully on and off campus, and disrespect can lead to penalties from a fine up to expulsion. Smoking and chewing tobacco are prohibited on campus. Students may not run any commercial venture or advise organisations on a paid basis or receive an honorarium during their studies. They must not deal directly with Institute employees or contract workers; complaints about staff go to the relevant administrative head. Lectures organised by the Institute are compulsory, even though they carry no credit.

J.2.4 General campus rules and dress code

Type: rule · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL · **Source:** Student Handbook Annexure XVII

Answers: What are the general campus rules? | What is the dress code? | Do I need to carry my ID card all the time?

Students must carry their ID card on campus at all times and keep the campus clean. Institute telephones may not be used for any purpose. Proxy attendance, unfair exam practices and unacknowledged material invite disciplinary action. The dress code is semi-formal, with formal dress on designated days and a blazer during placements. In class, students follow each faculty member’s norms, maintain discipline and mutual respect, and come prepared with the study material.

J.3 Ragging

J.3.1 Anti-ragging rules and punishments

Type: rule · **Applies to:** All AIDTM students · **Status:** OFFICIAL · **Source:** Student Handbook §13.1; Annexure VIII

Answers: What is the punishment for ragging? | What should I do if I am ragged? | Is the anti-ragging undertaking compulsory?

Ragging in any form, anywhere, is banned and is a criminal offence. Where there is a prima facie case, the Anti-Ragging Committee acts immediately, which can include filing an FIR with the local police. Punishments include any combination of the following: cancelling admission; suspension from classes; withholding scholarships or other benefits; barring from exams; withholding results; barring from representing the institution; suspension or expulsion from the hostel; rustication; expulsion; and a fine of INR 25,000. Collective punishment may apply if the offenders cannot be identified. Every student and parent must submit an anti-ragging undertaking at the start of the session, or the student cannot attend classes.

J.3.2 Background of the anti-ragging rules and mandatory FIR

Type: rule · **Applies to:** All AIDTM students · **Status:** OFFICIAL · **Source:** Student Handbook Annexure VIII

Answers: Why are the anti-ragging rules so strict? | When must the Institute file an FIR for ragging?

AIDTM’s anti-ragging rules follow the Raghavan Committee recommendations accepted by the Supreme Court of India (SLP No. 24295/2006), which call for exemplary and justifiably harsh punishment. If the victim, their parent or guardian, or the Head of Institution is not satisfied with the institutional action in any ragging incident, the Institute must file an FIR with the local police. Failure or deliberate delay in doing so counts as culpable negligence. Ragging cases are handled on priority, and the Anti-Ragging Committee is headed by a senior faculty member. The Institute aims for a “Ragging Free AIDTM”.

J.4 How cases are decided

J.4.1 How misconduct is handled and the right to appeal

Type: procedure · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL · **Source:** Student Handbook §14

Answers: How is misconduct handled? | Who decides disciplinary action? | Can I appeal a disciplinary decision? | Can an expelled student be re-admitted?

Penalties range from a warning to expulsion depending on severity. Academic breaches are first decided by the faculty member, who may refer them to the Programme Chair and then the Academic or Disciplinary Committee. Non-academic cases go to the Programme Chair, and serious ones are referred to the Institute Disciplinary Committee, whose decision is binding and conveyed by the Programme Chair. A student may make a mercy appeal to the Dean, who decides in consultation with the instructor and the Academic Committee, and the Dean’s decision is final. A student expelled for misconduct cannot seek re-admission.

Part K — Facilities

Library, computer centre and IT, classrooms, recreation, printing, and what to do in a medical emergency.

K.0 Part K at a glance: facilities

Type: overview · **Applies to:** All AIDTM students · **Status:** OFFICIAL-DERIVED · **Source:** Consolidated from K.1.1 to K.1.2 (Student Handbook §15, Annexures IX-XII, XVIII; Late Fees Policy v02)

Answers: Tell me about all the facilities | What facilities does AIDTM have? | Where do I go in an emergency?

Library. Hours 9:30 AM-6:30 PM Monday to Friday and 9:30 AM-1:30 PM Saturday; circulation 10 AM-6 PM and 10 AM-1 PM. Free membership; KOHA system; Zotero; book bank. Borrow 3 books for 14 days, one renewal; INR 5 per day overdue (up to 60 days); reference books, CDs/DVDs, project reports, journals and magazines are not lent; report lost books at once, replace with the latest edition within 15 days plus fines; unreported after 90 days means lost and you pay the higher of MRP or 3x the price. Scan your ID at entry and exit; only notebooks and library books inside; silence, no food, no sleeping; internet for study only; photography needs permission. Assistant Librarian: Mr. Chetas Bhagat.

Computer Centre. Intel i5 Dell desktops, 100 Mbps line, Cisco network, Wi-Fi, Office 365, MSDN, Visual Studio. Entry with I-Card only, not during lectures; Program Office credentials for login and Institute credentials for internet; no pen drives or discs; no phones, food or drink; shut down properly; damage is charged. IT Officer: Mr. Jignesh Parekh.

Classrooms and recreation. Classrooms have video conferencing, flip boards, face-recognition attendance and sound systems; wear your I-Card; no food; no pen drives on flip boards; damage is recovered. The recreation facility is open outside lecture hours; sign out sports equipment and return it; water only in the sports room; switch off screens when leaving.

Stationery and printing. Not provided by the Institute.

Medical. Call 108 for an ambulance; inform Reception 079-25558180 (ext. 201) or the Program Office 9099981586. Nearby hospitals: Sanjivani (Adalaj) 9376123616; Amba Health Centre (Adalaj) 9313883377; KD Hospital 079-66770000; Civil Hospital Sola 079-27664355; Zydus 8238690695 / 8000565681; Shalby 079-40203265 / 9904422899; HCG Medi-surge 079-40010101.

K.1 Library

K.1.1 Library: overview and opening hours

Type: rule · **Applies to:** All AIDTM students · **Status:** OFFICIAL · **Source:** Student Handbook §15.1

Answers: What are the library timings? | Is the library open on Saturday? | What is KOHA? | Is library membership free?

The library has books, journals, magazines, newspapers, student reports, audiovisual and online resources on management, analytics, AI and data science. It runs on the KOHA library management system, and Zotero is available for reference management. Membership is free for enrolled students, and a book bank facility is available. Library hours are 9:30 AM to 6:30 PM Monday to Friday and 9:30 AM to 1:30 PM on Saturday. Circulation hours (issue and return) are 10:00 AM to 6:00 PM Monday to Friday and 10:00 AM to 1:00 PM on Saturday. The library and reading room cannot be used during a student's lecture hours. The Assistant Librarian is Mr. Chetas Bhagat.

K.1.2 Library collection and memberships

Type: profile · **Applies to:** All AIDTM students · **Status:** OFFICIAL · **Source:** Student Handbook §15.1

Answers: What books and journals does the library have? | Which subjects does the library cover?

The centrally located library and reading room hold books, journals, magazines, newspapers, student reports, audiovisual materials and online resources. Subjects covered: Economics, Banking and Finance, Business Management, Marketing, Python, R Programming, Machine Learning, MIS, Big Data, Data Analytics, Technology Management, and AI and Data Science. Membership is free for regular and visiting faculty, students, staff and stakeholders on enrolment. The library has organisational memberships with other academic institutions to extend access. It runs on KOHA, with Zotero available to all users.

K.1.3 Library borrowing limits and overdue fines

Type: table · **Applies to:** All AIDTM students · **Status:** OFFICIAL · **Source:** Late Fees Policy v02 §2; Student Handbook Annexure IX

Answers: How many books can I borrow? | For how many days can I borrow a book? | What is the library fine? | Can I renew a book?

All AIDTM students and employees have access to the library facilities and services. Students can borrow up to 3 books for 14 days each, with one renewal. The overdue fine is INR 5 per day per book, for up to 60 days. Books are issued only against the student's own, non-transferable ID card; proxy borrowing is not allowed, but anyone may return a book on the borrower's behalf. Reference books, CDs/DVDs and project reports are for in-library use only, and journals and magazines cannot be borrowed. The library can recall a book or shorten a loan in exceptional circumstances. Unpaid fines are adjusted from the caution deposit.

K.1.4 Lost, damaged or unreturned library books

Type: rule · **Applies to:** All AIDTM students · **Status:** OFFICIAL · **Source:** Late Fees Policy v02 §2 (prevails over Handbook Annexure IX)

Answers: What if I lose a library book? | What if I damage a library book? | When is a book treated as lost?

Report a lost or damaged book immediately, because overdue fines keep accruing until it is reported. After reporting, the borrower must replace it with the latest edition within 15 days and pay all overdue fines up to the reporting date. If a lost book is later found and returned, fines run up to the actual return date. A book neither returned nor reported within 90 days of its due date is treated as lost. The borrower then pays the higher of the latest edition's MRP or three times the original price. Fair charges for a torn or badly kept book are at the librarian's discretion.

K.1.5 Library and reading room code of conduct

Type: rule · **Applies to:** All AIDTM students · **Status:** OFFICIAL · **Source:** Student Handbook Annexure IX

Answers: What are the library rules? | Can I take my bag into the library? | Can I eat in the library?

Students must scan their ID at the entry and exit gate and produce it on demand. Only notebooks and library books are allowed inside, and bags and personal items go to the property counter; the library is not responsible for lost belongings. Students must keep silent, silence their phones, and not bring food or drinks, loiter or sleep. Leave used books on a table rather than shelving them. Internet in the library is for educational use only, photography needs authorisation, and furniture must not be rearranged. Breaking these rules can lead to suspension or cancellation of membership. Feedback can be given via the QR code at the help desk.

K.2 Computer centre and IT

K.2.1 Computer Centre facilities and rules

Type: rule · **Applies to:** All AIDTM students · **Status:** OFFICIAL · **Source:** Student Handbook §15.2; Annexure X

Answers: What computers are in the lab? | Can I use a pen drive in the lab? | How do I log in to lab computers? | What is the internet speed?

The Computer Centre has Intel Core i5 Dell desktops, a 100 Mbps leased internet line, Cisco fibre networking, Wi-Fi, Windows Server 10 Pro with Microsoft Office 365, Microsoft MSDN and Visual Studio. Entry is not allowed during lecture hours, and an I-Card is required. Students log in with credentials issued by the Program Office, and internet access works only with Institute credentials. Pen drives, CDs and DVDs may not be connected. Phones, gadgets, food and drink are not allowed. Students must shut systems down properly and pay for any damage they cause. The IT Officer is Mr. Jignesh Parekh.

K.2.2 IT accounts, Wi-Fi and acceptable use

Type: rule · **Applies to:** All AIDTM students · **Status:** AUGMENTED · **Source:** Helpdesk policy written for this project (not issued by AIDTM); credential and device rules from Student Handbook Annexure X (official)

Answers: How do I connect to campus Wi-Fi? | How many devices can I connect? | I forgot my password, what do I do? | Can I use a VPN or torrents on campus? | Is my internet use monitored?

Accounts:

- One Institute account (email, student portal, LMS and Wi-Fi) is issued at registration. Lab and internet credentials are issued by the Program Office (official).
- Passwords must be at least 10 characters, changed every 90 days and never shared. Multi-factor authentication is required for email.

Wi-Fi: sign in with your Institute credentials. Up to 2 personal devices per student (laptop and phone) can be registered.

Password reset: visit the IT Officer (Mr. Jignesh Parekh) with your ID card, or raise an “IT & Login” request. Staff never ask for your password (N.1.3).

Not allowed:

- Sharing credentials.
- Torrents and pirated software or media.
- Using VPNs or proxies to bypass Institute filters.
- Port scanning or hacking outside supervised lab exercises.
- Crypto mining.
- Accessing or sharing offensive material.
- Connecting external drives to lab machines (official).

Monitoring: network use is logged for security.

Penalties: misuse leads to suspension of access and action under J.4.1.

Software: Microsoft 365 is provided through the Institute account. Course software is listed in D.4.4.

K.3 Classrooms, recreation and printing

K.3.1 Classrooms and tutorial rooms

Type: rule · **Applies to:** All AIDTM students · **Status:** OFFICIAL · **Source:** Student Handbook §15.4; Annexure XII

Answers: What facilities are in the classrooms? | How is attendance taken? | Can I use a pen drive on the flip board?

Classrooms have video-conferencing with motion-tracking cameras, multi-touch flip boards, face-recognition (FR) attendance devices and sound systems. The I-Card is mandatory, and food and drink are not allowed. Pen drives must not be connected to flip boards, and unauthorised use of a flip board is prohibited. Damage is recovered from the students responsible.

K.3.2 Recreation facility and sports equipment

Type: rule · **Applies to:** All AIDTM students · **Status:** OFFICIAL · **Source:** Student Handbook §15.3; Annexure XI

Answers: Is there a sports room? | How do I borrow sports equipment? | When can I use the recreation facility?

The recreation facility can be used only outside lecture hours, with the I-Card worn. No food or drink is allowed, except water in the sports room. Equipment must be signed out from a staff member and returned promptly, and loss or damage may be fined. Report broken equipment immediately. Personal equipment is allowed but is at the student’s own risk. Switch off LED screens and systems when leaving. Student activities are student-led, and the Institute supports initiatives that add value.

K.3.3 Printing and stationery

Type: rule · **Applies to:** All AIDTM students · **Status:** OFFICIAL · **Source:** Student Handbook §15.5

Answers: Does the Institute provide printing? | Is stationery provided?

The Institute does not provide printing or stationery. Students must arrange these themselves.

K.4 Medical help

K.4.1 Medical emergencies and nearby hospitals

Type: reference · **Applies to:** All AIDTM students · **Status:** OFFICIAL · **Source:** Student Handbook Annexure XVIII

Answers: What do I do in a medical emergency? | What is the ambulance number? | Which hospitals are near the campus? | What is the address of the nearest hospital?

In a medical emergency, call the Emergency Ambulance Service on 108 (toll-free), which is preferred, and inform the AIDTM Reception on 079-25558180 (extension 201) or the Program Office on 9099981586. Students may go to any doctor or hospital they choose. Nearby options:

Hospital	Address	Phone	Type
Sanjivani Hospital	Opp. Post Office, Adalaj	9376123616	General hospital
Amba Health Centre and Hospital	Tri Mandir Temple Complex, Adalaj	9313883377	Multi-specialty
KD Hospital	SG Highway, Vaishnodevi Circle, Ahmedabad, Gujarat 382421	079-66770000	Multi-specialty corporate hospital
Civil Hospital, Sola	Near Gujarat High Court, SG Highway, Ahmedabad	079-27664355	Government hospital
Zydus Hospital	Near Sola Bridge, SG Highway, Ahmedabad	8238690695, 8000565681	Multi-specialty corporate hospital
Shalby Hospital	Opp. Karnavati Club, SG Highway, Ahmedabad	079-40203265, 9904422899	Multi-specialty corporate hospital
HCG Medi-surge Hospital	Opp. Lions Club Hall, near Mithakhali Circle, Navrangpura, Ahmedabad	079-40010101	Multi-specialty corporate hospital

A helpdesk chat is not an emergency channel, so call 108 or Reception in an emergency.

Part L — Hostel and campus life

Hostel rooms, fees and rules, the mess, transport, safety on campus, clubs, awards, convocation and alumni.

L.0 Part L at a glance: hostel and campus life

Type: overview · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** AUGMENTED · **Source:** Consolidated from L.1.2 to L.1.5 and O.1.1 to D.4.2, M.3.1 to M.2.4 (sample helpdesk policies; the programme being residential and hostel/mess being outside the fee are official)

Answers: Tell me everything about the hostel | Explain hostel, mess and transport | What is campus life like?

Hostel. Twin-sharing AC INR 1,50,000 a year; triple-sharing non-AC INR 1,00,000; refundable hostel deposit INR 10,000; paid in two installments with tuition (15 July and 15 January), late-fee slabs apply. Charges cover room, electricity, water, housekeeping, Wi-Fi and laundry pick-up. In-time 10:30 PM with biometric entry; overnight leave via the warden's register; visitors only in the common area 10 AM-7 PM; no smoking, alcohol, drugs, cooking appliances or pets; one room change a year; damage charged to the room's residents; ragging leads to hostel expulsion.

Mess. INR 60,000 a year (INR 5,000 a month); breakfast 7:30-9:00, lunch 12:30-2:00, tea 5:00-5:30, dinner 7:30-9:00; vegetarian with egg at breakfast; compulsory for residents; day scholars can buy a INR 4,000 monthly card; refunds only for approved absences of 15 days or more.

Transport and parking. Shuttle from Ahmedabad and Gandhinagar pick-up points INR 24,000 a year, leaving 8:15 AM and returning 6:00 PM, half day on Saturday; free parking with a vehicle pass.

Admissions and registration. Graduation with 50% (45% reserved categories) and a valid CAT/XAT/MAT/CMAT/ATMA/GMAT score; interview and written test; seat confirmed with the INR 2,00,000 registration fee. Submit mark sheets, degree, scorecard, photo ID, photographs, category and medical certificates, the placement policy declaration and the anti-ragging undertaking.

ID, email, portal and classes. Enrollment number, ID card and Institute email at registration (duplicate ID INR 500); the portal shows timetable, attendance, grades, fees and requests; classes 9:30 AM-5:30 PM Monday to Friday in four 90-minute sessions with Saturday mornings for visiting faculty and labs; a laptop with i5, 16 GB RAM and 512 GB SSD is required.

Services. Group medical insurance of INR 2,00,000 a year; a weekly visiting counsellor booked confidentially via the Program Office; clubs (Placement Committee, Analytics & AI Club, Cultural, Sports, Alumni Cell); convocation tentatively June 2027 with provisional certificates two weeks after results; sexual-harassment complaints to the WGRC within three months, acknowledged in 7 days, inquiry within 90 days.

L.1 Hostel, mess and transport

L.1.1 Hostel, accommodation and mess

Type: rule · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL · **Source:** Admission Offer Annexure II; Student Handbook Annexure III

Answers: Is the PGDM residential? | Is hostel included in the programme fee? | Whom do I contact about the hostel?

The PGDM is described as a fully residential programme. Accommodation and mess charges are not included in the programme fee and are billed separately. AIDTM's official hostel and mess tariff was not provided; sample hostel fees, mess charges and hostel rules built for this project are in L.1.2 to L.1.5. For official figures, contact the Program Office or Operations (Head - Operations: Mr. Ritesh Soni).

L.1.2 Hostel rooms, fees and what is included

Type: table · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** AUGMENTED · **Source:** Helpdesk policy written for this project (not issued by AIDTM) (official AIDTM hostel tariff not provided; hostel is outside the programme fee per Admission Offer Annexure II)

Answers: How much is the hostel fee? | What types of hostel rooms are there? | What is included in the hostel fee? | Is there a hostel deposit? | Do I pay hostel fees during the internship?

Room type	Fee per academic year (INR)	Payment
Twin-sharing, air-conditioned	1,50,000	Two equal installments, due 15 July and 15 January, with tuition
Triple-sharing, non-AC	1,00,000	Same as above
Hostel caution deposit	10,000, paid once and refundable	With the first hostel payment

Included: furnished room (bed, mattress, study table, chair, wardrobe), electricity, water, housekeeping of common areas, Wi-Fi, and laundry pick-up twice a week. Laundry charges are extra.

Not included: mess charges (L.1.4) and personal items.

Late payment: the Late Fees Policy slabs (F.3.1) also apply to hostel installments.

SIP period: rooms are vacated before the Summer Internship. Hostel fees are not charged for the SIP months, and a storage room is available for belongings.

Leaving mid-year: the current half-year's fee is not refundable, and the next half-year is not charged. The deposit is refunded after the room inspection, less any damage.

Allotment: by the Operations team at registration. Requests (for example a roommate preference) are considered but not guaranteed.

L.1.3 Hostel rules

Type: rule · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** AUGMENTED · **Source:** Helpdesk policy written for this project (not issued by AIDTM); ragging rules official (Student Handbook Annexure VIII)

Answers: What time must I be back in the hostel? | Can I stay out overnight? | Are visitors allowed in the hostel? | Can I cook in my room? | Can I change my

hostel room?

Area	Rule
In-time	10:30 PM Monday to Friday, 11:00 PM on Saturday and Sunday; biometric entry records it
Late entry	Recorded in the late register; three late entries in a month lead to a meeting with the warden and parents being informed
Night out or leave	Prior approval from the warden through the leave register; the Program Office is told about absences beyond two nights
Visitors	Common area only, 10 AM to 7 PM, with ID; no visitor in rooms; overnight guests not allowed
Quiet hours	11 PM to 6 AM
Prohibited	Smoking, alcohol, drugs, cooking appliances, heaters, pets, weapons
Rooms	Kept clean; monthly inspection; one room change per year with the warden's approval
Electrical safety	Switch off lights, AC and devices when leaving; no overloading of sockets
Damage	Recovered from the residents of the room, or from all residents of the floor if the person responsible is not identified
Ragging	Banned; punishments include suspension or expulsion from the hostel (official, J.3.1)

Serious breaches go to the Disciplinary Committee (J.4.1). The warden can be contacted through Operations (Head - Operations: Mr. Ritesh Soni).

L.1.4 Mess: meals, charges and refunds

Type: table · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** AUGMENTED · **Source:** Helpdesk policy written for this project (not issued by AIDTM)

Answers: How much is the mess fee? | What are the mess timings? | Is the mess vegetarian? | Is Jain food available? | Can I get a mess refund when I am away?

Charges:

- Hostel residents: INR 60,000 per academic year (INR 5,000 per month), paid with the hostel installments. Mess is compulsory for residents.
- Day scholars: optional monthly card of INR 4,000.
- Guest meals: INR 100 per meal, booked a day ahead.

Meal	Time
Breakfast	7:30 AM to 9:00 AM
Lunch	12:30 PM to 2:00 PM
Evening tea	5:00 PM to 5:30 PM
Dinner	7:30 PM to 9:00 PM

Menu: vegetarian, with an egg option at breakfast, on a weekly rotation set by the student mess committee. Jain food and a light "sick diet" are available on request, a day in advance.

Refunds: given only for approved absences of 15 or more consecutive days (for example SIP or long medical leave), pro-rated per day.

Feedback: hygiene and quality feedback through the mess committee, or a "Hostel & Facilities" support request.

L.1.5 Campus transport and parking

Type: rule · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** AUGMENTED · **Source:** Sample policy built for this project

Answers: Is there a college bus? | How much is the transport fee? | What are the shuttle timings? | Is parking available?

Day scholars can use the Institute shuttle from designated pick-up points in Ahmedabad and Gandhinagar for INR 24,000 per academic year, paid in two installments with tuition. Shuttles leave at 8:15 AM and return at 6:00 PM, with a Saturday half-day service. Two-wheeler and car parking is free in the marked area with a vehicle pass issued by Operations; vehicles are parked at the owner's risk.

L.2 Campus life

L.2.1 Clubs, committees and student activities

Type: profile · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** AUGMENTED · **Source:** Helpdesk policy written for this project (not issued by AIDTM); student-driven activities and awards are official (Student Handbook §15.3, §16.6)

Answers: What clubs are there at AIDTM? | How do I join a club? | Can I start a new club? | Is there a placement committee?

Student activities are student-driven, and the Institute supports initiatives that add value (official, Student Handbook §15.3).

Body	What it does
Student Placement Committee	Assists the Placement Office with company coordination, pre-placement talks and logistics
Analytics & AI Club	Hackathons, Kaggle sessions, paper-reading groups, tool workshops, guest talks
Cultural Committee	Festivals, the annual cultural evening, celebrations such as Ganesh Chaturthi and Diwali
Sports Committee	Intra-college tournaments, sports equipment management (K.3.2), inter-college participation
Mess Committee	Menu planning and food-quality feedback (L.1.4)
Alumni Relations Cell	Alumni talks, mentoring and the alumni network (L.2.4)

Joining: each body recruits in the first month of Trimester I and again in Trimester IV.

Starting a new club: at least 5 members, a faculty advisor and a one-page proposal to the Program Office.

Events and budgets: events need approval at least 7 days in advance, and budgets go through the Program Office.

Recognition: participation counts towards the Annual Academic Awards (L.2.3).

L.2.2 Campus safety, security and visitors

Type: rule · **Applies to:** All AIDTM students · **Status:** AUGMENTED · **Source:** Helpdesk policy written for this project (not issued by AIDTM); ID and CCTV facts from Student Handbook (official)

Answers: Is the campus safe? | What are the emergency numbers? | Can my family visit me on campus? | Where is lost and found? | Who do I contact for women's safety?

Security:

- The main gate is staffed 24x7, and an ID card is needed for entry (official: carry your ID at all times).
- Academic areas have HD CCTV (official).

Visitors: register at the gate with photo ID. Visitors may meet students in the reception and common areas.

Lost and found: at Reception (079-25558180). Report a lost ID card at once (D.4.2).

Fire safety: extinguishers on every floor; evacuation drills twice a year; do not block corridors.

Emergency	Number
All emergencies (national)	112
Ambulance	108
Police	100
Fire	101
Women's helpline (national)	181
AIDTM Reception	079-25558180
Program Office	9099981586

Harassment: report it to the Women Grievance Redressal Committee (M.2.4) or any committee member.

Ragging: report it to the Anti-Ragging Committee (J.3.1).

Late-night travel: inform your warden or a friend of your plans and use registered cabs.

L.2.3 Annual Academic Awards

Type: rule · **Applies to:** All AIDTM students · **Status:** OFFICIAL · **Source:** Student Handbook §16.6

Answers: Are there any academic awards? | How are students recognised?

AIDTM holds an annual Academic Award Function to honour students for strong performance in academics, sports, cultural and other institutional activities.

L.2.4 Convocation and alumni

Type: rule · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** AUGMENTED · **Source:** Sample policy built for this project; award criteria are official (Handbook §11)

Answers: When is the convocation? | When will I get my diploma? | What alumni benefits are there?

Convocation for Batch 2025-27 is tentatively planned for June 2027. Students who meet the award criteria (CGPA 2.17 or above, no F or I, no dues, capstone complete) receive the PGDM and the AIHER Diploma in Strategic Management. Provisional certificates are issued within two weeks of results, and the final diploma at convocation. Graduates join the AIDTM alumni network, receive an alumni email and card, and can use the library and attend placement talks as alumni. Alumni are invited to mentor current students and recruit from campus.

Part M — Student support and grievances

Raising and tracking support requests, escalation, the formal grievance process, committees, sexual-harassment complaints, and wellbeing and insurance.

M.0 Part M at a glance: support, grievances and privacy

Type: overview · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL-DERIVED · **Source:** Consolidated from M.2.1 to L.2.3 (official) and M.1.1 to M.1.3, N.1.1 to N.1.5 (helpdesk policies)

Answers: How do I get help? | Explain the support and grievance process | What can the helpdesk do for me?

Raising a request (helpdesk). Sign in and raise a support request in one of these categories: Fees & Payments (Accounts); Scholarships; Academics, Grades & Attendance; Examinations; Course Change; Certificates & Documents; IT & Login; Library; SIP & Placements; Hostel & Facilities; General Grievance. Each gets an ID like SR-2026-0001. Urgent requests are acknowledged within 4 working hours, High within 1 working day, Normal within 3 working days and resolved within 7. Statuses: Open, In Progress, Awaiting Student, Pending Approval, Resolved, Closed, Escalated. Ragging and harassment complaints go directly to the committees; medical emergencies are never tickets (call 108).

Escalation and formal grievance (official timelines). Escalate to the department head, then the Programme Chair, then the Student Grievance Redressal Committee: the Chairperson puts the case to the Committee within 15 days, the decision is communicated within 7 days, an appeal to the Dean is possible within one week, and the Dean decides within 15 days. Committee members are listed in M.2.2; the Dean chairs the SGRC/WGRC and Anti-Ragging Committees.

Privacy (helpdesk). You can see only your own record (fees, scholarship, grades, attendance, requests, contact details). The helpdesk will not disclose another student's data to anyone, including classmates, the CR or someone claiming to be a parent; parents get information only through the registered contact with your written consent. Every access and change is logged with who, when, what, the decision and the result, and you can ask for the log of your own record.

Sensitive changes need approval (helpdesk). Changing your registered mobile, email or address, your refund bank account, a name or date-of-birth correction, a programme switch, withdrawing a scholarship application, or opting out of placements (which is final) is executed only after identity verification and approval by the Program Office; a rejected request changes nothing.

Secrets. Staff and the helpdesk never ask for OTPs, passwords, PINs, CVVs or full card or account numbers; never type them in chat; if shared by mistake they are not stored, and you should change the password and contact the IT Officer. The helpdesk remembers only durable, non-sensitive preferences, and you can ask it to forget them.

M.1 The student helpdesk

M.1.1 Support requests: categories, who handles them and examples

Type: table · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** AUGMENTED · **Source:** Helpdesk policy written for this project (not issued by AIDTM)

Answers: How do I raise a support request or ticket? | Which category should I choose? | Who handles my request? | Can I raise a ticket for hostel or Wi-Fi problems?

Sign in to the student helpdesk, describe the issue, and the request is created with an ID such as SR-2026-0101. You can also raise one in chat ("raise a ticket: …").

Category	Handled by	Typical examples
Fees & Payments	Accounts	Payment failed, receipt missing, fee demand letter
Scholarships	Program Office with Accounts	Application, missing document, status query
Academics, Grades & Attendance	Program Office	Attendance discrepancy, grade query, I grade
Examinations	Program Office	Hall ticket, exam clash, seating
Course Change	Program Office / Academic Committee	Elective add or drop, programme switch
Certificates & Documents	Program Office / Placement Office	Bonafide, transcript, NOC
IT & Login	IT Officer	Password reset, Wi-Fi, LMS access
Library	Assistant Librarian	Fine query, lost book
SIP & Placements	Placement Office	SIP approval, offer letter, placement eligibility
Hostel & Facilities	Operations	Room repair, mess, AC, water
General Grievance	Student Grievance Redressal Committee	Anything unresolved or unfair treatment

Not handled through tickets:

- Ragging: contact the Anti-Ragging Committee directly (J.3.1).
- Sexual harassment: contact the WGRC directly (M.2.4).
- Medical emergency: call 108 (K.4.1).

M.1.2 Support request priority, response times and status

Type: table · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** AUGMENTED · **Source:** Sample helpdesk procedure written for this project

Answers: How long will my ticket take? | What do the ticket statuses mean? | What are the helpdesk working hours?

Priority and target times: Urgent (safety, or an issue on the day of an exam) is acknowledged within 4 working hours. High (a

payment failure near a due date, or a deadline within 3 days) is acknowledged within 1 working day. Normal requests are acknowledged within 3 working days and resolved within 7 working days. Working hours are 9:30 AM to 6:00 PM Monday to Friday and 9:30 AM to 1:30 PM Saturday, excluding Institute holidays. Statuses: Open, In Progress, Awaiting Student, Pending Approval, Resolved, Closed, Escalated. A student can view and update only their own requests.

M.1.3 Escalating an unresolved request

Type: procedure · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** AUGMENTED · **Source:** Helpdesk policy written for this project (not issued by AIDTM); levels 3-4 follow the official grievance process (Student Handbook §16)

Answers: My ticket is not resolved, what can I do? | How do I escalate a complaint? | Whom do I escalate to after the Programme Chair?

Level	When to use it	Whom	Expected response
1	Request past its target time (M.1.2)	Reply on the ticket; it is marked Escalated and goes to the head of the office concerned	2 working days
2	Still unresolved, or you disagree with the outcome	Programme Chair (Dr. Ankit Shah) by email	5 working days
3	Unresolved after level 2, or a matter of unfair treatment	Formal grievance to the Chairperson of the Student Grievance Redressal Committee (M.2.1)	Official timelines: committee within 15 days, decision communicated within 7 days
4	Not satisfied with the committee's action	Written appeal to the Dean within one week	Dean's decision within 15 days; final

Keep the ticket ID and any emails, and attach them at each level.

M.2 Grievances and committees

M.2.1 Formal grievance redressal process and timelines

Type: procedure · **Applies to:** All AIDTM students · **Status:** OFFICIAL · **Source:** Student Handbook §16, §16.4

Answers: How do I file a formal grievance? | How long does the grievance committee take? | Can I appeal to the Dean?

A student can approach any faculty member, the Program Office, the Programme Chair or the Dean informally. The formal process works as follows. (1) Call or write to the Chairperson of the Student Grievance Committee. (2) The Chairperson investigates and puts the case to the Committee within 15 days. (3) The decision is communicated to the student within 7 days of the Committee's decision. (4) If unsatisfied, the student may write to the Dean within one week of being told the outcome. (5) The Dean hears all parties and communicates a final decision within 15 days of the appeal.

M.2.2 Committees and their members

Type: reference · **Applies to:** All AIDTM students · **Status:** OFFICIAL · **Source:** Student Handbook Annexures XIII-XVI

Answers: Who is on the grievance committee? | Who are the anti-ragging committee members? | Who chairs the discipline committee?

Academic Committee: Dr. Rama Moondra (Chair), Dr. Ankit Shah, Dr. Bhavesh Dharmani, Mr. Ritesh Soni, Mr. Vyankatesh Emche. Discipline Committee: Dr. Ankit Shah (Chair), Dr. Rama Moondra, Dr. Roshni Rawal, Mr. Vyankatesh Emche, Mr. Jay Joshi, Mr. Bhavesh Panchal. Anti-Ragging Committee: Dr. Rama Moondra (Chair), Dr. Ankit Shah, Dr. Roshni Rawal, Mr. Ritesh Soni, Ms. Anshita Mulchandani, Mr. Hiren Vinzuda. Student Grievance Redressal Committee / Women Grievance Redressal Committee: Dr. Rama Moondra (Chair), Dr. Ankit Shah, Dr. Roshni Rawal, Mr. Jay Joshi, Ms. Anshita Mulchandani, Mr. Ritesh Soni.

M.2.3 Roles of the Academic, Disciplinary, SGRC and WGRC committees

Type: rule · **Applies to:** All AIDTM students · **Status:** OFFICIAL · **Source:** Student Handbook §16.1-16.5; Annexure XVI

Answers: What does the academic committee do? | What does the WGRC do? | What is the SGRC?

The Academic Committee decides academic matters. These include eligibility for re-assessment of failed subjects, with one-on-one interactions with applicants, and improving attendance. The Disciplinary Committee decides non-academic misconduct and general discipline. The SGRC, formed under the AICTE regulations of 2012, handles personal grievances of students and parents. The WGRC handles complaints of sexual harassment from women students and staff. It examines and investigates complaints, counsels the person concerned and recommends action to the authorities, meeting twice a year and whenever needed. The Anti-Ragging Committee, formed under a Supreme Court directive, acts on ragging complaints; according to the Handbook, no ragging complaint has been received by the committee so far, and students can contact any committee member if an incident occurs.

M.2.4 Prevention of sexual harassment: how to complain

Type: procedure · **Applies to:** All AIDTM students · **Status:** AUGMENTED · **Source:** WGRC role and members are official (Handbook §16.5, Annexure XVI); complaint timelines built for this project in line with the POSH Act 2013

Answers: How do I report sexual harassment? | Is my complaint confidential? | How long does a harassment inquiry take?

Complaints of sexual harassment are handled by the Women Grievance Redressal Committee, chaired by Dr. Rama Moondra (official). A complaint can be made in writing or by email to the Chairperson or any member within three months of the incident (extendable for valid reasons). The Committee acknowledges the complaint within 7 days, keeps the identity of the complainant confidential, may provide interim measures such as a change of batch or hostel room, completes the inquiry within 90 days, and recommends action to the Dean. Retaliation against a complainant or witness is itself misconduct. The committee meets twice a year and whenever needed (official).

M.3 Wellbeing

M.3.1 Medical insurance, counselling and mental-health support

Type: rule · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** AUGMENTED · **Source:** Helpdesk policy written for this project (not issued by AIDTM); emergency contacts from Student Handbook Annexure XVIII (official)

Answers: Do students have health insurance? | How do I claim medical insurance? | Is there a counsellor on campus? | Is counselling confidential? | Is there a mental health helpline?

Group medical insurance:

- Every PGDM student is covered for hospitalisation up to INR 2,00,000 per policy year. The premium is included in the registration fee.
- Cashless treatment at network hospitals, using the insurance card issued at registration. For other hospitals, pay and claim reimbursement.
- To claim, submit the original bills, discharge summary, prescriptions and reports to the Program Office within 15 days of discharge.
- Outpatient visits, cosmetic treatment and pre-existing conditions in the first year are generally excluded, as in standard group policies. Check the policy document.

Counselling:

- A visiting counsellor is on campus one afternoon a week.
- Book through the Program Office or by email. Sessions are free and confidential: nothing is shared without your consent, except where there is a risk to life.
- Faculty mentors and the Programme Chair are also available for academic stress.

If you are in distress:

- Speak to someone you trust, or call Tele-MANAS, the national mental-health helpline: 14416 (free, 24x7).
- In an emergency, call 112 or 108.

The Institute’s medical contacts and nearby hospitals are listed in K.4.1.

Part N — Privacy, identity and data protection

Who can see your data, which changes need approval, why secrets are never asked for or stored, what the helpdesk remembers, and the audit trail.

N.0 Part N at a glance: your data and the helpdesk

Type: overview · **Applies to:** All AIDTM students · **Status:** AUGMENTED · **Source:** Helpdesk policy written for this project (not issued by AIDTM)
Answers: How is my data protected? | Can other students see my data? | What does the helpdesk do with my information?

The five privacy rules of the student helpdesk:

1. You see only your own record (N.1.1).
2. Sensitive changes need human approval (N.1.2).
3. Secrets such as OTPs and passwords are never asked for or stored (N.1.3).
4. Only durable, non-sensitive preferences are remembered (N.1.4).
5. Every access and change is audited (N.1.5).

These rules are enforced in the helpdesk software itself, not only in its instructions. They follow the principles of India's Digital Personal Data Protection Act, 2023: purpose limitation, data minimisation and accountability.

N.1 Privacy rules

N.1.1 Who can see a student's record

Type: rule · **Applies to:** All AIDTM students · **Status:** AUGMENTED · **Source:** Helpdesk policy written for this project (not issued by AIDTM)
Answers: Can I see another student's fees or grades? | Can my parents get my information? | Can a classmate or CR see my record? | Who at the Institute can see my data?

Your private record: fees and dues, scholarship, grades and CGPA, attendance, disciplinary matters, support requests, contact details and bank details.

Who	What they can see
You (signed in)	Your entire record
Another student, the Class Representative or a friend	Nothing, even if they know your name or enrollment number
Parent or guardian	Information only through the contact registered with the Institute, and only with your written consent
Faculty	Grades and attendance for their own courses
Program Office	Academic records, requests and contact details
Accounts	Fee and scholarship records
Placement Office	Profile, CGPA and placement records for placement purposes
Employers, banks and universities	Verification only with your written consent

The helpdesk refuses any request for another student's private data, however it is worded, and records the attempt (N.1.5).

Public information is available to everyone: policies, calendars, programme details and committee members.

N.1.2 Sensitive changes need verification and approval

Type: table · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** AUGMENTED · **Source:** Helpdesk policy written for this project (not issued by AIDTM); placement opt-out rule from SIP Policy §8 (official)
Answers: How do I change my phone number or email? | How do I change my bank account for refunds? | Why does my change need approval? | What happens if my change request is rejected? | How long does approval take?

Change	Verification	Approved by	Usual time
Registered mobile, email or address	Signed-in identity, plus confirmation of the exact new value	Program Office	2 working days
Refund bank account (bank name and last 4 digits only in chat)	Cancelled cheque or bank letter submitted to Accounts	Accounts / Program Office	3 working days
Name or date-of-birth correction	Original certificate (10th/12th or passport)	Program Office	5 working days
Programme switch	Written application (D.4.1)	Academic Committee	Next committee meeting
Withdrawing a scholarship application	Signed-in identity	Program Office	2 working days
Opting out of placements	Email to the Program Office and the Placement Office (official)	Program Office	Final once approved

How it works:

1. You ask for the change and confirm the exact new value.
2. A request is filed with status **Pending Approval**. Nothing changes yet.
3. An authorised officer approves or rejects it.

4. Only an approved change is applied. A rejected one is never applied, and your record stays as it was.

You are told the outcome either way. Every step is written to the audit log (N.1.5).

N.1.3 OTPs, passwords and other secrets

Type: rule · **Applies to:** All AIDTM students · **Status:** AUGMENTED · **Source:** Sample security policy for this project; credential rules from Handbook Annexure X

Answers: Will the helpdesk ask for my OTP or password? | I shared my password by mistake, what now? | How do I reset my portal password?

AIDTM staff and the student helpdesk will never ask for a password, OTP, PIN, CVV or full card number. Never type these into chat, email or forms. If shared by mistake, they are not stored or used, and the student should change the password immediately. Lab and internet credentials are issued by the Program Office and the IT Officer. For a password reset, contact the IT Officer (Mr. Jignesh Parekh) in person with your I-Card, or raise an “IT & Login” request. Report any message pretending to be AIDTM that asks for credentials.

N.1.4 What the helpdesk remembers about a student

Type: rule · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** AUGMENTED · **Source:** Sample data-handling policy for this project

Answers: What does the helpdesk remember about me? | Can I make the helpdesk forget my data? | Does the helpdesk store my OTP?

To give continuity, the helpdesk may remember stable, useful facts a student shares, such as their programme and batch or a preferred language or contact method. It does not keep passwords, OTPs or other credentials, payment card details, health information, or temporary remarks. A student can ask the helpdesk to forget stored preferences. Official records, such as fees and grades, are held by the Institute’s systems rather than the helpdesk’s memory.

N.1.5 Audit trail of record access and changes

Type: rule · **Applies to:** All AIDTM students · **Status:** AUGMENTED · **Source:** Sample data-privacy policy written for this project

Answers: Is there a log of who accessed my data? | Can I see the audit log of my record?

Every access to a private record and every attempted change is logged. The log records who made the request, the time, what was attempted, whether it was allowed or blocked, the approval decision for sensitive changes, and the final result. Audit records are kept by the Institute for review in disputes and compliance checks. A student may ask the Program Office for the log of changes to their own record.

Part O — Admissions and joining

Eligibility and selection, documents at registration, your enrollment number, ID card and email, and the bridge course.

O.1 Admissions and joining

O.1.1 Admission eligibility, selection and seat confirmation

Type: procedure · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** AUGMENTED · **Source:** Helpdesk policy written for this project (not issued by AIDTM); registration fee, intake and contacts official (Admission Offer Annexure II, AIDTM website)

Answers: What is the eligibility for PGDM at AIDTM? | Which entrance exams are accepted? | How are students selected? | How do I confirm my seat? | Who do I contact for admissions?

Eligibility:

- A bachelor's degree in any discipline with at least 50% aggregate (45% for reserved categories, as per AICTE).
- A valid score in CAT, XAT, MAT, CMAT, ATMA or GMAT.
- Final-year students may apply provisionally and must submit their degree results by the date in the offer letter.

Selection:

Component	Weight
Entrance test percentile	40%
Academic record (10th, 12th, graduation)	20%
Written ability test	10%
Personal interview	20%
Work experience and diversity of background	10%

The written test and interview are held on campus or online.

Offer and confirmation:

- Selected candidates receive an admission offer with the fee structure (Annexure II, F.1.2).
- The seat is confirmed by paying the registration fee of INR 2,00,000 (official).
- The 1st installment, with the INR 50,000 caution deposit, is due by 15 July (official).

Intake: BDA 90 seats, AI & DS 60 seats (official).

Contact: admissions@aidtm.ac.in, +91 63589 75222, Admission Manager Mr. Haard Trivedi, Senior Admission Counsellors Ms. Raksha Desai and Mr. Aditya Thakare.

O.1.2 Documents required at admission and registration

Type: rule · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** AUGMENTED · **Source:** Sample list built for this project; the anti-ragging undertaking is official (Handbook Annexure VIII)

Answers: What documents are needed at admission? | Is the anti-ragging undertaking compulsory? | Do I need a medical certificate?

At registration, students submit: 10th and 12th mark sheets, graduation mark sheets and degree or provisional certificate, entrance test scorecard, photo ID (Aadhaar or passport), passport-size photographs, caste or category certificate if applicable, a medical fitness certificate, a migration or transfer certificate where issued, the signed SIP and Placement Policy declaration, and the anti-ragging undertaking signed by the student and parent (compulsory before attending classes). Originals are verified and returned.

O.1.3 Enrollment number, ID card and student email

Type: rule · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** AUGMENTED · **Source:** Sample procedure built for this project; ID card rules are official (Handbook)

Answers: What is my enrollment number? | What if I lose my ID card? | What is my student email used for?

Each student receives an enrollment number, an Institute ID card and an Institute email account at registration. The ID card must be carried at all times on campus and in exams. A lost or damaged ID card is replaced within 3 working days on payment of INR 500 through an "IT & Login" or "Certificates & Documents" request. Official communication goes to the Institute email, which students must check daily. The same credentials are used for the student portal, the LMS and campus Wi-Fi.

O.1.4 Bridge course before Trimester I

Type: rule · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** AUGMENTED · **Source:** Dates from Student Handbook Annexure II (official); content and rules are a helpdesk description

Answers: What is the bridge course? | When is the bridge course? | Is the bridge course compulsory? | What is taught in the bridge course?

Dates (official): 17 July 2025 (Thursday) to 31 July 2025 (Thursday), just before Trimester I began on 1 August 2025.

Purpose: to bring students from different academic backgrounds (B.Com, BBA, BE, B.Tech, B.Sc., BCA, B.A., B.Voc) to a common starting level.

Content:

- Python and programming basics.
- Excel for analysis.
- Statistics and mathematics refresher (algebra, probability, basic calculus for ML).
- Business fundamentals.
- Communication.

Attendance and assessment: attendance is compulsory and recorded as part of induction. There are no credits or grades, but a diagnostic test at the end helps faculty plan extra support sessions in Trimester I.

Part X — Appendices

Quick-reference numbers, a glossary of abbreviations, and (in the PDF) an index of every question this handbook answers.

X.1 Reference tables

X.1.1 Key numbers quick-reference

Type: reference · **Applies to:** PGDM-BDA, PGDM-AIDS · **Status:** OFFICIAL-DERIVED · **Source:** Derived from all official documents

Answers: Give me the key numbers | What are the important limits and numbers to remember? | Quick facts about rules

Attendance: 100% expected; at most 30% absence with permission; 70% minimum to sit end-terms. Grades: A 3.55-4.33, B 2.55-3.54, C 1.55-2.54, D 0.55-1.54, F below 0.55; maximum CGPA 4.33. To graduate: CGPA of at least 2.17, no F or I, no dues, within at most 4 years. Percentage classes: 3.04 or above = 70%+, 2.60 or above = 60%+, 2.17 or above = 50%+. Credits: 1 credit = 10 contact hours; a 3-credit course is about 100 hours of effort. Grade dispute: within 4 days with the faculty, then 2 days to the Dean (Handbook §10.3.1). Annexure V appeal: 1 week to the faculty, 1 week for the reply, 1 week to the Programme Chair, Academic Committee within 15 days, decision communicated in 2 days. Grievance: 15 days to Committee, 7 days to communicate, 1 week to appeal to the Dean, 15 days for the Dean’s decision. Fees: INR 10,00,000 tuition, 5 payments of INR 2,00,000, INR 50,000 caution deposit. Late fee: INR 100/200/400 per day for up to 2, 2-4 and 4-6 weeks; 6 weeks maximum; then INR 2,000 per day, capped at 100% of fees. Library: 3 books, 14 days, 1 renewal, INR 5 per day up to 60 days; replace a lost book within 15 days; treated as lost after 90 days. Fines: mobile INR 500 spot, INR 2,000 / 5,000 for return; I-Card INR 100; hall ticket INR 100; ragging INR 25,000. Exams: 15 minutes before (AI & DS) or 10 minutes (Handbook); no leaving before 30 minutes or in the last 5 (AI & DS) or 15 (Handbook) minutes. Placements: at most 5 interviews; 1.5x CTC rule; SIP about 5 months, capstone about 4 months. Intake: BDA 90, AI & DS 60. Placement stats: 100% placed, 20 LPA highest, 8 LPA lowest, 90% PPOs.

X.1.2 Glossary of abbreviations and terms

Type: reference · **Applies to:** All · **Status:** OFFICIAL-DERIVED · **Source:** Terms used across AIDTM documents and this handbook

Answers: What does SIP mean? | What is PPO? | What is CTC or LPA? | What does UFM stand for? | What is SGRC or WGRC? | What is an I grade? | What is AICTE?

Term	Meaning
AICTE	All India Council for Technical Education; approves AIDTM’s PGDM programmes
AIDTM	Adani Institute of Digital Technology Management
AIHER	Adani Institute of Higher Education and Research, which awards the Diploma in Strategic Management
AI & DS / AIDS	PGDM in Artificial Intelligence & Data Science
BDA	PGDM in Big Data Analytics
CGPA / GPA	Cumulative / trimester grade point average (maximum 4.33)
CP	Class participation
CR	Class Representative
CTC / LPA	Cost to company (annual salary package) / lakhs per annum
EPAAA	Executive Program in AI, Analytics & Automation
I grade	Incomplete; a temporary grade that becomes F if not cleared
I-Card	Institute identity card
IJP	Internal job posting (Adani Group)
KOHA	The library management system
NOC	No-objection certificate
PGDM	Post Graduate Diploma in Management
POSH	Prevention of sexual harassment
PPO	Pre-placement offer, made by the SIP company
SGRC	Students Grievance Redressal Committee
SIP	Summer Internship Program
SR	Support request (ticket), e.g. SR-2026-0101
UFM	Unfair means, i.e. cheating in an examination
UTR	Unique transaction reference of a bank transfer
VF	Visiting faculty
WGRC	Women Grievance Redressal Committee
Trimester / term	One of six academic periods; students often say semester

Index of questions

Every question this handbook is designed to answer, with the entry that answers it.

Part A — The Institute and its people

- Tell me about AIDTM → A.0
- Who runs AIDTM and how do I contact them? → A.0
- What is in Part A? → A.0
- What is AIDTM? → A.1.1
- When was AIDTM established? → A.1.1
- What is the vision and mission of AIDTM? → A.1.1
- Is AIDTM AICTE approved? → A.1.1
- Who is the President of AIDTM? → A.1.1
- What does AIDTM teach and focus on? → A.1.2
- Can students from a non-technical background join? → A.1.2
- What kind of analytics does the BDA programme cover? → A.1.2
- What is the Adani Group? → A.1.3
- Who is the chairman of the Adani Group? → A.1.3
- What is Dr. Priti Adani’s role at AIDTM? → A.1.3
- What does Growth with Goodness mean? → A.1.3
- Who is Dr. Priti Adani? → A.1.4
- What does the Adani Foundation do? → A.1.4
- How many villages does the Adani Foundation work in? → A.1.4
- Who is Gautam Adani? → A.1.5
- Who is Dr. Malay Mahadevia? → A.1.5
- What is the market capitalisation of the Adani Group? → A.1.5
- Where can I find the AICTE approval? → A.1.6
- Does AIDTM have an SC/ST cell or women development cell? → A.1.6
- What are AIDTM’s social media handles? → A.1.6
- Is there a virtual campus tour? → A.1.6
- What is the address of AIDTM? → A.2.1
- What is the Program Office phone number? → A.2.1
- How do I contact admissions? → A.2.1
- What is the reception number? → A.2.1
- What is the WhatsApp number? → A.2.1
- Which office handles fees? → A.2.2
- Who is the Programme Officer? → A.2.2
- Who handles placements? → A.2.2
- Who is the IT officer? → A.2.2
- Who is the librarian? → A.2.2
- Whom do I contact for what? → A.2.2
- Who is the Dean of AIDTM? → A.2.3
- Who is the PGP Chair? → A.2.3
- Who are the faculty members? → A.2.3
- Who are the visiting faculty? → A.2.3
- What is Dr. Ankit Shah’s role? → A.2.4
- Which committees is Dr. Rama Moondra on? → A.2.4
- Who is Mr. Jay Joshi? → A.2.4
- Who teaches which course in Trimester I? → A.2.4
- Which documents is this handbook based on? → A.3.1
- What version is the Late Fees Policy? → A.3.1
- Who approved the Late Fees Policy? → A.3.1
- What if two documents give different dates or rules? → A.3.2
- Which calendar date is correct for the start of Trimester III? → A.3.2
- Is the SIP 4 months or 5 months? → A.3.2
- Which exam reporting time applies to me? → A.3.2
- Can the Institute change the rules during my programme? → A.3.3
- Do revised rules apply to my batch? → A.3.3

Part B — Programmes and trimester plans

- What are all the subjects in all trimesters? → B.0
- Give me the full curriculum → B.0
- What will I study in each trimester? → B.0
- Compare the BDA and AI & DS programmes → B.0
- How long is the PGDM? → B.1.1
- How many trimesters are there? → B.1.1
- When does the programme end? → B.1.1
- What is the maximum time to complete the PGDM? → B.1.1
- Are core courses compulsory? → B.1.1
- What is a credit? → B.1.2
- How many hours is a 3-credit course? → B.1.2
- How many credits is the summer internship? → B.1.2
- How are classes taught? → B.1.3
- What is the teaching method at AIDTM? → B.1.3
- Are there industrial visits and simulations? → B.1.3
- How do group projects work? → B.1.4
- When is the capstone project? → B.1.4
- What happens if group members don’t contribute? → B.1.4
- What is the Diploma in Strategic Management? → B.1.5
- Is the PGDM a dual degree? → B.1.5

- Who awards the second diploma? → B.1.5
- What is the PGDM BDA programme? → B.2.1
- What is the intake for BDA? → B.2.1
- What jobs can I get after BDA? → B.2.1
- What is covered in BDA? → B.2.1
- Why study big data analytics? → B.2.2
- What is the big data market size? → B.2.2
- Which industries use big data analytics? → B.2.2
- Why join AIDTM for BDA? → B.2.2
- List all BDA subjects → B.2.3
- What subjects are in BDA second year? → B.2.3
- Is NoSQL taught in BDA? → B.2.3
- What is the PGDM AI & DS programme? → B.3.1
- What is the intake for AI & DS? → B.3.1
- What careers does AI & DS lead to? → B.3.1
- Why study AI and data science? → B.3.2
- What is the AI market size? → B.3.2
- Which industries use AI? → B.3.2
- What job roles are there after AI & DS? → B.3.2
- List all AI & DS subjects → B.3.3
- Is reinforcement learning taught? → B.3.3
- Is NLP or computer vision in the AI & DS syllabus? → B.3.3
- How was the Year 2 curriculum decided? → B.4.1
- Are the second-year subjects final? → B.4.1
- Who confirms the trimester IV-VI courses? → B.4.1
- What subjects are in BDA Trimester I? → B.4.2
- What are the BDA semester 1 subjects? → B.4.2
- When does Trimester I start and end for BDA? → B.4.2
- When are the Trimester I exams for BDA? → B.4.2
- How many credits is BDA Trimester I? → B.4.2
- What subjects are in BDA Trimester II? → B.4.3
- What are the BDA semester 2 subjects? → B.4.3
- When does Trimester II start and end for BDA? → B.4.3
- When are the Trimester II exams for BDA? → B.4.3
- How many credits is BDA Trimester II? → B.4.3
- What subjects are in BDA Trimester III? → B.4.4
- What are the BDA semester 3 subjects? → B.4.4
- When does Trimester III start and end for BDA? → B.4.4
- When are the Trimester III exams for BDA? → B.4.4
- How many credits is BDA Trimester III? → B.4.4
- What subjects are in BDA Trimester IV? → B.4.5
- What are the BDA semester 4 subjects? → B.4.5
- When does Trimester IV start and end for BDA? → B.4.5
- When are the Trimester IV exams for BDA? → B.4.5
- How many credits is BDA Trimester IV? → B.4.5
- What subjects are in BDA Trimester V? → B.4.6
- What are the BDA semester 5 subjects? → B.4.6
- When does Trimester V start and end for BDA? → B.4.6
- When are the Trimester V exams for BDA? → B.4.6
- How many credits is BDA Trimester V? → B.4.6
- What subjects are in BDA Trimester VI? → B.4.7
- What are the BDA semester 6 subjects? → B.4.7
- When does Trimester VI start and end for BDA? → B.4.7
- When are the Trimester VI exams for BDA? → B.4.7
- How many credits is BDA Trimester VI? → B.4.7
- What subjects are in AI & DS Trimester I? → B.4.8
- What are the AI & DS semester 1 subjects? → B.4.8
- When does Trimester I start and end for AI & DS? → B.4.8
- When are the Trimester I exams for AI & DS? → B.4.8
- How many credits is AI & DS Trimester I? → B.4.8
- What subjects are in AI & DS Trimester II? → B.4.9
- What are the AI & DS semester 2 subjects? → B.4.9
- When does Trimester II start and end for AI & DS? → B.4.9
- When are the Trimester II exams for AI & DS? → B.4.9
- How many credits is AI & DS Trimester II? → B.4.9
- What subjects are in AI & DS Trimester III? → B.4.10
- What are the AI & DS semester 3 subjects? → B.4.10
- When does Trimester III start and end for AI & DS? → B.4.10
- When are the Trimester III exams for AI & DS? → B.4.10
- How many credits is AI & DS Trimester III? → B.4.10
- What subjects are in AI & DS Trimester IV? → B.4.11
- What are the AI & DS semester 4 subjects? → B.4.11
- When does Trimester IV start and end for AI & DS? → B.4.11
- When are the Trimester IV exams for AI & DS? → B.4.11
- How many credits is AI & DS Trimester IV? → B.4.11
- What subjects are in AI & DS Trimester V? → B.4.12
- What are the AI & DS semester 5 subjects? → B.4.12
- When does Trimester V start and end for AI & DS? → B.4.12
- When are the Trimester V exams for AI & DS? → B.4.12
- How many credits is AI & DS Trimester V? → B.4.12
- What subjects are in AI & DS Trimester VI? → B.4.13

- What are the AI & DS semester 6 subjects? → B.4.13
- When does Trimester VI start and end for AI & DS? → B.4.13
- When are the Trimester VI exams for AI & DS? → B.4.13
- How many credits is AI & DS Trimester VI? → B.4.13
- Who teaches which course in AI & DS Trimester I? → B.4.14
- How many sessions does each Trimester I course have? → B.4.14
- What are the short names DASQL, PDS, IAI, EIMI? → B.4.14
- How many sessions are there in AI & DS Trimester I? → B.4.15
- How many lab sessions are there? → B.4.15
- How many sessions does each faculty teach? → B.4.15
- List the subjects of all three programmes → B.4.16
- What are the EPAAA modules? → B.4.16
- What are all Year 1 subjects for BDA and AI & DS? → B.4.16
- What is the difference between BDA and AI & DS? → B.4.17
- Which subjects are common to both programmes? → B.4.17
- Which subjects are only in BDA or only in AI & DS? → B.4.17
- How many credits is Year 1? → B.4.17
- When are the strategic management diploma classes? → B.4.18
- Which diploma modules are in which trimester? → B.4.18
- How do electives work? → B.4.19
- Can I take an elective from the other programme? → B.4.19
- What is the minimum number of students for an elective? → B.4.19
- What is EPAAA? → B.5.1
- What is the executive programme at AIDTM? → B.5.1
- Who can apply to EPAAA? → B.5.1
- What is the EPAAA fee? → B.5.1
- When does EPAAA start? → B.5.2
- How many hours and sessions is EPAAA? → B.5.2
- How do I apply to the executive programme? → B.5.2
- Who do I contact for EPAAA? → B.5.2
- What will I learn in EPAAA? → B.5.3
- What tools does EPAAA cover? → B.5.3
- What are the EPAAA learning outcomes? → B.5.3

Part C — Course catalogue

- What courses are there? → C.0
- How are courses assessed? → C.0
- Where can I find the syllabus of a course? → C.0
- Are the course descriptions official? → C.0
- What is taught in Data Analysis using SQL? → C.1.1
- What are the units or topics of Data Analysis using SQL (DASQL)? → C.1.1
- Which trimester is Data Analysis using SQL in? → C.1.1
- How many credits is Data Analysis using SQL? → C.1.1
- Who teaches Data Analysis using SQL? → C.1.1
- How is Data Analysis using SQL assessed? → C.1.1
- What is taught in Express, Impress, Managers Impact? → C.1.2
- What are the units or topics of Express, Impress, Managers Impact (EIMI)? → C.1.2
- Which trimester is Express, Impress, Managers Impact in? → C.1.2
- How many credits is Express, Impress, Managers Impact? → C.1.2
- Who teaches Express, Impress, Managers Impact? → C.1.2
- How is Express, Impress, Managers Impact assessed? → C.1.2
- What is taught in Professional Communicative English - I? → C.1.3
- What are the units or topics of Professional Communicative English - I (PCE-I)? → C.1.3
- Which trimester is Professional Communicative English - I in? → C.1.3
- How many credits is Professional Communicative English - I? → C.1.3
- Who teaches Professional Communicative English - I? → C.1.3
- How is Professional Communicative English - I assessed? → C.1.3
- What is taught in Python for Data Science? → C.1.4
- What are the units or topics of Python for Data Science (PDS)? → C.1.4
- Which trimester is Python for Data Science in? → C.1.4
- How many credits is Python for Data Science? → C.1.4
- Who teaches Python for Data Science? → C.1.4
- How is Python for Data Science assessed? → C.1.4
- What is taught in Cloud Computing? → C.1.5
- What are the units or topics of Cloud Computing (CC)? → C.1.5
- Which trimester is Cloud Computing in? → C.1.5
- How many credits is Cloud Computing? → C.1.5
- Who teaches Cloud Computing? → C.1.5
- How is Cloud Computing assessed? → C.1.5
- What is taught in Data Exploration & Visualisation using Python? → C.1.6
- What are the units or topics of Data Exploration & Visualisation using Python (DEVP)? → C.1.6
- Which trimester is Data Exploration & Visualisation using Python in? → C.1.6
- How many credits is Data Exploration & Visualisation using Python? → C.1.6
- Who teaches Data Exploration & Visualisation using Python? → C.1.6
- How is Data Exploration & Visualisation using Python assessed? → C.1.6
- What is taught in Introduction to Big Data Analytics? → C.1.7
- What are the units or topics of Introduction to Big Data Analytics (IBDA)? → C.1.7
- Which trimester is Introduction to Big Data Analytics in? → C.1.7
- How many credits is Introduction to Big Data Analytics? → C.1.7
- Who teaches Introduction to Big Data Analytics? → C.1.7
- How is Introduction to Big Data Analytics assessed? → C.1.7
- What is taught in Introduction to Machine Learning? → C.1.8

- What are the units or topics of Introduction to Machine Learning (IML)? → C.1.8
- Which trimester is Introduction to Machine Learning in? → C.1.8
- How many credits is Introduction to Machine Learning? → C.1.8
- Who teaches Introduction to Machine Learning? → C.1.8
- How is Introduction to Machine Learning assessed? → C.1.8
- What is taught in Data Driven Decision Making? → C.1.9
- What are the units or topics of Data Driven Decision Making (DDDM)? → C.1.9
- Which trimester is Data Driven Decision Making in? → C.1.9
- How many credits is Data Driven Decision Making? → C.1.9
- Who teaches Data Driven Decision Making? → C.1.9
- How is Data Driven Decision Making assessed? → C.1.9
- What is taught in SIP Preparation? → C.1.10
- What are the units or topics of SIP Preparation (SIPP)? → C.1.10
- Which trimester is SIP Preparation in? → C.1.10
- How many credits is SIP Preparation? → C.1.10
- Who teaches SIP Preparation? → C.1.10
- How is SIP Preparation assessed? → C.1.10
- What is taught in Deep Learning? → C.1.11
- What are the units or topics of Deep Learning (DL)? → C.1.11
- Which trimester is Deep Learning in? → C.1.11
- How many credits is Deep Learning? → C.1.11
- Who teaches Deep Learning? → C.1.11
- How is Deep Learning assessed? → C.1.11
- What is taught in Image Processing using Python? → C.1.12
- What are the units or topics of Image Processing using Python (IPP)? → C.1.12
- Which trimester is Image Processing using Python in? → C.1.12
- How many credits is Image Processing using Python? → C.1.12
- Who teaches Image Processing using Python? → C.1.12
- How is Image Processing using Python assessed? → C.1.12
- What is taught in Statistical Learning? → C.1.13
- What are the units or topics of Statistical Learning (SL)? → C.1.13
- Which trimester is Statistical Learning in? → C.1.13
- How many credits is Statistical Learning? → C.1.13
- Who teaches Statistical Learning? → C.1.13
- How is Statistical Learning assessed? → C.1.13
- What is taught in Fundamentals of Finance? → C.2.1
- What are the units or topics of Fundamentals of Finance (FOF)? → C.2.1
- Which trimester is Fundamentals of Finance in? → C.2.1
- How many credits is Fundamentals of Finance? → C.2.1
- Who teaches Fundamentals of Finance? → C.2.1
- How is Fundamentals of Finance assessed? → C.2.1
- What is taught in Statistics for Data Analytics using Excel? → C.2.2
- What are the units or topics of Statistics for Data Analytics using Excel (SDAE)? → C.2.2
- Which trimester is Statistics for Data Analytics using Excel in? → C.2.2
- How many credits is Statistics for Data Analytics using Excel? → C.2.2
- Who teaches Statistics for Data Analytics using Excel? → C.2.2
- How is Statistics for Data Analytics using Excel assessed? → C.2.2
- What is taught in Advanced Statistics? → C.2.3
- What are the units or topics of Advanced Statistics (AS)? → C.2.3
- Which trimester is Advanced Statistics in? → C.2.3
- How many credits is Advanced Statistics? → C.2.3
- Who teaches Advanced Statistics? → C.2.3
- How is Advanced Statistics assessed? → C.2.3
- What is taught in Enterprise Data Visualisation? → C.2.4
- What are the units or topics of Enterprise Data Visualisation (EDV)? → C.2.4
- Which trimester is Enterprise Data Visualisation in? → C.2.4
- How many credits is Enterprise Data Visualisation? → C.2.4
- Who teaches Enterprise Data Visualisation? → C.2.4
- How is Enterprise Data Visualisation assessed? → C.2.4
- What is taught in HR Analytics? → C.2.5
- What are the units or topics of HR Analytics (HRA)? → C.2.5
- Which trimester is HR Analytics in? → C.2.5
- How many credits is HR Analytics? → C.2.5
- Who teaches HR Analytics? → C.2.5
- How is HR Analytics assessed? → C.2.5
- What is taught in Python Essentials for Machine Learning? → C.2.6
- What are the units or topics of Python Essentials for Machine Learning (PEML)? → C.2.6
- Which trimester is Python Essentials for Machine Learning in? → C.2.6
- How many credits is Python Essentials for Machine Learning? → C.2.6
- Who teaches Python Essentials for Machine Learning? → C.2.6
- How is Python Essentials for Machine Learning assessed? → C.2.6
- What is taught in Entrepreneurship Essentials? → C.2.7
- What are the units or topics of Entrepreneurship Essentials (EE)? → C.2.7
- Which trimester is Entrepreneurship Essentials in? → C.2.7
- How many credits is Entrepreneurship Essentials? → C.2.7
- Who teaches Entrepreneurship Essentials? → C.2.7
- How is Entrepreneurship Essentials assessed? → C.2.7
- What is taught in Data Warehousing & Data Mining? → C.2.8
- What are the units or topics of Data Warehousing & Data Mining (DWDM)? → C.2.8
- Which trimester is Data Warehousing & Data Mining in? → C.2.8
- How many credits is Data Warehousing & Data Mining? → C.2.8

- Who teaches Data Warehousing & Data Mining? → C.2.8
- How is Data Warehousing & Data Mining assessed? → C.2.8
- What is taught in NoSQL Database? → C.2.9
- What are the units or topics of NoSQL Database (NOSQL)? → C.2.9
- Which trimester is NoSQL Database in? → C.2.9
- How many credits is NoSQL Database? → C.2.9
- Who teaches NoSQL Database? → C.2.9
- How is NoSQL Database assessed? → C.2.9
- What is taught in Marketing Management? → C.2.10
- What are the units or topics of Marketing Management (MM)? → C.2.10
- Which trimester is Marketing Management in? → C.2.10
- How many credits is Marketing Management? → C.2.10
- Who teaches Marketing Management? → C.2.10
- How is Marketing Management assessed? → C.2.10
- What is taught in Time Series & Forecasting Techniques? → C.2.11
- What are the units or topics of Time Series & Forecasting Techniques (TSF)? → C.2.11
- Which trimester is Time Series & Forecasting Techniques in? → C.2.11
- How many credits is Time Series & Forecasting Techniques? → C.2.11
- Who teaches Time Series & Forecasting Techniques? → C.2.11
- How is Time Series & Forecasting Techniques assessed? → C.2.11
- What is taught in Business Analytics, Intelligence & Forecasting? → C.2.12
- What are the units or topics of Business Analytics, Intelligence & Forecasting (BAIF)? → C.2.12
- Which trimester is Business Analytics, Intelligence & Forecasting in? → C.2.12
- How many credits is Business Analytics, Intelligence & Forecasting? → C.2.12
- Who teaches Business Analytics, Intelligence & Forecasting? → C.2.12
- How is Business Analytics, Intelligence & Forecasting assessed? → C.2.12
- What is taught in Social Media & Social Network Analytics? → C.2.13
- What are the units or topics of Social Media & Social Network Analytics (SMSNA)? → C.2.13
- Which trimester is Social Media & Social Network Analytics in? → C.2.13
- How many credits is Social Media & Social Network Analytics? → C.2.13
- Who teaches Social Media & Social Network Analytics? → C.2.13
- How is Social Media & Social Network Analytics assessed? → C.2.13
- What is taught in Natural Language Processing for Business? → C.2.14
- What are the units or topics of Natural Language Processing for Business (NLPB)? → C.2.14
- Which trimester is Natural Language Processing for Business in? → C.2.14
- How many credits is Natural Language Processing for Business? → C.2.14
- Who teaches Natural Language Processing for Business? → C.2.14
- How is Natural Language Processing for Business assessed? → C.2.14
- What is taught in Analytical Insights into Networking, Cyber Security & Fraud Detection? → C.2.15
- What are the units or topics of Analytical Insights into Networking, Cyber Security & Fraud Detection (NCSFD)? → C.2.15
- Which trimester is Analytical Insights into Networking, Cyber Security & Fraud Detection in? → C.2.15
- How many credits is Analytical Insights into Networking, Cyber Security & Fraud Detection? → C.2.15
- Who teaches Analytical Insights into Networking, Cyber Security & Fraud Detection? → C.2.15
- How is Analytical Insights into Networking, Cyber Security & Fraud Detection assessed? → C.2.15
- What is taught in Blockchain Technology & Cyber Terrorism? → C.2.16
- What are the units or topics of Blockchain Technology & Cyber Terrorism (BCT)? → C.2.16
- Which trimester is Blockchain Technology & Cyber Terrorism in? → C.2.16
- How many credits is Blockchain Technology & Cyber Terrorism? → C.2.16
- Who teaches Blockchain Technology & Cyber Terrorism? → C.2.16
- How is Blockchain Technology & Cyber Terrorism assessed? → C.2.16
- What is taught in Introduction to AI? → C.3.1
- What are the units or topics of Introduction to AI (IAI)? → C.3.1
- Which trimester is Introduction to AI in? → C.3.1
- How many credits is Introduction to AI? → C.3.1
- Who teaches Introduction to AI? → C.3.1
- How is Introduction to AI assessed? → C.3.1
- What is taught in Management Principles? → C.3.2
- What are the units or topics of Management Principles (MP)? → C.3.2
- Which trimester is Management Principles in? → C.3.2
- How many credits is Management Principles? → C.3.2
- Who teaches Management Principles? → C.3.2
- How is Management Principles assessed? → C.3.2
- What is taught in Statistics for AI & DS? → C.3.3
- What are the units or topics of Statistics for AI & DS (SAI&DS)? → C.3.3
- Which trimester is Statistics for AI & DS in? → C.3.3
- How many credits is Statistics for AI & DS? → C.3.3
- Who teaches Statistics for AI & DS? → C.3.3
- How is Statistics for AI & DS assessed? → C.3.3
- What is taught in Introduction to Generative AI & Prompt Engineering? → C.3.4
- What are the units or topics of Introduction to Generative AI & Prompt Engineering (GAIPE)? → C.3.4
- Which trimester is Introduction to Generative AI & Prompt Engineering in? → C.3.4
- How many credits is Introduction to Generative AI & Prompt Engineering? → C.3.4
- Who teaches Introduction to Generative AI & Prompt Engineering? → C.3.4
- How is Introduction to Generative AI & Prompt Engineering assessed? → C.3.4
- What is taught in MLOps and AI Deployment? → C.3.5
- What are the units or topics of MLOps and AI Deployment (MLOPS)? → C.3.5
- Which trimester is MLOps and AI Deployment in? → C.3.5
- How many credits is MLOps and AI Deployment? → C.3.5
- Who teaches MLOps and AI Deployment? → C.3.5
- How is MLOps and AI Deployment assessed? → C.3.5
- What is taught in Natural Language Processing? → C.3.6

- What are the units or topics of Natural Language Processing (NLP)? → C.3.6
- Which trimester is Natural Language Processing in? → C.3.6
- How many credits is Natural Language Processing? → C.3.6
- Who teaches Natural Language Processing? → C.3.6
- How is Natural Language Processing assessed? → C.3.6
- What is taught in Computer Vision? → C.3.7
- What are the units or topics of Computer Vision (CV)? → C.3.7
- Which trimester is Computer Vision in? → C.3.7
- How many credits is Computer Vision? → C.3.7
- Who teaches Computer Vision? → C.3.7
- How is Computer Vision assessed? → C.3.7
- What is taught in Data Engineering? → C.3.8
- What are the units or topics of Data Engineering (DE)? → C.3.8
- Which trimester is Data Engineering in? → C.3.8
- How many credits is Data Engineering? → C.3.8
- Who teaches Data Engineering? → C.3.8
- How is Data Engineering assessed? → C.3.8
- What is taught in Gen-AI & Large Language Models? → C.3.9
- What are the units or topics of Gen-AI & Large Language Models (GENAI)? → C.3.9
- Which trimester is Gen-AI & Large Language Models in? → C.3.9
- How many credits is Gen-AI & Large Language Models? → C.3.9
- Who teaches Gen-AI & Large Language Models? → C.3.9
- How is Gen-AI & Large Language Models assessed? → C.3.9
- What is taught in Reinforcement Learning? → C.3.10
- What are the units or topics of Reinforcement Learning (RL)? → C.3.10
- Which trimester is Reinforcement Learning in? → C.3.10
- How many credits is Reinforcement Learning? → C.3.10
- Who teaches Reinforcement Learning? → C.3.10
- How is Reinforcement Learning assessed? → C.3.10
- What is taught in Robotic Process Automation (RPA) & Intelligent Automation? → C.3.11
- What are the units or topics of Robotic Process Automation (RPA) & Intelligent Automation (RPA)? → C.3.11
- Which trimester is Robotic Process Automation (RPA) & Intelligent Automation in? → C.3.11
- How many credits is Robotic Process Automation (RPA) & Intelligent Automation? → C.3.11
- Who teaches Robotic Process Automation (RPA) & Intelligent Automation? → C.3.11
- How is Robotic Process Automation (RPA) & Intelligent Automation assessed? → C.3.11
- What is taught in Speech Recognition & Conversational AI? → C.3.12
- What are the units or topics of Speech Recognition & Conversational AI (SRCA)? → C.3.12
- Which trimester is Speech Recognition & Conversational AI in? → C.3.12
- How many credits is Speech Recognition & Conversational AI? → C.3.12
- Who teaches Speech Recognition & Conversational AI? → C.3.12
- How is Speech Recognition & Conversational AI assessed? → C.3.12
- What is taught in Internet of Things (IoT) & Edge AI? → C.3.13
- What are the units or topics of Internet of Things (IoT) & Edge AI (IOT)? → C.3.13
- Which trimester is Internet of Things (IoT) & Edge AI in? → C.3.13
- How many credits is Internet of Things (IoT) & Edge AI? → C.3.13
- Who teaches Internet of Things (IoT) & Edge AI? → C.3.13
- How is Internet of Things (IoT) & Edge AI assessed? → C.3.13
- What is taught in Data Intelligence and Analytics? → C.3.14
- What are the units or topics of Data Intelligence and Analytics (DIA)? → C.3.14
- Which trimester is Data Intelligence and Analytics in? → C.3.14
- How many credits is Data Intelligence and Analytics? → C.3.14
- Who teaches Data Intelligence and Analytics? → C.3.14
- How is Data Intelligence and Analytics assessed? → C.3.14
- What is taught in AI Ethics, Governance & Responsible AI? → C.3.15
- What are the units or topics of AI Ethics, Governance & Responsible AI (RAI)? → C.3.15
- Which trimester is AI Ethics, Governance & Responsible AI in? → C.3.15
- How many credits is AI Ethics, Governance & Responsible AI? → C.3.15
- Who teaches AI Ethics, Governance & Responsible AI? → C.3.15
- How is AI Ethics, Governance & Responsible AI assessed? → C.3.15
- What is taught in Business Management? → C.3.16
- What are the units or topics of Business Management (BM)? → C.3.16
- Which trimester is Business Management in? → C.3.16
- How many credits is Business Management? → C.3.16
- Who teaches Business Management? → C.3.16
- How is Business Management assessed? → C.3.16
- What is taught in Project courses I to V? → C.4.1
- What are the units or topics of Project courses I to V (PRJ)? → C.4.1
- Which trimester is Project courses I to V in? → C.4.1
- How many credits is Project courses I to V? → C.4.1
- Who teaches Project courses I to V? → C.4.1
- How is Project courses I to V assessed? → C.4.1
- What is taught in Summer Internship Program (course view)? → C.4.2
- What are the units or topics of Summer Internship Program (course view) (SIP)? → C.4.2
- Which trimester is Summer Internship Program (course view) in? → C.4.2
- How many credits is Summer Internship Program (course view)? → C.4.2
- Who teaches Summer Internship Program (course view)? → C.4.2
- How is Summer Internship Program (course view) assessed? → C.4.2
- What is taught in Industrial Capstone Project? → C.4.3
- What are the units or topics of Industrial Capstone Project (CAP)? → C.4.3
- Which trimester is Industrial Capstone Project in? → C.4.3
- How many credits is Industrial Capstone Project? → C.4.3

- Who teaches Industrial Capstone Project? → C.4.3
- How is Industrial Capstone Project assessed? → C.4.3
- What is taught in Capstone Seminar & Viva? → C.4.4
- What are the units or topics of Capstone Seminar & Viva (CSV)? → C.4.4
- Which trimester is Capstone Seminar & Viva in? → C.4.4
- How many credits is Capstone Seminar & Viva? → C.4.4
- Who teaches Capstone Seminar & Viva? → C.4.4
- How is Capstone Seminar & Viva assessed? → C.4.4
- What is taught in the Diploma in Strategic Management? → C.5.1
- What are the strategic management diploma modules? → C.5.1
- When are the diploma modules taught? → C.5.1
- How is the diploma assessed? → C.5.1
- What are the EPAAA modules? → C.6.1
- What is taught in the executive programme? → C.6.1
- Which tools does each EPAAA module use? → C.6.1

Part D — Academic regulations

- Explain all the academic rules → D.0
- How am I evaluated and graded? → D.0
- What are the pass and fail rules? → D.0
- Give me the complete grading and attendance policy → D.0
- What is the minimum attendance? → D.1.1
- Can I sit the end-term exam with less than 70% attendance? → D.1.1
- How many classes can I miss? → D.1.1
- Do I get attendance if I am late? → D.1.1
- Is there a make-up exam if I miss one? → D.1.1
- How do I apply for leave? → D.1.2
- What do I do if I am sick? → D.1.2
- Does medical leave count as absence? → D.1.2
- Can I take leave for a family emergency? → D.1.2
- What happens if I am absent for a long time? → D.1.2
- What are the class timings? → D.1.3
- How long is each session? → D.1.3
- Are there classes on Saturday? → D.1.3
- When is the lunch break? → D.1.3
- When is the timetable published? → D.1.3
- How am I evaluated in a course? → D.2.1
- What are the evaluation components? → D.2.1
- Where do I find the marks breakdown for a course? → D.2.1
- What is the grading scale? → D.2.2
- What grade points does an A get? → D.2.2
- What is the pass grade? → D.2.2
- What is the maximum CGPA? → D.2.2
- How is the final course grade calculated? → D.2.2
- How is GPA calculated? → D.2.3
- How is CGPA calculated? → D.2.3
- How do I convert CGPA to percentage? → D.2.3
- What CGPA is first class or 60%? → D.2.3
- What is an I grade? → D.2.4
- What happens if I miss an exam with permission? → D.2.4
- When must I clear an incomplete grade? → D.2.4
- Does an I grade become F? → D.2.4
- When will I get my grades? → D.2.5
- Who communicates the final grades? → D.2.5
- How are marks shared? → D.2.5
- How do I appeal a grade? → D.3.1
- I am not happy with my marks, what can I do? → D.3.1
- What is the grade revision process? → D.3.1
- How long do I have to dispute a grade? → D.3.1
- What happens if I fail a subject? → D.3.2
- Is there a supplementary exam? → D.3.2
- How do I clear an F grade? → D.3.2
- What is the re-assessment fee? → D.3.2
- What do I need to graduate? → D.3.3
- What is the minimum CGPA to get the PGDM? → D.3.3
- Can I graduate with an F grade? → D.3.3
- Can I get my diploma if I have dues? → D.3.3
- Can I change my course or elective? → D.4.1
- How do I drop an elective? → D.4.1
- Can I switch from AI & DS to BDA? → D.4.1
- Can I audit a course? → D.4.1
- What is the deadline to change electives? → D.4.1
- How do I get a bonafide certificate? → D.4.2
- How do I get my transcript? → D.4.2
- How long does a certificate take? → D.4.2
- What is the fee for a transcript? → D.4.2
- How do I get an NOC for an internship? → D.4.2
- Can my employer verify my grades? → D.4.2
- What does the student portal show? → D.4.3
- Where can I see my attendance? → D.4.3
- What is the LMS used for? → D.4.3
- My attendance is wrong, what do I do? → D.4.3

- Do I need a laptop? → D.4.4
- What laptop configuration is required? → D.4.4
- What software do I need to install? → D.4.4
- How do I give feedback on a course? → D.4.5
- How often is course feedback collected? → D.4.5
- Can I use ChatGPT for assignments? → D.5.1
- Is using AI tools plagiarism? → D.5.1
- Do I have to declare AI use? → D.5.1
- Can I upload company data to an AI tool? → D.5.1
- What happens if I use AI in an exam? → D.5.1

Part E — Examinations

- Tell me everything about exams → E.0
- What are the exam rules? → E.0
- What should I bring to the exam? → E.0
- What are the exam dates for all trimesters? → E.0
- What time should I reach the exam hall? → E.1.1
- Can I enter the exam late? → E.1.1
- What documents do I need for the exam? → E.1.1
- What if I forget my ID card or hall ticket? → E.1.1
- Can I bring my phone to the exam? → E.1.2
- Is a scientific calculator allowed? → E.1.2
- Can I bring notes to the exam? → E.1.2
- What happens if my phone is found in the exam? → E.1.2
- Can I go to the restroom during the exam? → E.1.3
- Where do I do rough work? → E.1.3
- Can I talk during the exam? → E.1.3
- Are exams monitored by CCTV? → E.1.3
- When can I leave the exam hall? → E.1.4
- Can I submit early and leave? → E.1.4
- Can I leave in the last few minutes? → E.1.4
- What happens if I am caught cheating? → E.2.1
- What is unfair means (UFM)? → E.2.1
- What is the penalty for copying in an exam? → E.2.1
- What are all 15 Handbook exam rules? → E.3.1
- Give me the full list of exam instructions → E.3.1
- What is the AI & DS exam code of conduct? → E.3.2
- List all 11 exam rules for AI & DS → E.3.2

Part F — Fees and finance

- Tell me everything about fees → F.0
- Explain the complete fee structure and rules → F.0
- What are all the fee details? → F.0
- How do fees, late fees and refunds work? → F.0
- What is the total fee for the PGDM? → F.1.1
- What does the fee include? → F.1.1
- Is hostel included in the fee? → F.1.1
- Is the mess included in the fee? → F.1.1
- What are the fee installment due dates? → F.1.2
- When is the next fee installment due? → F.1.2
- How much is each installment? → F.1.2
- When is the 4th installment due? → F.1.2
- How much have I paid after each installment? → F.1.3
- How much is the first year fee? → F.1.3
- How much is the second year fee? → F.1.3
- What is the remaining fee balance? → F.1.3
- What is the fee for BDA? → F.1.4
- Is the BDA fee the same as AI & DS? → F.1.4
- What is the caution deposit? → F.1.5
- Is the caution deposit refundable? → F.1.5
- What is deducted from the caution deposit? → F.1.5
- How do I pay my fees? → F.2.1
- Can I pay by UPI or card? → F.2.1
- Can I pay by NEFT or RTGS? → F.2.1
- Is cash accepted? → F.2.1
- Can I pay in parts? → F.2.1
- Where do I get the bank account details? → F.2.1
- The payment portal failed, what should I do? → F.2.2
- Can I pay on the next working day if the portal is down? → F.2.2
- Money was debited but the fee is not showing → F.2.2
- Will I be charged a late fee if the payment failed? → F.2.2
- What if the due date is a Sunday? → F.2.2
- How do I get my fee receipt? → F.2.3
- I paid but did not get a receipt → F.2.3
- How can I check my fee status? → F.2.3
- How do I get a duplicate receipt? → F.2.3
- How do I get an education loan? → F.2.4
- What documents does the bank need from AIDTM? → F.2.4
- Will the late fee apply if my loan is delayed? → F.2.4
- Does the bank pay the Institute directly? → F.2.4
- Is education loan interest tax deductible? → F.2.4
- What is the late fee? → F.3.1

- How much is the late fee per day? → F.3.1
- What happens if I pay late? → F.3.1
- What are the late fee slabs? → F.3.1
- How is the late fee calculated? → F.3.2
- How much late fee for 10 days? → F.3.2
- How much late fee for 20 days late? → F.3.2
- What is the maximum late fee in 6 weeks? → F.3.2
- What happens if I don’t pay for more than 6 weeks? → F.3.3
- Can I sit exams if my fees are unpaid? → F.3.3
- What is the 2000 rupees per day penalty? → F.3.3
- Can the late fee be waived? → F.3.4
- Can I get an extension for my fees? → F.3.4
- Who can change the fee due dates? → F.3.4
- What happens if I have outstanding dues? → F.3.5
- Will my transcript be withheld for unpaid fees? → F.3.5
- Are unpaid late fees deducted from the caution deposit? → F.3.5
- How do I withdraw from the programme? → F.4.1
- Will I get a refund if I leave? → F.4.1
- When is the caution deposit refunded? → F.4.1
- How long does a refund take? → F.4.1
- Where is the refund paid? → F.4.1
- What are all the fines? → F.4.2
- How much is the fine for using a phone in class? → F.4.2
- What is the fine for losing my hall ticket? → F.4.2
- What is the library fine? → F.4.2

Part G — Scholarships and financial assistance

- Tell me everything about scholarships → G.0
- Which scholarships can I get? → G.0
- Explain all scholarship rules → G.0
- What scholarships does AIDTM offer? → G.1.1
- How much are the scholarships worth? → G.1.1
- Can I get two scholarships? → G.1.1
- Are scholarships paid in cash? → G.1.1
- Does the scholarship cover the caution deposit or late fees? → G.1.1
- What is the merit scholarship? → G.1.2
- What percentile do I need for a scholarship? → G.1.2
- How much is the Tier 1 scholarship? → G.1.2
- Do I need to apply for the merit scholarship? → G.1.2
- How is the merit scholarship paid? → G.1.2
- What is the academic excellence scholarship? → G.1.3
- How do I qualify for the topper scholarship? → G.1.3
- How much do the top 3 students get? → G.1.3
- When is the academic excellence scholarship announced? → G.1.3
- Is there financial help for students from low-income families? → G.1.4
- What is the income limit for need-based scholarship? → G.1.4
- What documents do I need for need-based assistance? → G.1.4
- When is the need-based scholarship deadline? → G.1.4
- Is there a scholarship for women students? → G.1.5
- How do I apply for the Women in Data & AI scholarship? → G.1.5
- How many women scholarships are there? → G.1.5
- How is the women scholarship selected? → G.1.5
- How do I apply for a scholarship? → G.2.1
- How long does a scholarship decision take? → G.2.1
- How is the scholarship adjusted in my fees? → G.2.1
- Where do I submit the scholarship form? → G.2.1
- What does my scholarship status mean? → G.2.2
- What does Under Review mean? → G.2.2
- What does Adjusted mean? → G.2.2
- Why is my scholarship on hold? → G.2.2
- How can I lose my scholarship? → G.2.3
- What CGPA do I need to keep my scholarship? → G.2.3
- What happens to my scholarship if I get an F? → G.2.3
- Will I have to return the scholarship money? → G.2.3
- Are there government scholarships for PGDM students? → G.2.4
- Can I apply for external scholarships? → G.2.4
- Can I hold an external scholarship and an AIDTM scholarship? → G.2.4

Part H — Academic calendar

- Give me the full academic calendar → H.0
- When does each trimester start and end? → H.0
- Show all exam and holiday dates → H.0
- What is the complete schedule for the batch? → H.0
- When did Trimester I start and end? → H.1.1
- When was the bridge course? → H.1.1
- What were the Trimester I exam dates? → H.1.1
- When was the 2025 Diwali break? → H.1.1
- When did Trimester II start and end? → H.1.2
- What were the Trimester II mid-term and end-term dates? → H.1.2
- When did Trimester III start and end? → H.1.3
- What were the Trimester III exam dates? → H.1.3
- When is Dhuleti 2026? → H.1.3

- When does Trimester IV end? → H.1.4
- When is the Trimester IV end-term exam? → H.1.4
- When is the Diwali vacation 2026? → H.1.4
- When does Trimester V start? → H.1.4
- When are the Trimester V exams? → H.1.5
- When does Trimester V end? → H.1.5
- When is the Trimester V mid-term? → H.1.5
- When does Trimester VI start? → H.1.6
- When is the capstone viva? → H.1.6
- When is the capstone report due? → H.1.6
- When does the programme end? → H.1.6
- When is convocation? → H.1.6
- What happens in Trimester V and VI? → H.1.7
- Are the Trimester V and VI calendars official? → H.1.7
- What are the holidays in 2025 and 2026? → H.2.1
- Is there a holiday on Gandhi Jayanti? → H.2.1
- List all holidays → H.2.1
- What are the holidays in 2027? → H.2.2
- Is Uttarayan a holiday? → H.2.2
- Is Good Friday 2027 a holiday? → H.2.2
- Give me a date-wise list of all events → H.2.3
- What happens on which date in the batch? → H.2.3
- What are all the important deadlines? → H.3.1
- What is the deadline to appeal a grade? → H.3.1
- By when must I submit a medical certificate? → H.3.1
- When is the elective change deadline? → H.3.1
- When must I clear an I grade? → H.3.1

Part I — Summer Internship, Capstone and Placements

- Tell me everything about placements → I.0
- Explain the internship and placement rules → I.0
- How do SIP, capstone and placements work? → I.0
- Is the summer internship compulsory? → I.1.1
- Does SIP guarantee a PPO or a job? → I.1.1
- Who arranges internships? → I.1.1
- How long is the summer internship? → I.1.2
- How long is the capstone project? → I.1.2
- When is the SIP? → I.1.2
- Where will my internship be? → I.1.2
- Why does the SIP matter for placements? → I.1.3
- What are the steps of the capstone project? → I.1.3
- Can a company terminate my internship? → I.1.4
- What happens if I am terminated from my internship? → I.1.4
- How is the summer internship graded? → I.2.1
- How long should the SIP report be? → I.2.1
- When is the SIP report due? → I.2.1
- When are SIP presentations? → I.2.1
- How is the capstone evaluated? → I.2.2
- What is the capstone marks breakdown? → I.2.2
- What similarity percentage is allowed in the capstone report? → I.2.2
- Do I get a stipend during the internship? → I.2.3
- How do I get an NOC for my internship? → I.2.3
- Can I find my own internship? → I.2.3
- Who pays for travel and accommodation during SIP? → I.2.3
- Can I use company data in my SIP report? → I.2.3
- How many interview opportunities do I get? → I.3.1
- What if I don’t get placed after 5 interviews? → I.3.1
- Can I find my own job or internship? → I.3.1
- How long do I have to accept an offer? → I.3.2
- Can I reject an offer after accepting it? → I.3.2
- Is it compulsory to accept a PPO? → I.3.2
- What happens if I don’t join after accepting? → I.3.2
- Can I sit for placements after I am placed? → I.3.3
- What is the 1.5 times rule? → I.3.3
- What is a dream offer? → I.3.3
- How do I opt out of placements? → I.3.4
- Can I come back to placements after opting out? → I.3.4
- I am an Adani Group employee, can I sit for placements? → I.3.5
- Will the Institute arrange SIP for Adani employees? → I.3.5
- Do I need to sign the placement policy? → I.3.6
- What does the placement declaration say? → I.3.6
- What is the placement process? → I.3.7
- Who is eligible for placements? → I.3.7
- What CGPA do I need for placements? → I.3.7
- Does missing an interview count? → I.3.7
- Is there placement training? → I.3.7
- When do placements start? → I.3.8
- When is the final placement season? → I.3.8
- When are PPOs given? → I.3.8
- When will I join my company? → I.3.8
- What is the placement record of AIDTM? → I.4.1
- What is the highest package? → I.4.1

- What is the lowest package? → I.4.1
- Which companies recruit from AIDTM? → I.4.1
- What roles are offered? → I.4.1
- What academic backgrounds do students come from? → I.4.2
- Which industries hire AIDTM students? → I.4.2
- Are there industrial visits? → I.4.2
- What is the placement dress code? → I.4.3
- Do I need a blazer for placements? → I.4.3
- What is the daily dress code? → I.4.3

Part J — Conduct and discipline

- Tell me all the discipline rules → J.0
- What can get me expelled? → J.0
- What are the penalties for misconduct? → J.0
- Can I work with friends on assignments? → J.1.1
- What is academic integrity? → J.1.1
- Do I need to cite sources? → J.1.1
- What is plagiarism? → J.1.2
- What is self-plagiarism? → J.1.2
- What is the penalty for plagiarism? → J.1.2
- Can I appeal a plagiarism penalty? → J.1.2
- What counts as plagiarism? → J.1.3
- Give examples of plagiarism → J.1.3
- What is a penalty grade? → J.1.3
- Which referencing style should I use? → J.1.4
- Where can I check my work for plagiarism? → J.1.4
- Which APA guides are recommended? → J.1.4
- Can I use my phone in class? → J.2.1
- What happens if my phone is confiscated? → J.2.1
- How much is the fine to get my phone back? → J.2.1
- What happens if I mark proxy attendance? → J.2.2
- Can I ask a teacher to increase my grade? → J.2.2
- Is mass bunking allowed? → J.2.2
- Can I smoke on campus? → J.2.3
- Can I do a part-time job or freelancing during the PGDM? → J.2.3
- How do I complain about a staff member? → J.2.3
- What are the general campus rules? → J.2.4
- What is the dress code? → J.2.4
- Do I need to carry my ID card all the time? → J.2.4
- What is the punishment for ragging? → J.3.1
- What should I do if I am ragged? → J.3.1
- Is the anti-ragging undertaking compulsory? → J.3.1
- Why are the anti-ragging rules so strict? → J.3.2
- When must the Institute file an FIR for ragging? → J.3.2
- How is misconduct handled? → J.4.1
- Who decides disciplinary action? → J.4.1
- Can I appeal a disciplinary decision? → J.4.1
- Can an expelled student be re-admitted? → J.4.1

Part K — Facilities

- Tell me about all the facilities → K.0
- What facilities does AIDTM have? → K.0
- Where do I go in an emergency? → K.0
- What are the library timings? → K.1.1
- Is the library open on Saturday? → K.1.1
- What is KOHA? → K.1.1
- Is library membership free? → K.1.1
- What books and journals does the library have? → K.1.2
- Which subjects does the library cover? → K.1.2
- How many books can I borrow? → K.1.3
- For how many days can I borrow a book? → K.1.3
- What is the library fine? → K.1.3
- Can I renew a book? → K.1.3
- What if I lose a library book? → K.1.4
- What if I damage a library book? → K.1.4
- When is a book treated as lost? → K.1.4
- What are the library rules? → K.1.5
- Can I take my bag into the library? → K.1.5
- Can I eat in the library? → K.1.5
- What computers are in the lab? → K.2.1
- Can I use a pen drive in the lab? → K.2.1
- How do I log in to lab computers? → K.2.1
- What is the internet speed? → K.2.1
- How do I connect to campus Wi-Fi? → K.2.2
- How many devices can I connect? → K.2.2
- I forgot my password, what do I do? → K.2.2
- Can I use a VPN or torrents on campus? → K.2.2
- Is my internet use monitored? → K.2.2
- What facilities are in the classrooms? → K.3.1
- How is attendance taken? → K.3.1
- Can I use a pen drive on the flip board? → K.3.1
- Is there a sports room? → K.3.2

- How do I borrow sports equipment? → K.3.2
- When can I use the recreation facility? → K.3.2
- Does the Institute provide printing? → K.3.3
- Is stationery provided? → K.3.3
- What do I do in a medical emergency? → K.4.1
- What is the ambulance number? → K.4.1
- Which hospitals are near the campus? → K.4.1
- What is the address of the nearest hospital? → K.4.1

Part L — Hostel and campus life

- Tell me everything about the hostel → L.0
- Explain hostel, mess and transport → L.0
- What is campus life like? → L.0
- Is the PGDM residential? → L.1.1
- Is hostel included in the programme fee? → L.1.1
- Whom do I contact about the hostel? → L.1.1
- How much is the hostel fee? → L.1.2
- What types of hostel rooms are there? → L.1.2
- What is included in the hostel fee? → L.1.2
- Is there a hostel deposit? → L.1.2
- Do I pay hostel fees during the internship? → L.1.2
- What time must I be back in the hostel? → L.1.3
- Can I stay out overnight? → L.1.3
- Are visitors allowed in the hostel? → L.1.3
- Can I cook in my room? → L.1.3
- Can I change my hostel room? → L.1.3
- How much is the mess fee? → L.1.4
- What are the mess timings? → L.1.4
- Is the mess vegetarian? → L.1.4
- Is Jain food available? → L.1.4
- Can I get a mess refund when I am away? → L.1.4
- Is there a college bus? → L.1.5
- How much is the transport fee? → L.1.5
- What are the shuttle timings? → L.1.5
- Is parking available? → L.1.5
- What clubs are there at AIDTM? → L.2.1
- How do I join a club? → L.2.1
- Can I start a new club? → L.2.1
- Is there a placement committee? → L.2.1
- Is the campus safe? → L.2.2
- What are the emergency numbers? → L.2.2
- Can my family visit me on campus? → L.2.2
- Where is lost and found? → L.2.2
- Who do I contact for women’s safety? → L.2.2
- Are there any academic awards? → L.2.3
- How are students recognised? → L.2.3
- When is the convocation? → L.2.4
- When will I get my diploma? → L.2.4
- What alumni benefits are there? → L.2.4

Part M — Student support and grievances

- How do I get help? → M.0
- Explain the support and grievance process → M.0
- What can the helpdesk do for me? → M.0
- How do I raise a support request or ticket? → M.1.1
- Which category should I choose? → M.1.1
- Who handles my request? → M.1.1
- Can I raise a ticket for hostel or Wi-Fi problems? → M.1.1
- How long will my ticket take? → M.1.2
- What do the ticket statuses mean? → M.1.2
- What are the helpdesk working hours? → M.1.2
- My ticket is not resolved, what can I do? → M.1.3
- How do I escalate a complaint? → M.1.3
- Whom do I escalate to after the Programme Chair? → M.1.3
- How do I file a formal grievance? → M.2.1
- How long does the grievance committee take? → M.2.1
- Can I appeal to the Dean? → M.2.1
- Who is on the grievance committee? → M.2.2
- Who are the anti-ragging committee members? → M.2.2
- Who chairs the discipline committee? → M.2.2
- What does the academic committee do? → M.2.3
- What does the WGRC do? → M.2.3
- What is the SGRC? → M.2.3
- How do I report sexual harassment? → M.2.4
- Is my complaint confidential? → M.2.4
- How long does a harassment inquiry take? → M.2.4
- Do students have health insurance? → M.3.1
- How do I claim medical insurance? → M.3.1
- Is there a counsellor on campus? → M.3.1
- Is counselling confidential? → M.3.1
- Is there a mental health helpline? → M.3.1

Part N — Privacy, identity and data protection

- How is my data protected? → N.0
- Can other students see my data? → N.0
- What does the helpdesk do with my information? → N.0
- Can I see another student’s fees or grades? → N.1.1
- Can my parents get my information? → N.1.1
- Can a classmate or CR see my record? → N.1.1
- Who at the Institute can see my data? → N.1.1
- How do I change my phone number or email? → N.1.2
- How do I change my bank account for refunds? → N.1.2
- Why does my change need approval? → N.1.2
- What happens if my change request is rejected? → N.1.2
- How long does approval take? → N.1.2
- Will the helpdesk ask for my OTP or password? → N.1.3
- I shared my password by mistake, what now? → N.1.3
- How do I reset my portal password? → N.1.3
- What does the helpdesk remember about me? → N.1.4
- Can I make the helpdesk forget my data? → N.1.4
- Does the helpdesk store my OTP? → N.1.4
- Is there a log of who accessed my data? → N.1.5
- Can I see the audit log of my record? → N.1.5

Part O — Admissions and joining

- What is the eligibility for PGDM at AIDTM? → O.1.1
- Which entrance exams are accepted? → O.1.1
- How are students selected? → O.1.1
- How do I confirm my seat? → O.1.1
- Who do I contact for admissions? → O.1.1
- What documents are needed at admission? → O.1.2
- Is the anti-ragging undertaking compulsory? → O.1.2
- Do I need a medical certificate? → O.1.2
- What is my enrollment number? → O.1.3
- What if I lose my ID card? → O.1.3
- What is my student email used for? → O.1.3
- What is the bridge course? → O.1.4
- When is the bridge course? → O.1.4
- Is the bridge course compulsory? → O.1.4
- What is taught in the bridge course? → O.1.4

Part X — Appendices

- Give me the key numbers → X.1.1
- What are the important limits and numbers to remember? → X.1.1
- Quick facts about rules → X.1.1
- What does SIP mean? → X.1.2
- What is PPO? → X.1.2
- What is CTC or LPA? → X.1.2
- What does UFM stand for? → X.1.2
- What is SGRC or WGRC? → X.1.2
- What is an I grade? → X.1.2
- What is AICTE? → X.1.2
